IMPORTANT SAFETY INFORMATION

For external use only. Avoid contact with eyes. Keep away from naked flame or direct heat sources.

- Adult supervision is required at all times.
- Ensure all assembly steps are completed correctly before first use.
- Always use the safety belt provided.
- Do not operate the vehicle near streets, swimming pools, or other hazardous areas.
- Only one rider per seat. Do not exceed the maximum weight capacity of 150 lbs.
- Regularly inspect the vehicle for damage or loose parts.
- Keep hands, hair, and clothing away from moving parts.

WHAT'S IN THE BOX

Upon unpacking, please verify that all components listed below are present:

- Ride on Car x 1
- User Manual x 1
- Shovel x 1
- Sun Shade x 1

SETUP AND ASSEMBLY

Assembly of the ELEMARA Ride-On Car is designed to be straightforward. Please follow the detailed instructions provided in the included printed manual for step-by-step guidance.

Key Assembly Points:

1. **Battery Connection:** Ensure the two 12V batteries (included) are correctly installed and connected according to the manual's diagrams.
2. **Wheel Installation:** Securely attach all four wheels, ensuring anti-slip wheels are properly oriented.
3. **Sun Shade Attachment:** Mount the sun shade to the designated posts for sun protection.
4. **Dump Bed Assembly:** Assemble the lifting dump bed and ensure its functionality.
5. **Accessory Placement:** Place the shovel in its designated holder.

OPERATING INSTRUCTIONS

Charging the Battery:

- Connect the charger to the charging port on the vehicle.
- Plug the charger into a standard wall outlet.

- Charging time is typically 8-12 hours for a full charge. Do not overcharge.
- A full charge provides approximately 1.5 hours of playtime.
- The vehicle features a low battery reminder.

Image: Children enjoying the ride-on car, illustrating the 24V 10AH battery for extended playtime and the low battery reminder feature.

Driving the Vehicle:

- **Start-up:** Press the power button to turn on the vehicle.
- **Speed Selection:** Choose from three speeds: 3.1 MPH (low), 3.7 MPH (medium), and 4.5 MPH (high).
- **Soft Start Feature:** The vehicle is equipped with a soft start feature for smooth acceleration, preventing sudden jolts.
- **Forward/Reverse:** Use the gear selector to choose forward or reverse.
- **Steering:** Use the steering wheel to control direction.
- **Foot Pedal:** Press the foot pedal to accelerate. Release to brake.

Soft Start Feature

Image: The soft start feature is demonstrated with a graph, showing a gradual acceleration curve for safety and comfort.

Dual Control Modes:

- **Manual Driving:** The child can operate the vehicle using the steering wheel and foot pedal.
- **Remote Control:** Parents can override manual control using the included remote control for added safety and guidance. This is ideal for younger children or in situations requiring immediate intervention.

Image: Demonstrates dual driving modes: manual steering by a child and remote control operation by a parent, highlighting versatility.

Special Features:

- **Dump Bed:** The lifting dump bed can be used for carrying small items or for imaginative play with the included shovel.
- **Sun Shade:** Provides protection from direct sunlight during outdoor play.
- **LED Lights:** Enhance visibility and add to the realistic driving experience.
- **Bluetooth & Music Player:** Connect a device via Bluetooth to play music, or use the built-in music player for entertainment.
- **Terrain Capability:** The 4WD system and anti-slip wheels with dual spring suspension allow for smooth operation on various surfaces including gravel, sand, mud, grass, board, rubber, and concrete roads.

Ultimate Fun Ride-On UTV with Sun Shade and Storage Box

Premium Anti-Slip Wheels for Smooth Riding

Image: The ride-on car navigating different terrains, emphasizing the durability and performance of its premium anti-slip wheels.

MAINTENANCE

- **Cleaning:** Wipe the vehicle with a damp cloth. Do not use harsh chemicals or abrasive cleaners. Avoid spraying water directly onto electrical components.
- **Battery Care:**
 - Charge the battery fully after each use.

- If storing for extended periods, charge the battery every 30 days to prolong its lifespan.
- Do not store the battery in extreme temperatures.
- **Inspection:** Regularly check for loose screws, damaged wires, or worn parts. Tighten loose fasteners and replace damaged components immediately.
- **Storage:** Store the vehicle in a dry, covered area away from direct sunlight and moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move.	Battery is low or disconnected. Fuse is blown. Motor issue.	Charge the battery. Check battery connections. Replace fuse if necessary. Contact customer support if motor is suspected.
Vehicle moves slowly.	Low battery. Overload. Rough terrain.	Charge the battery fully. Reduce load. Operate on smoother surfaces.
Remote control not working.	Remote batteries are dead. Not paired correctly.	Replace remote control batteries. Refer to the main manual for pairing instructions.
Lights or music not working.	Loose connection. Electrical fault.	Check connections to the respective components. Contact customer support.

For issues not listed here or if solutions do not resolve the problem, please contact ELEMARA customer support.
