SVITOO P10

SVITOO 10-inch Android Tablet User Manual

Model: P10 | Brand: SVITOO

1. INTRODUCTION

Welcome to the comprehensive user manual for your new SVITOO 10-inch Android Tablet. This guide provides detailed instructions on setting up, operating, maintaining, and troubleshooting your device. Designed for adults, this 2025 Android 15 tablet offers powerful performance with its Octa-Core processor, 12GB RAM, 128GB storage (expandable up to 1TB), and a 6000mAh battery. It comes bundled with essential accessories including a Bluetooth keyboard, wireless mouse, and a protective case, enhancing its versatility for both work and entertainment.

2. SETUP

2.1 Unboxing and Initial Power On

Carefully unpack all components from the box. Ensure you have the tablet, protective case, Bluetooth keyboard, wireless mouse, charging cable, power adapter, and stylus pen. The tablet comes pre-installed with a screen protector for immediate use.

2.2 Connecting the Bluetooth Keyboard

The included Bluetooth keyboard allows for a laptop-like experience. Follow these steps to connect it:

1. Move the power switch on the keyboard to the "ON" position.
2. Press and hold the "Connect" button for 3 seconds until the Bluetooth indicator light blinks.
3. On your tablet, go to **Settings** > **Connected devices** > **Pair new device**.
4. Select "Bluetooth Keyboard" from the list of available devices.
5. Confirm the pairing on your tablet. Once connected, the light on the keyboard will turn off.

Video 2.2: Detailed instructions on how to connect the SVITOO Bluetooth keyboard to your Android Tablet.

2.3 Connecting the Wireless Mouse

The wireless mouse can be connected via 2.4GHz USB receiver or Bluetooth. The tablet comes with an OTG adapter for USB connection.

2.3.1 2.4GHz Connection Mode

1. Prepare the tablet, wireless mouse, and the wireless mouse signal receiver/adapter.
2. Insert the wireless mouse signal receiver into the OTG adapter.
3. Insert the adapter into the USB-C port of the tablet, ensuring it is tightly connected.
4. Set the connection mode switch on the back of the mouse to "USB mode".

2.3.2 Bluetooth Connection Mode

1. Slide the mode switch on the back of the mouse to the "Bluetooth" position.
2. On your tablet, go to **Settings** > **Connected devices** > **Pair new device**.
3. Select the corresponding mouse name (e.g., "BT5.2 Mouse") from the list of available devices.
4. Confirm the pairing on your tablet.

Your browser does not support the video tag.

3. OPERATING YOUR TABLET

3.1 User Interface and Navigation (Android 15)

Your SVITOO tablet runs on the latest Android 15 operating system, offering enhanced performance, security, and user experience. Key features include:

- **Split-Screen Multitasking:** Run multiple apps simultaneously for improved productivity.
- **Face Unlock:** Securely and quickly unlock your device using facial recognition.
- **Parental Controls:** Manage device usage and app access for a safe environment for children.
- **Night Mode:** Optimizes display for comfortable reading in low light, reducing eye strain.

3.2 Display Features

The 10.1-inch HD IPS display offers a resolution of 1280 x 800 pixels with a 16:10 aspect ratio, providing vibrant colors and wide viewing angles. It supports Widevine L1 for high-definition streaming on popular platforms like YouTube, Netflix, Amazon Prime Video, Disney+, and Hulu.

Steps for using the Bluetooth keyboard

1. Move the power switch on the keyboard to the "ON" position.
2. Press and hold the "Connect" button for 3 seconds until the Bluetooth indicator light blinks.
3. Enable Bluetooth on the tablet and select the keyboard (listed as Bluetooth Keyboard).
4. Once connected, the light will turn off and pairing is complete.

3.4 Cameras

The tablet features an 8MP rear camera for capturing high-quality photos and videos, and a 2MP front-facing camera ideal for clear video calls and conferencing.

3.5 Battery Life

Equipped with a 6000mAh high-capacity battery, the SVITOO tablet ensures extended usage. Enjoy up to 14 hours of average battery life, making it suitable for long periods of entertainment, work, or learning.

4. MAINTENANCE

4.1 Cleaning Your Tablet

To keep your tablet in optimal condition, regularly clean its screen and body. Use a soft, lint-free cloth, slightly dampened with water or a screen cleaner. Avoid harsh chemicals or abrasive materials. For the screen, gently wipe in one direction to remove smudges and dust.

4.2 Software Updates

Ensure your tablet's software is up-to-date to benefit from the latest features, security patches, and performance improvements. To check for updates, go to **Settings** > **System** > **System update**. Connect to a stable Wi-Fi network before downloading and installing updates.

4.3 Storage Management

Regularly manage your tablet's storage to maintain optimal performance. You can free up space by:

- Uninstalling unused apps.
- Deleting old photos and videos or moving them to cloud storage/microSD card.
- Clearing cache data for apps (**Settings** > **Apps** > select app > **Storage & cache** > **Clear cache**).

To view your storage usage, navigate to **Settings** > **Storage**. The tablet provides a "Free up space" option to assist with this process.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your SVITOO tablet. For more complex problems, please refer to the Warranty & Support section.

5.1 Common Issues and Solutions

- **Tablet is unresponsive or frozen:** Press and hold the power button for about 10-15 seconds until the tablet restarts.

- **Apps are crashing or running slowly:**

    - Close background apps.
    - Clear the app's cache (see Storage Management).
    - Ensure sufficient free storage space.
    - Restart the tablet.

- **Wi-Fi connectivity issues:**

    - Toggle Wi-Fi off and on in Settings.
    - Restart your Wi-Fi router.
    - Forget the network and reconnect.

- **Bluetooth accessory not connecting:**

    - Ensure the accessory is in pairing mode.
    - Check if the accessory is charged.
    - Forget the device in tablet's Bluetooth settings and try pairing again.

- **Battery drains quickly:**
  - Reduce screen brightness.
  - Disable Wi-Fi/Bluetooth when not in use.
  - Close power-intensive background apps.
  - Check battery usage in Settings to identify draining apps.
