Maintenance

Proper care ensures the longevity and optimal performance of your remote control.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the remote. Avoid using liquid cleaners or abrasive materials.
- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or stops working. Always use new alkaline AAA batteries.
- **Storage:** Store the remote in a cool, dry place away from direct sunlight and extreme temperatures. If not used for extended periods, remove the batteries to prevent leakage.

Troubleshooting

If you encounter issues with your remote control, refer to the following common problems and solutions.

Problem	Solution

Problem	Solution
Remote is not responding.	• Check if the batteries are inserted correctly with the right polarity. • Replace old batteries with new 1.5V AAA alkaline batteries. • Ensure there is a clear line of sight between the remote and the TV Box's IR receiver. • Move closer to the TV Box.
Specific buttons are not working.	• Ensure the remote is pointed directly at the TV Box. • Clean the remote's surface and buttons to remove any debris that might be obstructing them. • If only certain buttons fail, the remote might be faulty and require replacement.
Remote works intermittently.	• This often indicates low battery power. Replace the batteries. • Check for any interference from other electronic devices.
