# Hail Protector Car Cover Instruction Manual

Brand: Generic | Model: Compatible with Daewoo Nubira (GFDFVX)

## PRODUCT OVERVIEW

The Generic Hail Protector Car Cover is designed to provide comprehensive all-weather protection for your Daewoo Nubira. Crafted from high-quality materials, this cover offers superior defense against various environmental elements, ensuring your vehicle's paintwork remains protected and pristine.

Image: The Hail Protector Car Cover, designed for full vehicle coverage and protection.

### Key Features:

- **High Quality Material:** Made of PE hot air cotton, breathable and durable. Waterproof, dustproof, snowproof, sunscreen; heat insulation, high temperature resistance. Protects car body and prevents paint peeling.
- **Nighttime Visibility Boost:** Features reflective strips on mirrors and front for enhanced visibility, reducing collision risks and aiding quick vehicle location.
- **Ultimate All-Weather Defense:** Equipped with dual mount straps and side flaps for secure fit in harsh winds. Waterproof and durable, withstands prolonged moisture exposure.
- **Easy to Install:** Elastic straps ensure a firm fit, strong enough for high winds. High-quality materials and precise seams provide good waterproof performance.
- **Convenient Access:** Driver's door features a zippered side door for easy entry and exit.
- **Security:** Reflective strips prevent scratches at night.

### SETUP INSTRUCTIONS

1. **Unpack the Cover:** Carefully remove the car cover from its packaging. Ensure there are no sharp objects nearby that could damage the cover.
2. **Identify Front and Rear:** The car cover is designed to fit your Daewoo Nubira specifically. Identify the front of the cover, usually indicated by the mirror pockets and reflective strips.
3. **Position on Vehicle:** Start by placing the front of the cover over the front bumper and hood of your vehicle. Gently pull the cover over the roof towards the rear.
4. **Align Mirror Pockets:** Guide the mirror pockets over your side mirrors. This helps in proper alignment and securing the cover.
5. **Drape Evenly:** Pull the cover down evenly over all sides of the vehicle, ensuring it covers the entire body down to the wheels.

## Four-layer thickening design:

This product is made of four layers of material, the inner layer is 4 mm thick cotton material, and the outer layer is silver insulation material, which has waterproof and sunscreen functions.

## OPERATING THE CAR COVER

Once the cover is draped over your vehicle, follow these steps to secure it and utilize its features:

- **Secure with Elastic Straps:** The cover features elastic straps around the bottom hem. Ensure these straps are snugly fitted around the lower edges of your vehicle to provide a better fit and prevent wind from lifting the cover.
- **Utilize Wind Belts:** For added security, especially in strong winds, locate the integrated wind belts. Fasten these belts under the vehicle, connecting them from one side to the other. This provides additional anchoring.
- **Access Zippered Side Door:** On the driver's side, there is a zippered opening. This allows convenient access to your vehicle's interior without needing to remove the entire car cover. Simply unzip, enter/exit, and re-zip to maintain protection.
- **Nighttime Visibility:** The reflective strips located on the mirror pockets and the front of the cover enhance visibility during nighttime, making your parked vehicle more noticeable to others and reducing

the risk of accidental scratches or collisions.

- **Optional Security Lock:** If your cover includes a steel wire password lock, use it to further deter theft. Thread the steel wire through designated loops on the cover and secure it with the lock.

## MAINTENANCE

Proper maintenance will extend the life of your car cover and ensure continued protection for your vehicle.

- **Cleaning:** If the cover becomes dirty, it can be wiped clean with a damp cloth. For more stubborn dirt, a mild soap solution can be used. Rinse thoroughly and allow to air dry completely before folding or storing. Do not machine wash or tumble dry.
- **Drying:** Always ensure the car cover is completely dry before folding and storing it. Storing a damp cover can lead to mold, mildew, and damage to the material.
- **Storage:** When not in use, fold the car cover neatly and store it in a cool, dry place, away from direct sunlight and extreme temperatures. This prevents unnecessary wear and tear.
- **Pre-Covering:** For optimal protection and to prevent scratches, ensure your vehicle is clean and free of large debris (like leaves or dirt) before applying the car cover.

# CAR COVER WATERPROOF ALL WEATHER

*Help you no longer have to wake up early to wash your car*

## TROUBLESHOOTING

- **Cover Not Staying Secure:** Ensure all elastic straps are properly fitted and the wind belts are securely fastened under the vehicle. In extremely windy conditions, additional tie-downs may be necessary (not included).
- **Water Accumulation:** While the cover is waterproof, improper fit can lead to water pooling. Ensure the cover is pulled taut and evenly distributed over the vehicle, allowing water to run off. Check for any tears or punctures in the material.
- **Scratches on Paintwork:** Always ensure your vehicle is clean before applying the cover. Dust and dirt trapped between the cover and the car's surface can cause scratches. The soft cotton lining is designed to minimize this risk, but a clean surface is crucial.
- **Difficulty Folding:** Practice folding the cover neatly. Lay it flat, fold sides inward, and then roll or fold from one end to the other for compact storage.

## SPECIFICATIONS

- **Model:** GFDFVX
- **Compatibility:** Daewoo Nubira
- **Color:** Silver
- **Material Composition:**
  - Outer Layer: Durable Oxford fabric (sun proof, waterproof)
  - Middle Layer 1: Peva material (cold resistant film)
  - Middle Layer 2: Thickened cotton layer (thermal insulation, warmth preservation)
  - Inner Layer: Soft cotton lining (scratch resistant, protects car paint)
- **Water Resistance Level:** Waterproof
- **Special Features:** Reflective warning strips, elastic binding, wind belts, zippered driver's side door.
