**ATTACK SHARK R6PRO, X60 HE**

# ATTACK SHARK R6 Wireless Gaming Mouse and MAMBASNAKE X60 HE Magnetic Switch Keyboard User Manual

## INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your **ATTACK SHARK R6 Superlight Wireless Gaming Mouse** and **MAMBASNAKE X60 HE Magnetic Switch Keyboard** combo set. Please read this manual thoroughly before using the products to ensure optimal performance and longevity.

## PRODUCT OVERVIEW

### ATTACK SHARK R6 Wireless Gaming Mouse

The R6 mouse is designed for high-performance gaming, featuring advanced sensor technology and a lightweight design.

- **Sensor:** PixArt PAW3950MAX flagship sensor for precise tracking.
- **Chip:** Nordic 52840 Chip for efficient wireless communication.
- **Weight:** Approximately 39 grams, contributing to rapid movement.
- **DPI:** Up to 42000 DPI for adjustable sensitivity.
- **Polling Rate:** Up to 8000Hz for minimal input lag.
- **Coating:** Ice-feel coating for enhanced grip and comfort.

## MAMBASNAKE X60 HE Magnetic Switch Keyboard

The X60 HE keyboard features magnetic switches for rapid response and customizable actuation.

- **Switches:** Hall effect magnetic switches for faster actuation and durability.
- **Actuation Point:** Adjustable from 0.1mm to 3.2mm.
- **Polling Rate:** 8000Hz in wired mode, 1000Hz in wireless mode.
- **Connectivity:** Three modes: Bluetooth, 2.4GHz wireless, and wired USB-C.
- **Features:** RGB lighting, DKS, Snap Tap, Zero Deadzone support.

# 8000HZ POLLING & COILED CABLE

Ultra-Fast, Tangle-Free Connectivity For Peak Performance

Image: The MAMBASNAKE X60 HE keyboard connected via a coiled USB-C cable, highlighting its 8000Hz polling rate for ultra-fast, tangle-free connectivity. Note indicates 8000Hz polling in wired mode and 1000Hz in wireless mode.

## SETUP

### ATTACK SHARK R6 Wireless Gaming Mouse Setup

The R6 mouse offers three connectivity options:

1. **2.4GHz Wireless Mode (Performance Mode):**

Insert the 2.4GHz USB dongle into an available USB port on your computer. The mouse will automatically connect. This mode provides the fastest wireless speed.

2. **Bluetooth 5.2 Mode (Efficiency Mode):**

Activate Bluetooth on your computer. Put the mouse into Bluetooth pairing mode (refer to the mouse's specific button combination for pairing, usually a switch or button on the underside). Select the mouse from your computer's Bluetooth device list to pair. This mode is optimized for longer battery life.

3. **Wired USB-C Mode:**

Connect the provided USB-C cable from the mouse to your computer. The mouse will function as a wired device and charge simultaneously.

# HYPERSPEED CONNECTIVITY

## PERFORMANCE MODE

2.4GHz for blazing-fast speed

## EFFICIENCY MODE

Bluetooth 5.2 for longer battery life

## Wired USB-C Mode

Play While Charging

Image: The ATTACK SHARK R6 mouse demonstrating its Hyperspeed Connectivity options: 2.4GHz Performance Mode, Bluetooth 5.2 Efficiency Mode, and Wired USB-C Mode, showing connections to a laptop and smartphone.

## MAMBASNAKE X60 HE Magnetic Switch Keyboard Setup

The X60 HE keyboard also offers three connectivity options:

### 1. Bluetooth Mode:

Switch the keyboard to Bluetooth mode. Activate Bluetooth on your device (laptop, tablet, mobile). Put the keyboard into pairing mode (consult the keyboard's specific instructions for the pairing key combination, often Fn + a number key). Select the keyboard from your device's Bluetooth list. This mode supports multi-device pairing.

### 2. 2.4GHz Wireless Mode:

Switch the keyboard to 2.4GHz mode. Insert the 2.4GHz USB dongle into your computer's USB port. The keyboard should connect automatically, providing a stable, low-latency connection.

### 3. Wired USB-C Mode:

Connect the keyboard to your computer using the provided USB-C cable. This mode offers the fastest response with ultra-low latency, ideal for competitive gaming.

## OPERATING INSTRUCTIONS

## ATTACK SHARK R6 Wireless Gaming Mouse Operation

- **Basic Use:** The mouse functions as a standard pointing device.
- **DPI Adjustment:** Use the dedicated DPI button (if present) or the web driver software to cycle through DPI settings.
- **Charging:** Connect the mouse via USB-C cable to charge. The LED indicator will show charging status.

