Operating Instructions

Using the Foldable Desk

The integrated desk is designed for flexibility. To use the desk, gently pull the desk surface outwards and unfold the support legs. Ensure the support legs are fully extended and stable before placing items on the desk. To fold the desk away, lift the desk surface slightly, retract the support legs, and push the desk back into its stored position.

Utilizing Storage Cabinet and Shelves

The storage cabinet and open shelves provide ample space for books, personal items, and decor. The cabinet door opens to reveal enclosed storage, while the open shelves offer easy access and display options. Distribute weight evenly across shelves and inside the cabinet.

Ladder Usage

Always face the ladder when climbing up or down. Use both hands to grip the ladder rungs firmly. Ensure the ladder is free from obstructions before use.

Maintenance

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Hardware Checks:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain stability and safety.
- **Wood Care:** Protect the wood from direct sunlight and extreme temperature changes to prevent warping or cracking.
- **Weight Distribution:** Avoid concentrating heavy loads in one area of the bed or shelves. Distribute weight evenly.

Troubleshooting

Bed Feels Wobbly

If the bed feels unstable or wobbly, it is likely that some hardware has loosened over time. Carefully inspect all bolts and screws, especially those connecting the main frame components and legs. Tighten any loose fasteners. Ensure the bed is placed on a level surface.

Desk Not Folding Smoothly

Check the hinges and folding mechanism for any obstructions or debris. Ensure all screws securing the desk components are properly tightened. If the issue persists, lubricate the hinges with a silicone-based spray.

Ladder Feels Loose

Inspect the connections where the ladder attaches to the bed frame. Tighten any loose bolts. Ensure the ladder is correctly seated in its mounting points.
