1. PRODUCT OVERVIEW

The YOULON M8pro Smart Sunglasses are designed to provide a seamless blend of eye protection and smart audio functionality. Featuring polarized lenses for UV protection and glare reduction, these glasses integrate Bluetooth 5.3 technology for hands-free calling, music playback, and voice assistant interaction. They are suitable for various outdoor activities such as cycling, running, driving, fishing, and golf, offering comfort and connectivity for both men and women.

This image displays the sleek black design of the YOULON M8pro Smart Sunglasses, highlighting the polarized lenses and the integrated arms that house the smart technology.

2. SETUP GUIDE

2.1 Charging the Device

Before first use, fully charge your YOULON M8pro Smart Sunglasses. The device features a built-in rechargeable battery.

- Locate the charging indicator port on the frame.
- Connect the provided charging cable to the port and the other end to a USB power source (e.g., computer USB port, wall adapter).
- The charging indicator light will illuminate during charging. It will change color or turn off once fully charged.
- A full charge typically takes approximately 2 hours.

Figure 2: Battery and Charging Information.

This image illustrates the battery capacity of 130mAh, providing up to 8 hours of playtime, and indicates a charging time of 2 hours.

2.2 Bluetooth Pairing

To use the smart features, you must pair the sunglasses with your smartphone or other Bluetooth-enabled device.

1. Ensure the sunglasses are charged and powered on.
2. Activate Bluetooth on your smartphone.
3. Search for available Bluetooth devices. The sunglasses should appear as "M8pro" or a similar name.
4. Select the device name to initiate pairing.
5. Once paired, the sunglasses will connect automatically to your device when in range (up to 15 meters) and Bluetooth is enabled.

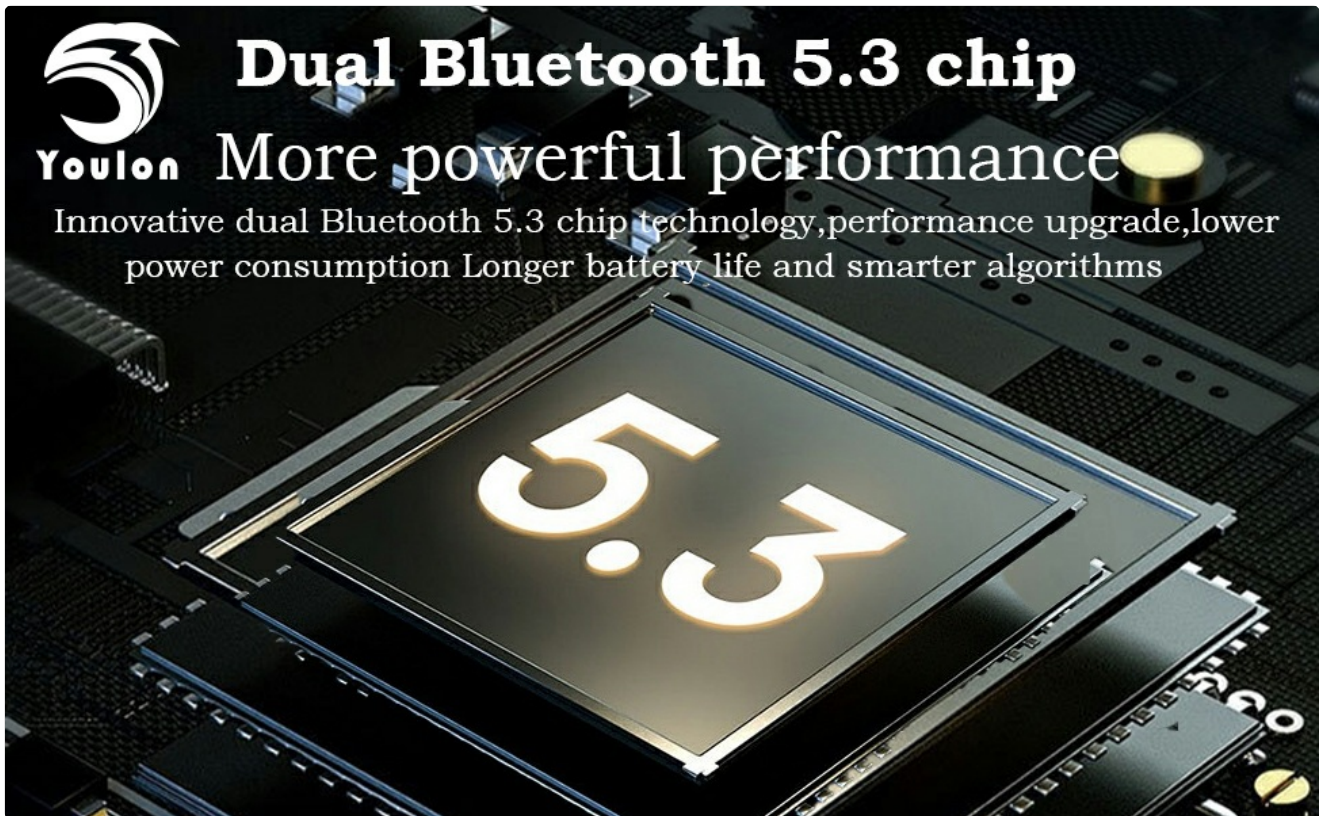

Figure 3: Dual Bluetooth 5.3 Chip.

