

## SINGER 2277

# SINGER 2277 Sewing Machine & Portable Bobbin Winder User Manual

Model: 2277

## INTRODUCTION

Welcome to the SINGER family! This manual provides comprehensive instructions for the safe and efficient operation of your new SINGER 2277 Sewing Machine and the accompanying Portable Bobbin Winder. Please read this manual thoroughly before using your machine to ensure proper setup, operation, and maintenance. Keep this manual for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic safety precautions should always be followed, including the following:

- Read all instructions before using this sewing machine.
- Keep these instructions in a suitable place near the machine.
- Unplug the machine from the electrical outlet immediately after using and before cleaning, removing covers, lubricating, or making any other user servicing adjustments mentioned in the instruction manual.
- Do not allow to be used as a toy. Close attention is necessary when this appliance is used by or near children.
- Use this appliance only for its intended use as described in this manual.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water.
- Never drop or insert any object into any opening.
- Do not use outdoors.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- To disconnect, turn all controls to the off position, then remove plug from outlet.

## PRODUCT OVERVIEW

Your SINGER 2277 Sewing Machine is designed for ease of use and versatility, featuring 23 built-in stitches, an automatic needle threader, and a one-step buttonhole function. The included Portable Bobbin Winder provides convenience for preparing bobbins independently.

**Figure 1:** The SINGER 2277 Sewing Machine (top) and the Portable Bobbin Winder with accessories (bottom). The sewing machine is white with green accents, featuring stitch selection dials and a reverse lever. The bobbin winder is also white, shown open with yellow thread spools.

### Key Components (Sewing Machine)

- **Spool Pin:** Holds the thread spool.
- **Thread Guide:** Directs the thread path.
- **Tension Dial:** Adjusts upper thread tension.
- **Stitch Length Dial:** Controls the length of stitches.
- **Stitch Width Dial:** Controls the width of zigzag and decorative stitches.
- **Pattern Selector Dial:** Selects the desired stitch pattern.
- **Reverse Lever:** For sewing in reverse to secure seams.
- **Needle Bar:** Holds the needle.
- **Presser Foot:** Holds fabric against the feed dogs.

- **Feed Dogs:** Moves fabric under the presser foot.
- **Bobbin Cover:** Protects the bobbin area.
- **Handwheel:** Manually raises and lowers the needle.
- **Power Switch:** Turns the machine on/off.
- **Foot Controller Jack:** Connects the foot controller.

## Key Components (Portable Bobbin Winder)

- **Spool Pin:** For holding the thread spool to be wound onto the bobbin.
- **Bobbin Pin:** Where the empty bobbin is placed for winding.
- **Start/Stop Button:** Initiates and stops the winding process.
- **Power Input:** For connecting the power adapter.
- **Automatic Shut-off Sensor:** Detects when the bobbin is full.

## SETUP

---

### 1. Unpacking and Placement

- Carefully remove the machine and all accessories from the packaging.
- Place the sewing machine on a stable, flat surface.
- Ensure adequate lighting for your work area.

### 2. Power Connection

- Connect the foot controller plug into the machine's foot controller jack.
- Plug the power cord into a suitable electrical outlet.
- Turn on the power switch, usually located on the side of the machine.

### 3. Winding the Bobbin (Using Portable Bobbin Winder)

The SINGER Portable Bobbin Winder allows you to wind bobbins independently of your sewing machine.

1. Connect the power adapter to the bobbin winder and plug it into an electrical outlet.
2. Place a spool of thread onto the spool pin of the winder.
3. Guide the thread through the thread guide.
4. Place an empty Class 15 or 15J bobbin onto the bobbin pin.
5. Wrap the thread around the bobbin a few times clockwise.
6. Press the Start/Stop button. The winder will automatically stop when the bobbin is full.
7. Remove the full bobbin and cut the thread.

### 4. Inserting the Bobbin (Sewing Machine)

1. Raise the needle to its highest position by turning the handwheel towards you.
2. Open the bobbin cover plate.
3. Insert the full bobbin into the bobbin case, ensuring the thread unwinds in the correct direction (usually counter-clockwise).
4. Guide the bobbin thread through the tension spring and into the thread guide slot.
5. Close the bobbin cover plate.

### 5. Threading the Upper Thread (Sewing Machine)

1. Place a spool of thread on the spool pin.
2. Guide the thread through the upper thread guide.
3. Follow the numbered threading path down the front of the machine, around the tension discs, and up to the take-up lever.
4. Bring the thread down through the take-up lever and into the needle bar thread guide.
5. Use the automatic needle threader or manually thread the needle from front to back.

## 6. Automatic Needle Threader

To use the automatic needle threader:

1. Raise the needle to its highest position.
2. Lower the presser foot.
3. Pull the needle threader lever down as far as it will go.
4. Hook the thread under the small hook on the threader.
5. Release the lever slowly. The thread will be pulled through the needle eye.
6. Pull the loop of thread through the needle eye from the back.

