## App Management

You can download and manage thousands of apps from the Google Play Store. To add or remove apps, navigate to the "Apps" section on the home screen or through the settings menu.

## MAINTENANCE

- **Software Updates:** Ensure your device is always running the latest software by checking for updates regularly in the settings menu. This ensures optimal performance and security.
- **Clear Cache:** Periodically clear the cache of individual apps to improve performance and free up storage space. Go to Settings > Apps > [Select App] > Clear Cache.
- **Factory Reset:** If you encounter persistent issues, a factory reset can resolve many problems. Be aware that this will erase all data and settings on the device. Go to Settings > System > About > Reset.

## TROUBLESHOOTING

- **No Power:** Ensure the power adapter is securely connected to both the device and a working power outlet. Try a different outlet if necessary.

- **No Signal on TV:** Verify the HDMI cable is securely connected to both the TV Box and the TV. Ensure your TV is set to the correct HDMI input.
- **Remote Not Responding:** Check the batteries in the remote control. If issues persist, try re-pairing the remote by following the instructions in the setup guide or device settings.
- **App Crashing/Freezing:** Try clearing the app's cache (Settings > Apps > [Select App] > Clear Cache). If the problem continues, try uninstalling and reinstalling the app.
- **Slow Performance:** Ensure you have a stable internet connection. Close unused apps running in the background. Consider clearing cached data or performing a factory reset if performance remains slow.
