## iHeylinkit X9

# iHeylinkit 2-in-1 Wireless CarPlay & Android Auto Adapter

Model: X9

### PRODUCT OVERVIEW

The iHeylinkit 2-in-1 Wireless CarPlay & Android Auto Adapter is designed to convert your vehicle's existing wired CarPlay or Android Auto system into a wireless experience. This device eliminates the need for physical cable connections, providing a cleaner and more convenient in-car environment. It supports seamless integration of navigation, music, calls, and messaging functions from your smartphone directly to your car's infotainment display.

## SETUP GUIDE

### What's in the Box

- 1 x iHeylinkit 2-in-1 Wireless CarPlay & Android Auto Adapter
- 1 x USB-A to USB-C Converter
- 1 x User Manual

### Initial Setup

The adapter features a plug-and-play design, requiring no additional apps or drivers for installation. Follow these steps for a quick setup:

1. Ensure your vehicle supports wired Apple CarPlay or Android Auto.
2. Connect the iHeylinkit adapter to your car's USB port. Use the provided USB-A to USB-C converter if your car has a USB-C port.
3. On your iPhone (iOS 10+) or Android phone (Android 11+), enable Wi-Fi and Bluetooth.
4. Open your phone's Bluetooth settings and search for the device named "Carsmart Adapter" (or similar, followed by asterisks).
5. Select the adapter to pair. Follow any on-screen prompts on your phone and car display to confirm the connection.
6. Once paired, your car's display should automatically switch to the wireless CarPlay or Android Auto interface.

## OPERATING INSTRUCTIONS

### Automatic Reconnection

After the initial pairing, the adapter will automatically reconnect to your smartphone each time you start your car, typically within 10-15 seconds. This ensures a seamless and consistent wireless experience without requiring manual intervention.

### Voice Assistant and Controls

The adapter supports all standard CarPlay and Android Auto features, including voice commands (Siri, Google Assistant), touch screen input, steering wheel controls, and knob control. This allows for safe and convenient operation of your smartphone's functions while driving.

# Voice Assistant

Enjoy 10-15S automatic reconnection after first connect

Siri: Ok, planning to call your mom

Hey Siri, call my mom

## COMPATIBILITY

### Device Compatibility

- **iPhone:** iOS 10 and above (iPhone 6 and newer series).
- **Android:** Android 11 and above.

### Vehicle Compatibility

This adapter is designed for vehicles with factory-installed wired Apple CarPlay or Android Auto from model years 2016 to 2025. It is compatible with approximately 98% of car models that meet this criterion.

- **Not Compatible:** Tesla and BMW models.

- **Requirement:** Your vehicle must have built-in wired CarPlay or Android Auto functionality. This product does not add CarPlay/Android Auto to vehicles that do not already possess it.

## Auto connect

After the first Connection, It automatically reconnects every time the vehicle is started

## MAINTENANCE

### Software Updates

To ensure optimal performance and access to the latest features, it is recommended to keep your adapter's firmware

updated. Updates can be performed online:

1. Connect your mobile phone to the car box with the Wireless CarPlay/Android Auto.
2. Enter **192.168.8.1** in your mobile phone's browser.
3. Navigate to the 'Upgrade' section and follow the on-screen instructions to update the software.

## TROUBLESHOOTING

### Common Issues and Solutions

Issue	Solution
Adapter does not respond when plugged in.	First, confirm your vehicle has wired CarPlay or Android Auto. If your car only has Android Auto, you may need to turn on your Android phone's Bluetooth and search for the device to connect directly.
Cannot connect to the adapter.	Check if your phone's Bluetooth is occupied. If not, restart your phone and try pairing again. Ensure all relevant permissions are enabled in your phone settings.
Unstable connection or frequent disconnections.	Check that the USB port connection is firm. Update your iOS/Android to the latest version and restart your phone. Verify all relevant permissions are enabled in phone settings.
No sound from the phone.	Ensure you have selected the correct sound channel (e.g., "Carsmart Adapter") during your call or media playback.
Sound delay or navigation delay.	Troubleshoot network issues on your phone and restart it. The adapter uses ultra-fast WiFi + Bluetooth dual-channel technology for minimal delay.
Can this product be paired with more than one cell phone?	Yes, but if you want to use a different phone, ensure the Bluetooth and Wi-Fi of the previously connected phone are turned off.

## Video Playback Limitations

Apple CarPlay and Android Auto platforms do not natively support video playback from streaming services like YouTube, Netflix, Disney+, Prime Video, Apple TV, or Hulu directly on the car's display. This is primarily for driving safety. While the adapter enables wireless connectivity for these platforms, it does not bypass these inherent limitations. Audio from video streaming on your phone can still be played through the car stereo, though sound may not always sync perfectly due to wireless limitations.

### Can I watch Videos via Carplay or Android Auto?

Apple CarPlay/ Android Auto **does not** include any support for video playback.

Image: An informational graphic explaining that video playback from popular streaming services is not supported directly on CarPlay or Android Auto for safety reasons.

## SPECIFICATIONS

Feature	Detail
Model Number	X9
Product Dimensions (L x W x H)	1.45 x 0.9 x 0.39 inches (37 x 23 x 10 mm)
Item Weight	1.13 ounces
Color	Black
Connector Type	USB Type C (with USB-A converter)
Compatible Devices	iPhone iOS 10+, Android 11+
Specific Uses	Car Audio & Video Integration
Manufacturer	iHeylinkit
Country of Origin	China
