SETUP AND ASSEMBLY

Assembly is required for this product. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent damage.
2. **Allow Cushions to Expand:** The cushions and pillows arrive vacuum-packed. Allow 2-7 days for them to fully expand to their intended shape and firmness. Gently fluffing them can help accelerate this process.
3. **Attach Legs:** Locate the sofa and ottoman legs in the accessory kit. Attach them securely to the designated points on the bottom of each sofa section and ottoman using the provided hardware. Ensure they are tightened firmly but do not overtighten.
4. **Connect Sofa Sections:** Position the two sofa sections next to each other. Use the integrated metal connection mechanisms located on the sides of the sofa bases to link them together. Slide the brackets into place until they lock securely.

- **Bolstered Armrests:** The unique round bolster armrests provide comfortable hand support and can also serve as headrests when lounging.
- **Modular Flexibility:** The modular design allows you to rearrange the sofa sections and ottomans to suit your space and needs. Ensure sections are properly connected if you intend for them to remain together.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your sofa.

- **Regular Cleaning:** Vacuum the chenille fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for chenille, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sun exposure or use curtains/blinds.
- **Fluff Cushions:** Regularly fluff and rotate cushions to maintain their shape and even out wear.
- **Check Connections:** Periodically check all connections and hardware to ensure they remain tight. Retighten if necessary.
