GROWNSY BC037

GROWNSY SniffEase Spa 3-in-1 Nasal Aspirator User Manual

Model: BC037

INTRODUCTION

The GROWNSY SniffEase Spa 3-in-1 Nasal Aspirator is designed to provide comprehensive nasal care for infants and toddlers. This device combines spray, suction, and micro-mist functions to effectively clear nasal passages, loosen stubborn mucus, and soothe the nose and upper airways. It features adjustable suction levels, soothing lights, and lullabies to ensure a comfortable experience for your child.

SAFETY INFORMATION

- This device is intended for operation by adults only. Keep it out of reach of children to prevent accidental damage or misuse.
- Always follow the user manual for correct assembly. Incorrect assembly can damage the device.
- Do not immerse the main unit of the product in water. The main unit is not waterproof.
- Ensure all detachable parts are clean and dry after each use to prevent blockages and maintain hygiene.
- If suction power seems weak, check for blockages in the suction chamber and ensure it is clean and dry.
- For dry or hard mucus, it is recommended to soften it with saline water for 30 seconds to 1 minute before using the aspirator. The device is not designed to suction dry or hard boogers directly.
- Select the appropriate suction gear based on the child's age and the type of congestion.
- The spray and mist functions have a smart 10-second auto-stop feature to prevent overuse.

PACKAGE CONTENTS

Verify that all items are present in the package:

- GROWNSY SniffEase Spa 3-in-1 Nasal Aspirator Main Unit
- 3 Food-Grade Silicone Tips (Gourd, Conical, Funnel)
- USB Charging Cable

PRODUCT OVERVIEW

The SniffEase Spa features an ergonomic design with intuitive controls for easy one-handed operation. It integrates three primary functions: spray, suction, and micro-mist, each designed for specific nasal care needs.

All Controls Within Easy Reach

Ergonomic grip, intuitive buttons for one-handed control

Image: A close-up view of the GROWNSY SniffEase Spa 3-in-1 Nasal Aspirator, highlighting its control panel. Buttons for Power/Suction, Spray/Mist, Light, and Music are visible, along with an LCD display showing the current suction level.

Silicone Tips

The device comes with three ultra-soft, food-grade, BPA-free silicone tips suitable for different ages and types of mucus:

- **Gourd Nozzle:** Ideal for newborns and delicate nasal passages.
- **Large Opening Conical Nozzle:** Suitable for general use and larger mucus.
- **Funnel Nozzle:** Designed for deeper mucus removal.

Health-Guarded Nasal Care

3 Ultra-soft, food-grade silicone tips

Image: The three distinct silicone tips included with the nasal aspirator, laid out next to the main unit. These tips are designed for different stages of a baby's growth and varying mucus consistencies.

SETUP

1. **Charge the Device:** Before first use, fully charge the aspirator using the provided USB cable. The battery indicator on the LCD display will show charging status.
2. **Attach a Silicone Tip:** Select the appropriate silicone tip (gourd, conical, or funnel) for your child's age and needs. Gently push the chosen tip onto the aspirator's nozzle until it is securely in place.
3. **Prepare for Spray/Mist (Optional):** If using the spray or micro-mist function, ensure the water chamber is filled with saline solution or distilled water. Twist the chamber to open, fill, and then twist to lock securely.

OPERATING INSTRUCTIONS

Power On/Off and Suction Adjustment

1. Press the **Power/Suction Switch** button to turn on the device. The LCD display will show the current suction level (P-1, P-2, P-3).
2. Press the **Power/Suction Switch** button repeatedly to cycle through the 3 adjustable suction levels (P-1: gentle, P-2: medium, P-3: strong). Choose the level appropriate for your child's congestion.
3. To turn off the device, press and hold the **Power/Suction Switch** button.

Using Spray and Micro-Mist Functions

1. Ensure the water chamber is filled with saline solution or distilled water.
2. Press the **Spray/Mist Button** to activate the spray or micro-mist function. The device will automatically stop after 10 seconds to prevent overuse.
3. The spray function helps to loosen stubborn mucus, while the micro-mist soothes and moisturizes the nasal passages.

3-IN-1 Solution to Breathe Easier

Spray

Loosens stubborn snot & moisturizes stuffy noses instantly

Suction

Powerful yet gentle suction to clear mucus effectively

Micro-Mist

Deep, extra-gentle soothing for the nose and upper airways

Image: A composite image showing the three functions of the nasal aspirator: spray to loosen mucus, suction to clear passages, and micro-mist to soothe, each depicted with a baby receiving care.

Soothing Light and Lullabies

1. Press the **Light Button** to activate the soft ambient light feature, which can help calm your baby during nasal care. Press again to cycle through light colors or turn off.
2. Press the **Music Button** to play one of the 5 built-in soothing lullabies. Press again to change the

lullaby or turn off the music.

[MAINTENANCE AND CLEANING](#)

Proper cleaning and maintenance are essential for hygiene and optimal performance.

1. **Disassembly:** After each use, remove the silicone tip and the suction chamber from the main unit.
2. **Rinsing:** Rinse all detachable parts (silicone tips, suction chamber) thoroughly under running water. The silicone nozzles can be sterilized in boiling water.
3. **Drying:** Ensure all parts are completely dry before reassembling or storing. Leftover moisture can lead to mold or reduced performance.
4. **Main Unit Cleaning:** Wipe the main unit with a damp cloth. Do not immerse the main unit in water.
5. **Storage:** Store the clean and dry device in a cool, dry place, away from direct sunlight and out of reach of children.
