1. INTRODUCTION

This manual provides detailed instructions for the PerfiPro Bluetooth Tracker for Android, Model 'for pets'. This device is designed to help you locate your valuable items, including pets, using the Google Find My Device network. Please read this manual thoroughly before using the product to ensure proper setup and operation.

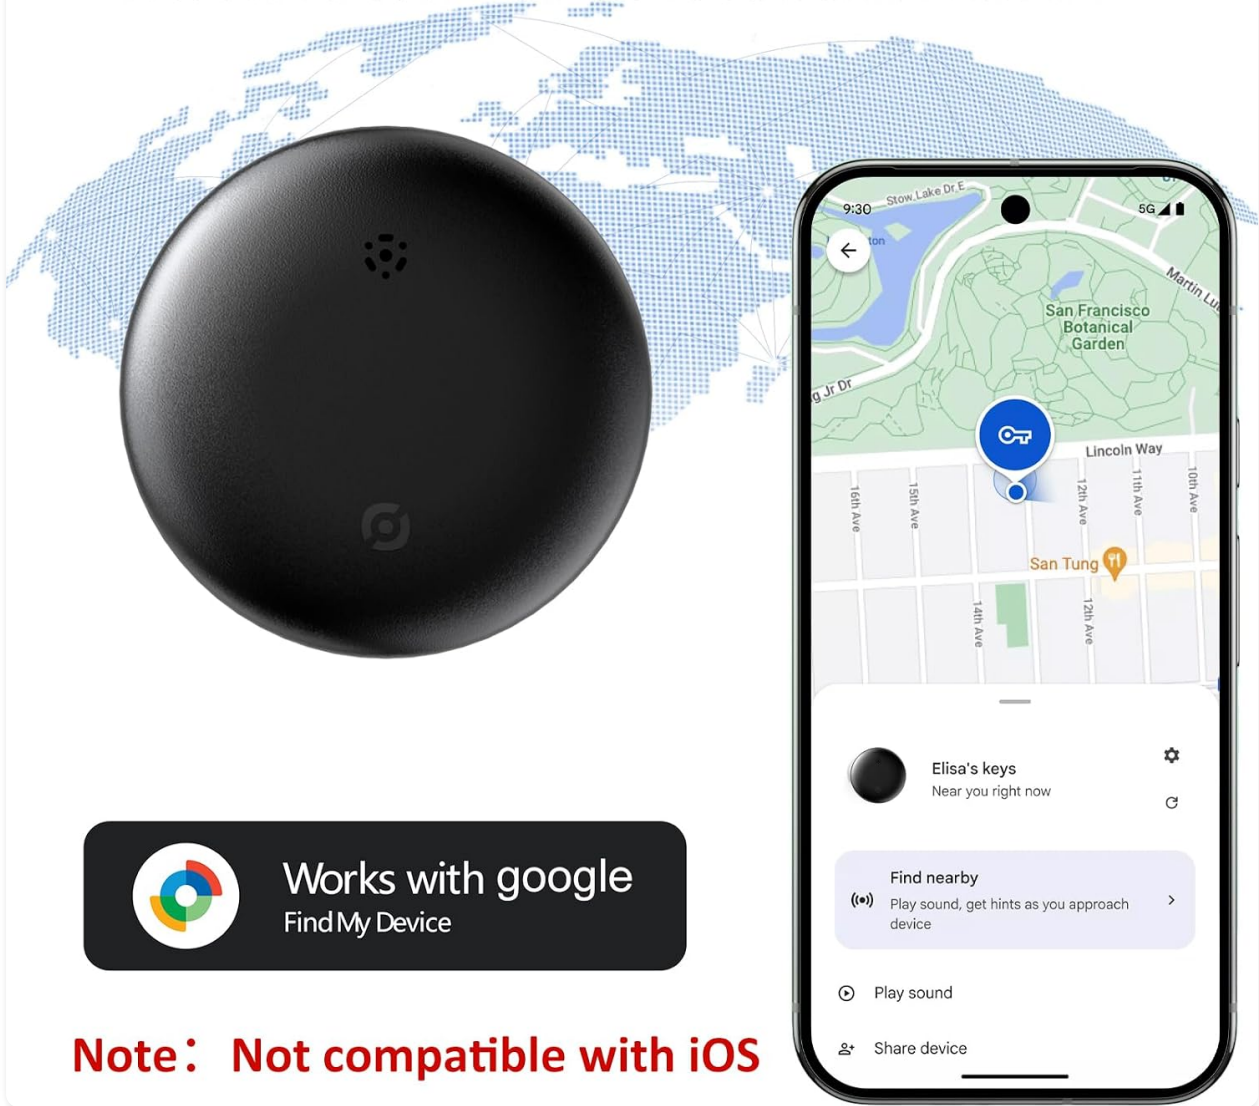

Figure 1: PerfiPro Bluetooth Tracker with pet collar holder and Google Find My Device app interface. This image illustrates the tracker's design and its primary function of locating items via the app.

