

Shark WV201WH

Shark WANDVAC Cordless Hand Vac WV201WH Instruction Manual

Model: WV201WH

1. INTRODUCTION AND OVERVIEW

The Shark WANDVAC Cord-Free Handheld Vacuum, model WV201WH, is designed for quick and efficient cleaning tasks. This ultra-lightweight device, weighing just 1.4 lbs, offers powerful suction from its high-speed brushless motor. It is ideal for tackling everyday messes and pet hair around the home and in vehicles. This manual provides essential information for the proper setup, operation, and maintenance of your WANDVAC.

Key Features:

- **Powerful Cordless Suction:** High-speed, brushless motor for strong cleaning performance.
- **Ultra-Lightweight:** Weighs only 1.4 lbs for easy maneuverability.
- **Versatile Cleaning:** Includes specialized tools for various surfaces and debris.
- **Charging Dock:** Sleek dock for convenient storage and fast recharging.
- **One-Touch Empty:** Hygienic debris disposal with a single button press.
- **LED Indicator:** Displays charging status and remaining battery life.
- **Ergonomic Design:** Comfortable handle for enhanced control.
- **Washable Filter:** Removable and hand-washable filter for sustained efficiency.

2. WHAT'S INCLUDED

Your Shark WANDVAC package includes the following components:

- Shark WANDVAC Handheld Vacuum Unit
- Charging Dock
- Crevice Tool
- NEW FurFins Tool (for pet hair removal)

Get to know the Shark® WANDVAC

Image: All components of the Shark WANDVAC system, including the main vacuum unit, charging dock, crevice tool, and FurFins tool.

3. SETUP

Charging the Unit:

1. Place the charging dock on a flat, stable surface near a wall outlet.
2. Plug the charging adapter into the wall outlet.
3. Place the WANDVAC unit onto the charging dock. Ensure the contacts on the vacuum align with the contacts on the dock. The LED indicator light will illuminate, indicating that the unit is charging.
4. A full charge takes approximately 3.5 hours. The LED light will turn solid white when fully charged.

Ready when you need it

The sleek charging base provides quick access, fast charging, and dual onboard accessory storage.

Image: The Shark WANDVAC unit is shown docked on its charging base, positioned on a kitchen countertop, ready for use.

Attaching Accessories:

To attach an accessory, slide the desired tool (Crevice Tool or FurFins Tool) onto the nozzle of the handheld vacuum until it clicks securely into place. The charging dock also provides storage for these accessories.

4. OPERATING INSTRUCTIONS

Power On/Off and Suction Modes:

- Press the Power button (🔌👉) on the handle to turn the vacuum on.
- The vacuum operates in ECO mode by default, providing approximately 18 minutes of runtime on a full charge.
- For an added boost of power, press the Boost button (🔌👉). This mode provides approximately 8 minutes of runtime.
- Press the Power button again to turn the vacuum off.

Using Attachments:

- **Crevice Tool:** Ideal for cleaning tight spaces, corners, and crevices in cars or furniture.
- **FurFins Tool:** Designed to effectively remove stubborn pet hair from upholstery, carpets, and other fabric surfaces.

5. MAINTENANCE

Emptying the Dust Cup:

The WANDVAC features a one-touch empty mechanism for hygienic debris disposal.

1. Position the vacuum over a trash receptacle.
2. Press the One-Touch Empty button  located on the handle. The dust cup will open, releasing debris.
3. Close the dust cup until it clicks securely.

One-touch debris emptying

Empty debris with the touch of a button—
no getting your hands dirty.

Image: The Shark WANDVAC's dust cup is shown opening to release debris into a trash can, activated by a single button.

Cleaning the Filter:

Regular filter cleaning ensures optimal suction performance.

1. After emptying the dust cup, remove the filter housing by sliding it out.
2. Tap the filter lightly over a trash receptacle to remove any loose dust and debris.
3. Rinse the filter with water only. Do not use soap.
4. Allow the filter to air dry completely for at least 24 hours before reinstalling. Do not use a hairdryer or other heating methods.
5. Reinstall the dry filter into the housing and slide it back into the vacuum unit.

Washable filter

Removable and hand-washable filter to maintain high cleaning efficiency.

6. TROUBLESHOOTING

If you encounter any issues with your Shark WANDVAC, refer to the following common solutions:

- **No Power:** Ensure the unit is fully charged. Check if the charging dock is properly connected to the wall outlet and the vacuum.
- **Reduced Suction:** Empty the dust cup and clean the filter. Check for any blockages in the nozzle or attachments.
- **Short Battery Life:** Ensure the unit is fully charged. Battery life can vary based on usage mode (ECO vs. Boost).
- **Unit Overheating:** Turn off the vacuum and allow it to cool down. Check for blockages that might be causing strain on the motor.

For more detailed troubleshooting steps, please consult the full owner's guide or contact Shark customer support.
