## SETUP GUIDE

---

### 1. Battery Installation

The camcorder uses two long-lasting rechargeable batteries. Ensure batteries are fully charged before first use.

1. Locate the battery compartment on the camcorder.
2. Open the battery compartment cover.
3. Insert the charged batteries according to the polarity indicators inside the compartment.
4. Close the battery compartment cover securely.

## 2. SD Card Installation

A 32GB SD card is included for immediate use. The camcorder supports SD cards for storing your videos and photos.

1. Locate the SD card slot, typically near the battery compartment.
2. Insert the SD card with the metal contacts facing down until it clicks into place.
3. To remove, gently press the card until it pops out.

## 3. Attaching Accessories

Enhance your recording experience by attaching the included accessories.

- **External Stereo Microphone:** Attach the microphone to the hot shoe mount on top of the camcorder. Connect the microphone cable to the designated audio input port. This ensures clear audio capture.
- **Handheld Stabilizer:** The anti-shake handheld stabilizer can be attached to the bottom tripod mount of the camcorder. This accessory helps in achieving smooth and steady shots, especially during movement.
- **Lens Hood:** Screw the lens hood onto the front of the camcorder's lens. The lens hood is designed to reduce glare and lens flare, improving image quality in bright outdoor conditions.

## OPERATING INSTRUCTIONS

---

### 1. Powering On/Off

To power on the camcorder, open the LCD screen. To power off, close the LCD screen or press and hold the Power button.

### 2. Using the 3.0-inch Touch Screen

The camcorder features a 3.0-inch IPS touch screen that is 270° rotatable, allowing for versatile viewing angles, including selfie-angle recording.

- **Navigation:** Tap on-screen icons to navigate menus and settings.
- **Rotation:** Gently rotate the screen to your desired angle for comfortable viewing or self-recording.

## 4. Advanced Features

- **Anti-Shake:** The built-in anti-shake function, complemented by the handheld stabilizer, ensures smooth and stable footage even during dynamic movements.
- **Time-Lapse Photography:** Capture stunning time-lapse videos by setting the desired interval in the camera settings.
- **Face Detection:** The camcorder can detect faces in the frame, optimizing focus and exposure for portraits and group shots.
- **One-Click Live Streaming:** Connect the camcorder to your computer via USB to use it as a webcam for live streaming.
- **Recording While Charging:** The camcorder supports recording while connected to a power source, ideal for extended shooting sessions.
- **Wireless Remote Control:** Use the included remote control for convenient wireless operation, perfect for self-recording or group shots.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth and solution. Avoid abrasive materials.
- **Storage:** Store the camcorder in a cool, dry place away from direct sunlight and extreme temperatures. Remove batteries if storing for extended periods.
- **Battery Care:** Fully charge batteries before storage and recharge them every few months to maintain their lifespan.

## TROUBLESHOOTING

If you encounter issues with your camcorder, refer to the following common solutions:

Problem	Possible Cause	Solution
Camera does not power on.	Low or uncharged battery; incorrectly inserted battery.	Charge batteries fully. Ensure batteries are inserted correctly.
Poor image/video quality.	Dirty lens; insufficient lighting; incorrect settings.	Clean the lens. Use IR Night Vision in low light. Adjust exposure settings.
SD card error.	SD card full; incorrectly inserted; incompatible card.	Delete files or use a new SD card. Reinsert card correctly. Ensure card is compatible (up to 32GB).
No audio recording.	External microphone not connected properly or turned off.	Check microphone connection and ensure it is powered on if applicable.

## SPECIFICATIONS

Feature	Detail
Brand	FJFJOPK
