## 1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your KUNFINE 10.25-inch Android Stereo system. This unit is specifically designed for Audi Q3 models manufactured between 2013 and 2018. Please read this manual thoroughly before installation and use to ensure proper functionality and safety.

### Product Overview

The KUNFINE Android Stereo is an advanced in-car entertainment and navigation system featuring a 10.25-inch IPS touchscreen display, Octa Core processor, 8GB RAM, and 64GB ROM. It integrates seamlessly with your vehicle's existing systems and offers features such as CarPlay, Android Auto, GPS navigation, Bluetooth, and Wi-Fi connectivity.

### Compatibility

This unit is compatible with Audi Q3 vehicles from model years 2013 to 2018. It is important to verify your car's original system configuration (e.g., MMI version, presence of AMI/Aux port) before installation to ensure full compatibility and to determine if additional cables are required.

## 4. MAINTENANCE

To ensure the longevity and optimal performance of your KUNFINE Android Stereo, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that could damage the display or finish.
- **Software Updates:** Periodically check for software updates to ensure the system has the latest features and security enhancements.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

## 5. TROUBLESHOOTING

If you encounter issues with your Android Stereo, refer to the following common troubleshooting steps:

- **No Power:** Ensure all power cables are securely connected. Check the vehicle's fuse box for any blown fuses.
- **No Sound:** Verify speaker connections. Check volume settings on the unit and ensure the car's original audio system is properly configured.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (consult support before performing).
- **GPS Signal Issues:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **CarPlay/Android Auto Connection Issues:** Verify Bluetooth connection. Ensure the "Zlink5" app is running. Check for compatibility issues with your specific phone model.