## MAMBASNAKE X60 HE Magnetic Switch Keyboard Operation

- **Key Functions:** Standard keyboard layout. Use the **Fn** key in combination with other keys for secondary functions (e.g., media controls, lighting adjustments).
- **RGB Lighting:** Adjust lighting effects and brightness using **Fn** key combinations or the web driver.
- **Actuation Point Adjustment:** Utilize the web driver to customize the actuation point of individual keys.

## CUSTOMIZATION (WEB DRIVER)

---

Both the ATTACK SHARK R6 mouse and MAMBASNAKE X60 HE keyboard support a web-based driver for extensive customization. This allows you to personalize settings without needing to download or install software.

- **Accessing the Web Driver:** Open a web browser and navigate to the official ATTACK SHARK or MAMBASNAKE web driver portal (refer to product packaging or official website for the URL).
- **Mouse Customization:** Adjust button functions, DPI sensitivity, polling rate, and macro settings.
- **Keyboard Customization:** Configure key functions, adjust actuation points (0.1 mm to 3.2mm), set up DKS (Dynamic Keystroke), Snap Tap, Zero Deadzone, and customize RGB lighting effects.

The web driver provides a graphical interface to manage your device settings. Ensure your device is connected to the computer when using the web driver.

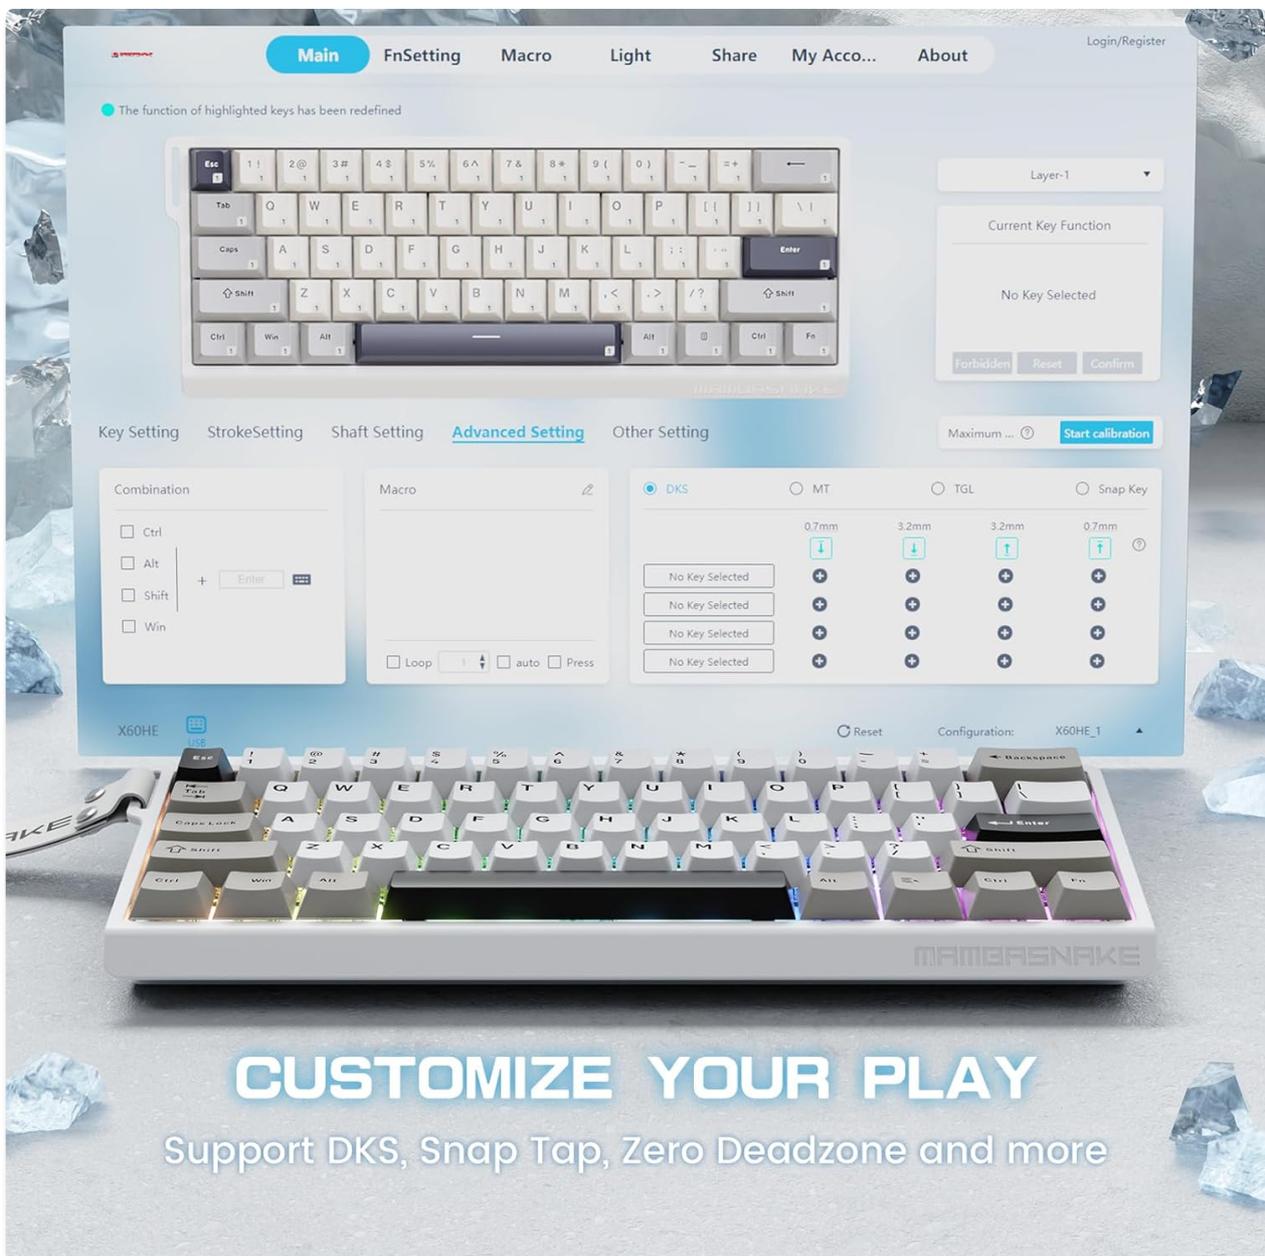

Image: A screenshot of the MAMBASNAKE X60 HE keyboard's web driver interface, showing options for key redefinition, stroke settings, shaft settings, and advanced settings like DKS, Snap Tap, and Zero Deadzone.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the mouse and keyboard. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the device.
- **Avoid Liquids:** Do not expose the devices to excessive moisture or immerse them in liquids.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the USB-C cables to prevent damage.

