3. SETUP & INSTALLATION

3.1 General Installation

The X10G225E is designed for standard Double-DIN dashboard openings. It adopts an IAH25DT1 style, featuring a 12.5-inch integrated touch-display head unit. Ensure the screen stays fixed and flush for a clean, integrated look. Movable mounting brackets are included and can be trimmed if necessary for optimal fit.

Standard Double-DIN Size for Most Double-DIN Dashboard Opening

* The given dimensions have a $\pm 1\text{mm}$ tolerance.

Standard Double-DIN Installation

① Remove the DIN Sleeve Assembly from the unit before installation if already attached.

② Extra parts like dash kit, data interface or harness may be needed. Installer support recommended.

③ X10G225E adopts IAH25DT1 Mounting Style [Integrated and Adaptive Head-unit of 12.5-inch Display with full UI touch control (Style 1)].

3.3 Screen Adjustability

The screen is designed to be fixed and flush for a clean, integrated look. However, it is crucial to measure your dashboard opening and ensure the 12.5-inch display does not obstruct any essential vehicle controls or vents. The unit's dimensions are approximately 310mm (width) x 184mm (height) for the screen, with the main unit being 178mm (width) x 100mm (height) x 158mm (depth).

Video 1: This video demonstrates the screen adjustability features of a similar ATOTOZONE unit, showing how the screen can be moved up, down, left, right, and rotated to optimize viewing angles and ensure safety and comfort.

4. OPERATING INSTRUCTIONS

4.1 User Interface (AICE 13 UI)

The X10G225E features a refined, custom AICE 13 UI based on Android 13, offering effortless app launches and multi-tasking. The QLED display provides 1920x1200 resolution with 550 nits brightness and light suppression coating for clear visibility.

4.2 Connectivity

- **Wireless CarPlay & Android Auto:** Enjoy seamless integration with your smartphone for navigation, music, and communication.
- **Dual Bluetooth & Wi-Fi:** Connect multiple Bluetooth devices simultaneously and access the internet via dual-band Wi-Fi.
- **4G LTE:** Utilize the built-in cellular network modem for streaming, map updates, and app installations, even creating a hotspot for passengers.
- **HDMI Input:** Connect external devices like game consoles or media sticks for enhanced entertainment.

4.4 Voice Control (DriveChat AI)

The unit features DriveChat AI Voice Assistant, based on ChatGPT, allowing for hands-free control of navigation, music playback, and other functions. Built-in and external noise-cancelling microphones ensure clearer Bluetooth calls and smoother voice control.

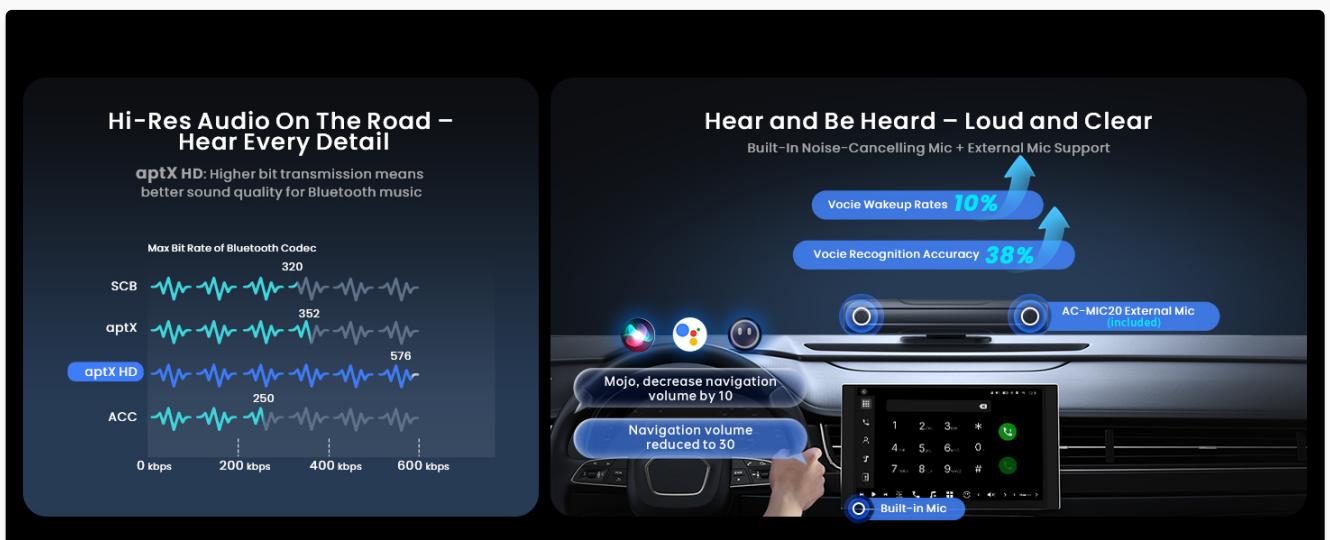

Figure 13: Hi-Res Audio and Noise-Cancelling Mics

4.5 Navigation & Tracking (TrackHU)

TrackHU provides flexible refresh rates, accurate GPS/GLONASS/Beidou positioning, track playback with speed control, geofence alerts, and instant alerts for enhanced security and monitoring.