2. SETUP

2.1 Connecting to Your Android Device

1. Ensure your Android device is running Android 9 or above and has the Google Find My Device app installed. Some devices may require additional system updates for optimal compatibility.
2. Activate Bluetooth on your Android device.
3. Open the Google Find My Device app.
4. Follow the on-screen instructions within the app to add a new device. The tracker should appear as an available device for pairing.
5. Confirm the pairing on both the tracker (if prompted) and your Android device.

COMPATIBLE WITH ANDROID

Note: Not compatible with iOS

Figure 2: Compatibility with Android and Google Find My Device. This image highlights the tracker's integration with the Android ecosystem and the Google Find My Device app.

2.2 Resetting the Tracker

If you need to reset your PerfiPro Bluetooth Tracker, refer to the specific instructions provided in the physical instruction manual included with your product. Typically, this involves a sequence of button presses or a prolonged press to clear existing pairings and settings.

3. OPERATION

3.1 Locating Items

The PerfiPro Bluetooth Tracker utilizes the Google Find My Device network, leveraging over a billion Android devices worldwide for crowd-sourced tracking. This allows for location updates every 3-30 minutes, helping you find your items globally.

- Open the Google Find My Device app on your paired Android device.
- Select the PerfiPro Tracker from your list of devices.
- The app will display the last known location of your tracker on a map.

GLOBAL PRECISE LOCATION TRACKING

Locate your device at any time
through the Google Find My Device app

Figure 3: Global precise location tracking. This image shows the tracker attached to keys, with its location displayed on the Google Find My Device app map.

3.2 Using the Ring Function

When your tracker is within Bluetooth range of your Android device, you can make it emit a loud sound to help pinpoint its exact location.

- In the Google Find My Device app, select your PerfiPro Tracker.
- Tap the 'Play sound' option. The tracker will emit a 90dB alarm.
- To stop the sound, tap 'Stop sound' in the app or press the power button on your device.

RING IT

Supports ring function to make it easier for you to find your stuff

Figure 4: Ring function in action. This image demonstrates how the app can trigger a sound from the tracker to help locate nearby items.

3.3 Attaching the Tracker

The PerfiPro Bluetooth Tracker is designed to be small and lightweight, making it suitable for various applications. It comes with accessories for easy attachment.

- **For Pets:** Use the included pet collar holder to securely attach the tracker to your pet's collar.
- **For Keys:** Attach the tracker to your keychain using the integrated loop or a lanyard.
- **For Bags/Backpacks:** Secure the tracker to a zipper or strap using a lanyard or small carabiner.
- **For Bicycles:** The tracker can be discreetly attached to various parts of a bicycle using appropriate accessories (not included).

NEVER LOSE YOUR ITEM

Contains different accessories for various scenes

3.4 Device Sharing

The PerfiPro Bluetooth Tracker supports device sharing, allowing multiple mobile phones to view the tracker's location simultaneously. This feature is managed within the Google Find My Device app settings.

Figure 6: Device sharing capability. This image demonstrates how two phones can simultaneously track the same PerfiPro device.

4. MAINTENANCE

4.1 Battery Replacement

The tracker is powered by a replaceable CR2032 battery, offering an endurance time of approximately 365 days. When the battery is low, you will typically receive a notification via the Google Find My Device app.

1. Carefully open the tracker casing (refer to the physical manual for specific instructions on how to open your model).
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery, ensuring correct polarity.
4. Close the tracker casing securely to maintain its waterproof seal.

Figure 7: 365-day battery life and CR2032 battery. This image illustrates the long-lasting, replaceable battery feature of the tracker.

4.2 Waterproof and Durability

The PerfiPro Bluetooth Tracker features an IP67 waterproof and dustproof rating. This means it can withstand rain, splashes, and dusty environments. However, it is not recommended for prolonged submersion in water. Ensure the casing is always securely closed to maintain its protective properties.

5. TROUBLESHOOTING

5.1 Device Not Found or Inaccurate Location

- **Check Bluetooth:** Ensure Bluetooth is enabled on your Android device.
- **Battery Level:** Verify the tracker's battery is not depleted. Replace if necessary.
- **Network Coverage:** The Google Find My Device network relies on nearby Android devices. In remote areas with few Android users, location updates may be less frequent or less precise.
- **Refresh App:** Close and reopen the Google Find My Device app, or refresh the device list.
- **Re-pair Device:** If issues persist, try unpairing and re-pairing the tracker with your Android device. Refer to Section 2.2 for resetting instructions.

5.2 Ringing Function Not Audible

- **Proximity:** The ringing function works best when the tracker is within Bluetooth range of your phone. Move closer to the estimated location of the tracker.
- **Obstructions:** Thick walls, furniture, or other objects can dampen the sound.
- **Environmental Noise:** In noisy environments, the 90dB alarm may be difficult to hear.

5.3 Compatibility Issues

- **Android Version:** Ensure your Android device is running Android 9 or a newer version.
- **iOS Devices:** This tracker is specifically designed for Android devices and **is not compatible with iOS.**

6. SPECIFICATIONS
