

Dryhsip WT-643

Dryhsip 9-in-1 Hair Styler Set & Hair Dryer Brush Instruction Manual

Model: WT-643

1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Dryhsip 9-in-1 Hair Styler Set. Please read all instructions carefully before use and retain this manual for future reference.

2. SAFETY INFORMATION

For your safety, always adhere to the following guidelines:

- Safety warnings are included in the product's packaging and documentation.
- The device operates at 1400 watts and 220 volts. Ensure your power outlet matches these specifications.
- This appliance is equipped with an ALCI plug for enhanced safety.
- The NTC system, bimetallic thermal switches, and irreversible fuses are integrated for overheat protection.
- Always use the provided insulated gloves to prevent burns during operation.
- Do not use near water or while bathing.
- Keep out of reach of children.
- Unplug the appliance when not in use.

3. PACKAGE CONTENTS

Your Dryhsip 9-in-1 Hair Styler Set includes the following components:

- Main Styler Handle (with integrated hair dryer)
- 2 x Auto-Warp Curling Barrels (Left & Right)
- 32mm Round Brush
- 60mm Oval Volumizing Brush
- Smoothing Comb
- Double-Sided Mirror Comb
- Styling Concentrator Nozzle
- Hair Diffuser
- Insulated Gloves
- Cleaning Brush

4. PRODUCT FEATURES

- **9-in-1 Versatility:** Easily switch between hair drying, curling, volumizing, straightening, and smoothing functions.
- **High-Speed Motor:** 1400W motor with 110,000 RPM and up to 25m/s airflow for fast drying and styling.
- **Negative Ionic Technology:** Releases negative ions to reduce frizz, enhance shine, and protect hair.
- **Smart LED Screen:** Displays 4 temperature settings (90°F, 140°F, 200°F, 250°F) and 3 airflow adjustments (low-medium-high).
- **One-Button Cool Air:** Instantly provides cool air to set styles.
- **Foldable Design:** The main unit can be rotated 90 degrees to switch between hair dryer and styler modes.
- **Safety Features:** NTC system, bimetallic thermal switches, irreversible fuses, and ALCI plug.

5. SETUP AND ASSEMBLY

1. **Unpack:** Carefully remove all components from the packaging.
2. **Main Unit Configuration:** The main handle can be used as a hair dryer or transformed into a styler. To switch, rotate the head of the main unit 90 degrees until it clicks into place.
3. **Attaching Accessories:** Select the desired styling attachment. Align the attachment with the connection point on the main unit and push firmly until it locks securely. Ensure it is properly seated before use.
4. **Power Connection:** Plug the ALCI plug into a suitable electrical outlet (220V). Test the ALCI plug by pressing the "TEST" button, then "RESET".

6. OPERATING INSTRUCTIONS

Always ensure your hair is towel-dried before styling, unless using the hair dryer function.

6.1 Power On/Off and Settings

- **Power On:** Press the power button. The LED screen will illuminate.
- **Temperature Adjustment:** Use the temperature control buttons to cycle through 90°F, 140°F, 200°F,

and 250°F.

- **Airflow Adjustment:** Use the airflow control buttons to select low, medium, or high speed.
- **Cool Shot:** Press the cool air button for a burst of cool air to set your style.
- **Power Off:** Press and hold the power button until the device turns off.

6.2 Using the Hair Dryer

Attach the Styling Concentrator Nozzle or Hair Diffuser for targeted drying. The high-speed motor provides quick drying.

6.3 Using the Curling Barrels

The set includes two auto-warp curling barrels for left and right curls. Ensure the barrel is securely attached.

1. Take a section of hair and hold the barrel near the ends.
2. The Coanda effect will automatically wrap the hair around the barrel.
3. Hold for a few seconds until the curl is formed.
4. Use the cool shot function to set the curl.

6.4 Using the Brushes (Round, Oval, Smoothing, Double-Sided)

Select the appropriate brush for your desired style:

- **Round Brush (32mm):** Ideal for shaping natural waves and adding body.
- **Oval Volumizing Brush (60mm):** Designed for volumizing and drying simultaneously, delivering negative ions for smooth, frizz-free results.
- **Smoothing Comb:** For quick, drip-free drying and smoothing hair.
- **Double-Sided Mirror Comb:** Provides gentle detangling and styling.

7. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your styler.

1. **Unplug:** Always unplug the device from the power outlet and allow it to cool completely before cleaning.

2. **Clean Attachments:** Remove any hair or debris from the brushes and barrels using the provided cleaning brush. Wipe attachments with a soft, damp cloth.
3. **Clean Main Unit:** Wipe the main unit with a soft, dry cloth. Do not immerse the unit in water.
4. **Air Inlet Filter:** Periodically check and clean the air inlet filter at the bottom of the main unit to prevent blockages.
5. **Storage:** Store the styler and its attachments in a dry, safe place, away from moisture and direct sunlight.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; ALCI tripped; power outage.	Ensure plug is fully inserted. Press "RESET" on ALCI plug. Check power supply.
No airflow or weak airflow.	Air inlet filter blocked; attachment not properly secured.	Clean the air inlet filter. Re-attach the styling accessory firmly.
Device overheats and shuts off.	Overuse; blocked air vents; safety mechanism activated.	Unplug and allow to cool for 30 minutes. Clean air inlet filter and ensure vents are clear.
Attachments are difficult to remove/attach.	Improper alignment; debris in connection.	Ensure correct alignment and push/pull firmly. Clean connection points.

9. SPECIFICATIONS

- **Model Number:** WT-643