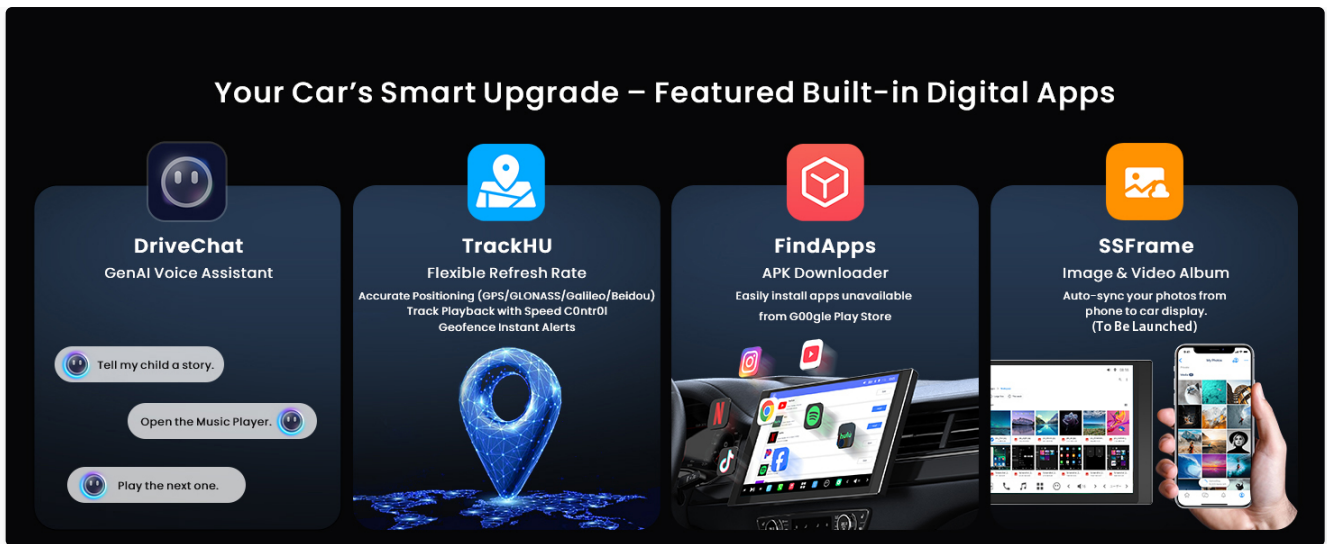

Figure 14: Built-in Digital Apps

4.6 Camera Systems

Connect two 1080P cameras (front and rear or interior) to record footage simultaneously. Features include parking monitoring, emergency video lock, and GPS-linked playback. OmniGuard Pro technology adds confidence to driving.

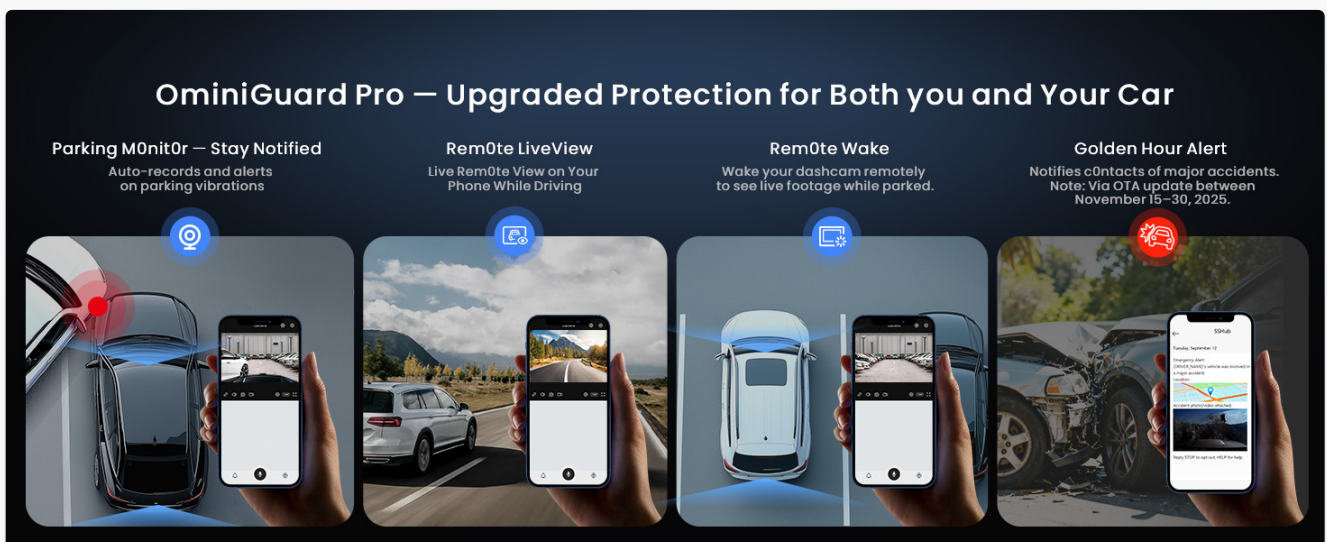

Figure 15: OmniGuard Pro Security Features

4.7 Vehicle Data Integration

The unit supports integration with steering wheel controls, factory amplifiers, and vehicle information such as gauges and climate data. Check vehicle details for compatibility before installation. Optional accessories like OBD II scanners can provide real-time vehicle data.