## OPERATING THE SEWING MACHINE

---

### 1. Selecting a Stitch

- Turn the Pattern Selector Dial to choose one of the 23 built-in stitches.
- Refer to the stitch chart on the machine for recommended stitch length and width settings.

### 2. Adjusting Stitch Length and Width

- **Stitch Length:** Use the Stitch Length Dial to adjust the length. Shorter lengths for stronger seams, longer lengths for basting or gathering.
- **Stitch Width:** Use the Stitch Width Dial to adjust the width for zigzag and decorative stitches.

### 3. Sewing Basics

- Place fabric under the presser foot.
- Lower the presser foot lever.
- Gently press the foot controller to start sewing.
- To secure a seam, press and hold the Reverse Lever at the beginning and end of your seam.

### 4. One-Step Buttonhole

1. Attach the buttonhole foot.
2. Select the buttonhole stitch pattern on the Pattern Selector Dial.
3. Place the button you are using into the buttonhole foot's gauge to automatically set the buttonhole size.
4. Position your fabric and lower the presser foot.
5. Begin sewing. The machine will automatically sew all four sides of the buttonhole and stop when complete.

## MAINTENANCE

---

### 1. Cleaning

- Always unplug the machine before cleaning.

- Use a soft brush to remove lint and dust from the bobbin area and feed dogs.
- Wipe the exterior of the machine with a soft, damp cloth. Do not use harsh chemicals.

2. Needle Replacement

- Replace the needle regularly (after 8-10 hours of sewing) or if it becomes bent or dull.
- Ensure the flat side of the needle faces the back of the machine when inserting.
- Use only SINGER brand needles for optimal performance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Skipped Stitches	Incorrect needle, bent needle, improper threading.	Replace needle, re-thread machine correctly.
Thread Breaking	Incorrect tension, poor quality thread, bent needle, improper threading.	Adjust tension, use quality thread, replace needle, re-thread.
Fabric Puckering	Stitch length too short, tension too tight.	Increase stitch length, loosen tension.
Machine Not Starting	Power cord not plugged in, foot controller not connected, power switch off.	Check all connections, turn power switch on.

SPECIFICATIONS

- **Model:** SINGER 2277 Tradition
- **Stitches:** 23 Built-in Stitches (Essential, Decorative, Stretch)
- **Needle Threader:** Automatic
- **Buttonhole:** 1-Step Automatic
- **Stitch Length/Width:** Adjustable
- **Bobbin Type:** Class 15 / 15J (for Portable Winder compatibility)
- **Power:** Standard Household Electrical Outlet

WARRANTY & SUPPORT

For warranty information and customer support, please refer to the warranty card included with your product or visit the official SINGER website. You can also contact SINGER customer service for assistance with any questions or issues not covered in this manual.

SINGER® 2277		
English   Spanish   French		
English		
1 STRAIGHT STITCH	Seams	The most common use for the straight stitch is for joining fabrics together with a seam. The machine needle plate has a series of etched markings to the right of the presser foot which serve as guidelines for various widths of seam allowances when sewing with the needle in center position. Line up the raw edges of the fabric with the desired seam allowance guideline to sew a seam.
2 STRAIGHT STITCH	Quilt Piecing	Quilt piecing is done using a 1/4" seam allowance. After sewing, press seams toward the darker of the two fabrics, to help prevent the seam allowance from being visible on the top side of the quilt. It may be helpful to use a Quarter Inch Foot (additional accessory for some machine models).
3 STRAIGHT STITCH	Topstitching	Topstitching is a line of straight stitching on the outside of a garment or project, usually as a decorative embellishment. Set the machine for straight stitch, with a stitch length of 3 to 3.5mm. Sew 1/4" - 3/8" from the edge of the fabric. If sewing with topstitching thread, use a SINGER Topstitching Needle, size 90/14 for medium weight fabrics, or a SINGER Topstitching Needle, size 100/16 for heavier fabrics. A Topstitching Needle (additional accessory) has a longer eye to accommodate thicker threads, such as topstitching thread which gives the stitches a bolder look.
4 STRAIGHT STITCH	Edge Stitching	Edge stitching can be used to add stability to projects like tote bags, or it can be used simply as a decorative embellishment. Set the machine for straight stitch. Sew approximately 1/8" from the edge of the fabric.
5 STRAIGHT STITCH	Basting	Basting stitches are used to temporarily hold fabrics together, for example, when you want to check the fit of a garment before sewing the actual seam. To set the machine for basting, if your machine has adjustable stitch length, select straight stitch with the longest stitch length setting. It is helpful to also slightly reduce the upper thread tension as well (this makes it easier to remove the temporary basting stitches later). Sew the row of basting stitches, and check the fit.