This image highlights the advanced dual Bluetooth 5.3 chip technology, which provides enhanced performance, lower power consumption, and longer battery life.

3. OPERATING INSTRUCTIONS

The M8pro Smart Sunglasses feature intuitive controls for various functions.

3.1 Power On/Off

Refer to the multi-function key for power control. Typically, a long press will power the device on or off.

3.2 Audio Playback

Once paired, audio from your connected device will play through the integrated speakers. The open-ear design allows you to hear your surroundings while enjoying audio.

- **Play/Pause:** Press the multi-function key once.
- **Next Track:** Double-press the multi-function key.
- **Previous Track:** Triple-press the multi-function key.
- **Volume Control:** Volume is typically controlled via your connected smartphone.

Built-in Mic & Speakers

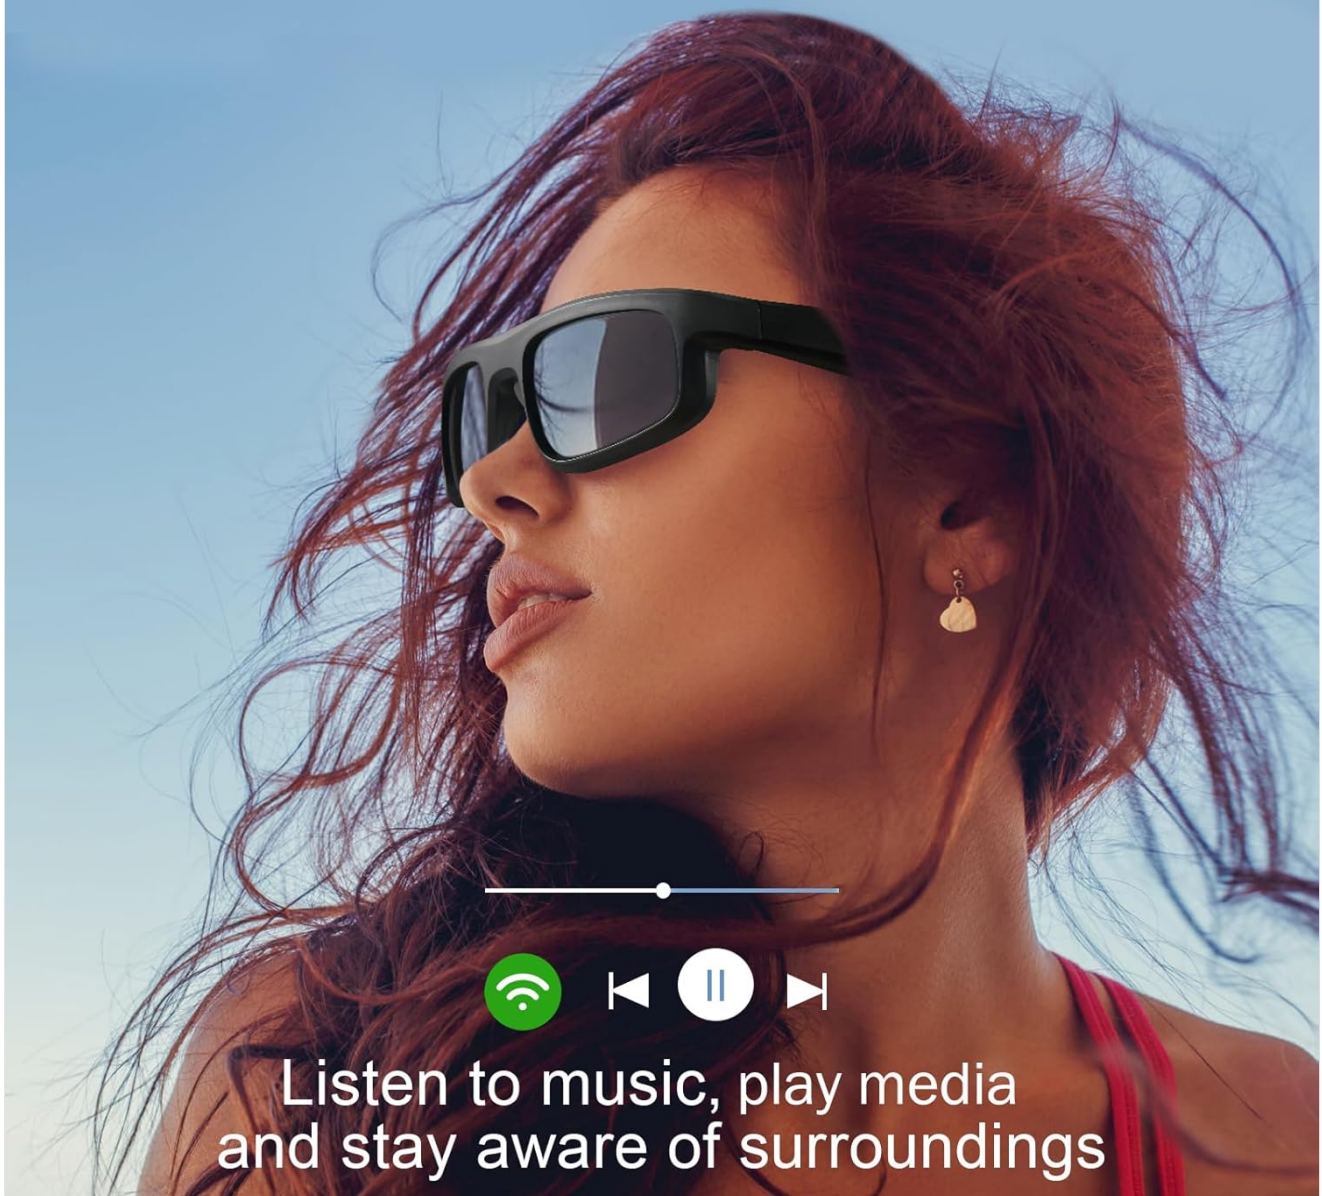

Figure 4: Built-in Mic & Speakers.

This image shows a woman wearing the smart sunglasses, illustrating how the built-in microphone and speakers allow users to listen to music and media while remaining aware of their surroundings.

3.3 Call Management

Manage phone calls directly from your sunglasses when connected to your smartphone.

- **Answer/End Call:** Press the multi-function key once during an incoming call or active call.
- **Reject Call:** Long-press the multi-function key during an incoming call.
- **Redial Last Number:** Double-press the multi-function key when not on a call.

Figure 5: Hands-Free Calling.

This image demonstrates the hands-free calling capability of the smart sunglasses, showing a phone call interface on a smartphone screen, emphasizing convenience and safety for driving or travel.

3.4 Voice Assistant

Access your smartphone's voice assistant (Siri, Google Assistant, etc.) through the sunglasses.

- **Activate Voice Assistant:** Long-press the multi-function key (when not on a call or playing music) to activate your device's voice assistant.

3.5 General Use

The polarized lenses provide 100% UV protection and reduce glare, making them ideal for various outdoor activities.

Smart Glasses For Cycling

Polarized sunglasses lenses provide 100% UV protection

Figure 6: Smart Glasses for Cycling.

