6. Operating Instructions

6.1. Opening and Closing Doors

- To open: Gently pull the metal handles. The magnetic closures will release.
- To close: Push the doors firmly until the magnetic closures engage, ensuring a secure seal.
- For added security: Insert a padlock (not included) through the designated lockable holes.

6.2. Adjusting Shelves

- The cabinet features multiple pre-drilled holes on the side panels for shelf height adjustment.
- To adjust: Remove the shelf, align it with the desired height, and secure it using the provided hardware.
- To remove: Simply lift the shelf from its supports.

7. Maintenance

- **Cleaning:** Wipe down the cabinet surfaces with a damp cloth and mild soap. Avoid harsh chemicals that may damage the wood or metal finish.
- **Wood Care:** Periodically inspect the wood for any signs of wear or weather damage. Applying a wood sealant or stain annually can help prolong its lifespan and maintain its appearance.
- **Hardware:** Check hinges, handles, and magnetic closures regularly for tightness and proper function. Tighten any loose screws as needed.
- **Weather Protection:** While waterproof, consider placing the cabinet under an overhang or in a sheltered area during extreme weather conditions to maximize its longevity.

8. Troubleshooting

- **Doors not closing properly:** Check for any obstructions. Ensure the cabinet is on a level surface; adjust the feet if necessary. Verify magnetic closures are aligned and clean.
- **Water leakage:** Confirm the roof panel is securely attached and undamaged. Ensure all screws are tightened. Check that the cabinet doors are fully closed and sealed.
- **Stability issues:** Ensure the cabinet is placed on a firm, level surface. Utilize the adjustable feet to level the unit and install the ground anchors for additional stability.
