SETUP AND CONNECTION

The EWEADN S9 mouse offers three versatile connection modes: 2.4G Wireless, Bluetooth 5.0, and USB-C Wired. You can switch between these modes using the switch located on the bottom of the mouse.

Triple Connect Mouse

Wired/2.4Ghz/BT

for Any Scenario

2.4G MODE
Blazing-fast Speed

BT 5.0 MODE
Minimalism & Convenient

Wired MODE
Rechargable & Zero Delay

Figure 3: Triple Connection Modes

2.4G Wireless Mode

1. Locate the 1K Wireless USB Receiver in the package.
2. Plug the USB receiver into an available USB port on your computer.

3. Switch the mode selector on the bottom of the mouse to '2.4G'.
4. The mouse should automatically connect. If not, press the pairing button (if available, refer to the diagram on the mouse's underside) to initiate pairing.

Bluetooth 5.0 Mode

1. Switch the mode selector on the bottom of the mouse to 'BT'.
2. On your computer or device, go to Bluetooth settings and search for new devices.
3. Select 'EWEADN S9' from the list of available devices to pair.

USB-C Wired Mode

1. Connect one end of the provided USB-C cable to the front port of the mouse.
2. Connect the other end (USB-A) to an available USB port on your computer.
3. Switch the mode selector on the bottom of the mouse to 'USB-C'.
4. The mouse will function as a wired mouse and charge simultaneously.

Compatibility

The S9 mouse is widely compatible with Windows 7/8/10/XP/Vista, Mac OS, Linux, and Android systems. It is suitable for use with PCs, laptops, Macs, and other devices.

OPERATING YOUR MOUSE

Advanced Performance Features

The S9 mouse is equipped with the flagship PAW3395 optical sensor, offering programmable DPI up to 26000 and 650 IPS tracking for precise control without drift. It supports an 8K polling rate in wired mode and 1K in wireless mode for smooth, lag-free gaming.

Programmable Buttons and Switches

The S9 features professional-grade HUANYU switches with a click life exceeding 100 million times, ensuring durability and low latency. You can configure buttons, DPI/IPS settings, lift distance, and macro settings using the dedicated

software.

The image is a promotional graphic for the PAW3950 optical sensor. It features a dark, circuit-like background with glowing orange lines. In the center is a 3D rendering of the PAW3950 sensor chip, which is square with rounded corners and has 'PAW 3950' printed on its top surface in red. To the left of the chip, the text 'PAW3950' is written in large, bold, white letters, followed by 'Flagship Sensors' in a slightly smaller, bold, white font. Below this, a paragraph of text describes the sensor's capabilities. At the bottom left, there are three white-bordered boxes, each containing a red number and a label: '42000DPI Adjustment', '750IPS Speed', and '8000Hz Return Rate'.

PAW3950 Flagship Sensors

E-sports grade optical sensor, up to 42000DPI. Provides players with multiple levels of custom adjustable DPI. Game moves are faster, more accurate, and more stable

MAINTENANCE AND CARE

Battery Life and Charging

The S9 mouse features an upgraded 500mAh battery, providing extended battery life for longer gaming sessions. To charge the mouse, connect it using the provided USB-C cable to your computer or a USB power adapter.

Upgrade 500mAh Battery

Ultra-Long Staying Power-100 Hours

Figure 8: Upgraded 500mAh Battery

Cleaning and Durability

The nano ice skin coating is sweat-proof and easy to clean. Use a soft, dry cloth to wipe down the mouse regularly. Avoid using harsh chemicals or abrasive materials. The durable parachute cord cable is designed to resist breakage and

tangling.

TROUBLESHOOTING

- **Mouse not responding:** Ensure the mouse is charged and the correct connection mode (2.4G, BT, or USB-C) is selected. For wireless modes, check that the receiver is properly plugged in or Bluetooth is paired.
- **Lag or disconnections:** Try moving closer to the receiver/Bluetooth device. Ensure there are no major obstructions or sources of interference. For 2.4G, try plugging the receiver into a different USB port.
- **DPI not changing:** Ensure the mouse is powered on and connected. Use the DPI switch button or the software to adjust DPI settings.
- **Buttons not working:** Check software settings for custom button assignments. Ensure the mouse is clean and free of debris around the buttons.

If issues persist, try restarting your computer and the mouse. For further assistance, please contact EWEADN customer support.