## TROUBLESHOOTING

- **Device Not Responding:**
  - Ensure the device is powered on and fully charged.
  - Check the connection mode (2.4GHz, Bluetooth, Wired) and ensure it matches your computer's setting.
  - For wireless connections, ensure the USB dongle is securely inserted or Bluetooth is properly paired.

- Try connecting via the wired USB-C cable to rule out wireless issues.
- **Lag or Disconnections:**
  - Ensure the 2.4GHz dongle is not obstructed and is close to the device.
  - Minimize interference from other wireless devices.
  - For Bluetooth, ensure your computer's Bluetooth drivers are up to date.
- **DPI/Key Settings Not Changing:**
  - Ensure the web driver is properly connected to the device.
  - Apply changes within the web driver interface.
- **RGB Lighting Not Working:**
  - Check lighting settings via **Fn** key combinations or the web driver.
  - Ensure the device has sufficient power.

## SPECIFICATIONS

---

### ATTACK SHARK R6 Wireless Gaming Mouse

- **Sensor:** PixArt PAW3950MAX
- **MCU:** Nordic 52840 Chip
- **DPI:** Up to 42000
- **Acceleration:** 50g
- **Polling Rate:** 8000Hz
- **Weight:** 39g
- **Connectivity:** 2.4GHz Wireless, Bluetooth 5.2, Wired USB-C

### MAMBASNAKE X60 HE Magnetic Switch Keyboard

- **Switch Type:** Hall Effect Magnetic Switches
- **Actuation Point:** Adjustable from 0.1mm to 3.2mm
- **Polling Rate:** 8000Hz (Wired), 1000Hz (Wireless)
- **Connectivity:** Bluetooth, 2.4GHz Wireless, Wired USB-C
- **Features:** RGB Lighting, DKS, Snap Tap, Zero Deadzone

## WARRANTY AND SUPPORT

---

For warranty information and technical support, please refer to the documentation included with your purchase or visit the official ATTACK SHARK website. If you encounter any issues not covered in this manual, please contact customer support for assistance.
