MAINTENANCE

To ensure the longevity and optimal performance of your KUNFINE Android Stereo, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior surfaces. Avoid abrasive cleaners or solvents that could damage the display or finish.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Software Updates:** Periodically check for and install any available software updates to ensure system stability and access to new features.
- **Power Management:** Ensure proper vehicle battery maintenance to prevent power fluctuations that could affect the unit.

TROUBLESHOOTING

If you encounter issues with your KUNFINE Android Stereo, consider the following general troubleshooting steps:

- **No Power:** Check all power connections and ensure the vehicle's ignition is on. Verify fuses if necessary.
- **No Sound:** Check volume settings, audio source selection, and speaker connections. Ensure the AUX input is correctly configured if used.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be required (consult support before performing).
- **GPS Signal Issues:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Bluetooth/Wi-Fi Connectivity:** Ensure Bluetooth/Wi-Fi is enabled on both the head unit and your mobile device. Try re-pairing devices or restarting the unit.
- **CarPlay/Android Auto Not Connecting:** Verify Bluetooth connection, ensure the 'Zlink5' app is open, and check for any specific phone compatibility notes.

For persistent issues, please refer to the Warranty and Support section for contact information.