This image shows a man cycling outdoors while wearing the smart sunglasses, illustrating their suitability for sports and outdoor activities due to polarized lenses and UV protection.

4. CARE AND MAINTENANCE

Proper care will extend the life and performance of your smart sunglasses.

4.1 Cleaning

- **Lenses:** Use a soft, clean microfiber cloth specifically designed for eyewear. For stubborn smudges, use a lens cleaning spray or a small amount of mild soap and water, then dry thoroughly with a clean cloth. Avoid abrasive materials or harsh chemicals.
- **Frame:** Wipe the frame with a soft, damp cloth. Do not submerge the glasses in water.

4.2 Storage

- When not in use, store the sunglasses in the provided protective case to prevent scratches and damage.
- Avoid exposing the sunglasses to extreme temperatures (hot or cold) or direct sunlight for prolonged periods, as this can damage the battery and electronic components.

4.3 General Precautions

- Do not attempt to disassemble or repair the sunglasses yourself. This will void the warranty and may cause damage.
- Keep away from water and moisture. While designed for outdoor use, they are not waterproof.
- Avoid dropping the sunglasses or subjecting them to strong impacts.

5. TROUBLESHOOTING

If you encounter issues with your YOULON M8pro Smart Sunglasses, refer to the following common solutions:

Problem	Possible Cause	Solution
Cannot power on	Low battery; Device off	Charge the sunglasses fully; Long-press the multi-function key to power on.
Cannot pair via Bluetooth	Bluetooth off on phone; Sunglasses not in pairing mode; Out of range	Ensure Bluetooth is enabled on your phone; Make sure sunglasses are powered on and discoverable; Move phone closer to sunglasses (within 15m). Try restarting both devices.
No audio or poor audio quality	Volume too low; Not properly connected; Interference	Increase volume on your phone; Re-pair the sunglasses; Move away from other electronic devices that may cause interference.
Calls not working	Not connected; Microphone blocked	Ensure sunglasses are connected for calls (check Bluetooth settings on phone); Ensure microphone is not obstructed.

If the problem persists after trying these solutions, please contact customer support.
