Oskkude TISU

Oskkude TISU Car Stereo User Manual for Honda Civic (2013-2017)

Model: TISU | Brand: Oskkude

1. INTRODUCTION

This manual provides comprehensive instructions for the Oskkude TISU 9-inch Android 13 Car Stereo, specifically designed for Honda Civic models manufactured between 2013 and 2017 (US Version). It covers installation, operation, and maintenance to ensure optimal performance and user experience. Please read this manual thoroughly before using the product.

2. PRODUCT OVERVIEW AND COMPATIBILITY

The Oskkude TISU car stereo is an Android 13.0 system with a 9-inch touch screen, offering advanced features for your Honda Civic. It is compatible with Honda Civic models from 2013, 2014, 2015, 2016, and 2017 (US Version). Before purchase and installation, verify the year, dimensions, and shape of your vehicle's center console to ensure proper fitment.

3. KEY FEATURES

- **Android 13.0 System:** Equipped with 2GB RAM and 32GB ROM for smooth operation and fast response.
- **9-inch HD Touch Screen:** Provides a clear and responsive visual experience.
- **Wireless CarPlay & Android Auto:** Supports both wireless and wired connections for seamless integration with your smartphone, enabling voice control for navigation, calls, messages, and music.
- **GPS Navigation & WiFi:** Built-in WiFi module supports online and offline maps. Includes a built-in offline map of North America. Allows installation and deletion of Android apps from the Application Store.
- **Steering Wheel Control (SWC):** Retains original steering wheel control functions for easy song switching, channel changes, and volume adjustment, enhancing driving safety.
- **Bluetooth Connectivity:** For hands-free calling and audio streaming.
- **Backup Camera Support:** Compatible with AHD backup cameras, offering night vision and a 170° wide field of view for improved reversing safety.

- **Mirror Link:** Sync your smartphone screen to the car radio for navigation, videos, and more.
- **FM/RDS Radio:** Supports automatic or manual station searching and saving favorite stations.
- **Split Screen Functionality:** Operate two applications simultaneously, such as listening to music while navigating.
- **USB/SD/AUX Input:** Allows playback of downloaded songs and videos, and AUX audio input for external devices.

4. WHAT'S IN THE BOX

The package includes the following components:

- Oskkude TISU Car Navigation Unit
- Power Cable
- RCA Input/Output Cables
- 2 USB Cables
- Camera Input Cable
- GPS Antenna
- Instruction Manual
- Canbus Box (if applicable for your vehicle model)
- Original Car USB Cable (if applicable)
- Installation Tools (plastic pry tools)
- Backup Camera

5. INSTALLATION GUIDE

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation. Refer to your vehicle's specific service manual for dashboard disassembly and reassembly procedures. Connect all cables as per the wiring diagram provided in the included instruction manual. Pay close attention to the power, speaker, and accessory connections.

5.1 Wiring Connections

- **Power Cable:** Connect to the vehicle's power supply, ensuring correct positive and negative terminals.
- **RCA Input/Output:** For external audio/video devices or amplifiers.
- **USB Cables:** For connecting USB devices, charging, or wired CarPlay/Android Auto.
- **Camera Input:** Connect the backup camera cable here.
- **GPS Antenna:** Mount in a location with a clear view of the sky for optimal signal reception.
- **Canbus Box:** Connect if your vehicle requires it for steering wheel controls or other integrated functions.

6. OPERATING INSTRUCTIONS

6.1 Initial Setup and Navigation

Upon first power-on, the system will boot to the main interface. You can access various applications and settings from here. The built-in GPS navigation system comes with pre-loaded North American maps. For online maps and app downloads, connect to a Wi-Fi network via your smartphone's hotspot or a dedicated Wi-Fi source.

Video: Demonstrates how to start the car navigation system, including GPS, CarPlay, Android Auto, reversing image, FM/RDS radio, Bluetooth, wireless/wired mirroring, and steering wheel control setup.

6.2 Wireless CarPlay and Android Auto

Connect your compatible smartphone wirelessly or via USB to access CarPlay or Android Auto. This allows for voice-controlled navigation, hands-free calls, messaging, and music playback, keeping your focus on the road.

Wireless/Wired Apple Carplay & Android Auto

It supports both wireless and wired connections for CarPlay. Similar to CarPlay, this feature integrates an Android device with the cars system for navigation, calls, messaging, and music.

Image: Wireless Apple CarPlay and Android Auto interfaces.

6.3 Bluetooth Functionality

Pair your mobile phone via Bluetooth for hands-free calling and to stream audio directly to the car stereo. Access your phone's contacts and call history directly from the unit.

6.4 Steering Wheel Control (SWC)

The unit supports your vehicle's original steering wheel control functions. Navigate to the "Steering Learn" option in the settings to configure the buttons for functions like volume, track change, and mode selection.

Steering Wheel Control

It supports the steering wheel control functions. Easy to switch songs and radio channels, which is more convenient.

Back-up Camera

support front & rear view camera with an automatic display image when in reverse.

Image: Steering Wheel Control setup interface.

6.5 Backup Camera

When the vehicle is shifted into reverse, the display will automatically switch to the backup camera view, providing a wide-angle perspective with parking guidelines for safer maneuvering.

6.6 FM/RDS Radio

Tune into your favorite FM radio stations. The RDS (Radio Data System) feature provides additional information like station name and song title where available.

Support Split Screen

Support split-screen function, you can enjoy both interfaces at the same time .

Support FM/RDS Radio

Radio supports automatic or manual searching, and save your favorite station.

Image: FM/RDS Radio interface and Split Screen feature.

6.7 Split Screen and Mirror Link

Utilize the split-screen function to run two applications side-by-side, for example, navigation and music. Mirror Link allows you to display your smartphone's screen directly onto the car stereo for a larger view of apps and content.

Human-Interface Input	Touchscreen, Voice
Compatible Devices	Smartphone
Vehicle Service Type	Car (Honda Civic 2013-2017 US Version)
Item Weight	1861 Grams

8. MAINTENANCE AND CARE

- Keep the screen clean using a soft, lint-free cloth. Avoid abrasive cleaners.
- Ensure all connections are secure to prevent intermittent issues.
- Regularly update the system software for optimal performance and security.
- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

9. TROUBLESHOOTING

If you encounter issues, refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Sound:** Verify speaker connections, volume settings, and audio source selection.
- **Touch Screen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase user data).
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Bluetooth/CarPlay/Android Auto Connection Issues:** Ensure Bluetooth and Wi-Fi are enabled on both the stereo and your phone. Try forgetting and re-pairing the device. Refer to the video in section 6.1 for connection steps.
- **Backup Camera Not Displaying:** Check the camera input connection and ensure the vehicle is in reverse.

For further assistance, please contact Oskkude customer support.

10. WARRANTY AND SUPPORT

Oskkude products are designed for quality and reliability. For information regarding warranty coverage, technical support, or service, please refer to the warranty card included with your product or visit the official Oskkude website. Keep your purchase receipt as proof of purchase for warranty claims.
