3. TOOLS REQUIRED

The following tools are recommended for installation:

- Phillips Screwdriver
- Ruler
- Lineman's Pliers (for screw trimming, if necessary)

4. IMPORTANT NOTES BEFORE INSTALLATION

- Keep the door open during installation.
- DO NOT close the door until the batteries are installed.
- Battery installation is the final step.

Door Compatibility Check

Before purchasing and installing, ensure your door dimensions are compatible:

- **Cross Bore Diameter:** 2-1/8 inches (54 mm)
- **Cross Bore Backset:** 2-3/8 inches or 2-3/4 inches (60 mm or 70 mm)
- **Door Thickness:** 1-3/8 inches to 2-1/8 inches (35 mm to 55 mm)
- **Latch Bolt Size (height):** 1 inch (25 mm)

Video: Official Bextgoo Smart Lock D10 installation guide. This video demonstrates the step-by-step process of installing the smart lock on a door, including bolt adjustment, keypad panel installation, and mounting plate setup.

Step-by-Step Installation

1. Bolt Adjustment:

- Hold the bolt in front of the door hole to check if the latch square hole is centered.
- If centered (60mm backset), no adjustment is needed.
- If not centered (70mm backset), adjust the bolt by rotating it to the end.

Image: Bolt adjustment process, showing how to measure and rotate the bolt if needed.

2. Install the Latch:

- Ensure the 'UP' sign on the latch is facing upwards.
- Insert the latch into the door edge.
- Secure the latch with the provided screws.
- Check latch function: Ensure the latch is retracted (unlocked) before proceeding.

Image: Installing the latch and securing it with screws.

3. Install the Keypad Panel:

- Position the square spindle vertically to match the latch square hole.
- Route the power cable underneath the latch.
- Align the keypad panel with the latch square hole.
- Note: Ensure the keypad panel faces the outside of the door.

Image: Keypad panel installation, showing cable routing and spindle alignment.

4. Take out the Mounting Plate:

- Open the battery compartment on the rear panel.
- Unscrew the mounting screws.
- Remove the mounting plate.

Image: Removing the mounting plate from the rear panel.

5. Install the Mounting Plate:

- Before installing, pass the power cable through the mounting plate.
- Insert the trimmed screws (if necessary, based on door thickness) suitable for your door thickness.

and tighten them.

Image: Installing the mounting plate and securing the power cable.

6. Install the Rear Panel:

- Connect the power cable between the front and rear panels of the lock.
- Make sure to set the rear panel to the unlocked position first.
- Tidy up any excess power cable and tuck it into the door frame.
- Align the rear panel with the latch and secure it in place.
- Insert the two screws you previously removed from the holes and tighten them.
- Insert 4 AA batteries into the battery compartment.
- Finally, close the battery cover.

6. FEATURES

- **10-in-1 Keyless Access:** Unlock using fingerprint, Bluetooth app, IC card, passcode, physical key, or the indoor one-touch unlock button.
- **Ultra-Fast Fingerprint Access:** Unlock in just 0.1 seconds with high-accuracy fingerprint recognition. Supports up to 100 fingerprints.
- **App Control:** Manage your lock via Bluetooth. With an optional gateway (sold separately), enjoy remote access, generate passcodes from anywhere, view unlock history, and enable voice control via Alexa or Google Assistant.
- **Auto-Lock & One-Touch Locking:** Set auto-lock delays (5-60 seconds) for convenience.
- **Flexible Passcode Options:** Create permanent, temporary, recurring, or one-time passcodes for various users.
- **Anti-Peep Passcode:** Add random digits before or after your actual passcode to prevent others from guessing it.
- **Long Battery Life & Emergency Backup:** Powered by 4 AA batteries (included) for up to 8+ months. Features low battery alerts, an emergency Type-C charging port, and a hidden keyhole for physical key access.
- **Durable Design:** Crafted from solid aluminum alloy for durability and a modern aesthetic.
- **Weather Resistant:** Works in extreme temperatures (-13°F to 149°F) and is IP63 water-resistant.
- **Left/Right-Handed Door Compatible:** Fits both left and right-handed doors.

7. OPERATING INSTRUCTIONS

Unlocking Methods

- **Fingerprint:** Place your registered finger on the fingerprint sensor. The lock will unlock instantly.
- **Passcode:** Enter your registered passcode on the keypad. For anti-peep security, you can enter random digits before and after your actual code.
- **IC Card:** Tap your registered IC card on the designated area of the keypad.
- **Bluetooth App:** Open the Bextgoo app on your smartphone and use the unlock function via Bluetooth within range (up to 15 meters).
- **Physical Key:** In case of emergency or battery depletion, use the physical key in the hidden keyhole.
- **Indoor One-Touch Unlock:** Use the internal knob or button for quick exit.

App Control Functions

The Bextgoo app provides comprehensive control over your smart lock:

- **Enable Auto-Lock:** Set the lock to automatically lock after a specified delay (5-60 seconds).

- **Check Access Logs:** View a history of who entered and when.
- **Check Battery Status:** Monitor the current battery level of your lock.
- **Set up IC Card:** Register and manage IC cards for access.
- **Set up Fingerprint:** Register and manage fingerprints for access.
- **User Management:** Add, modify, or remove users and their access credentials.
- **Temporary Passcodes:** Generate time-limited or one-time passcodes for guests or service providers.
- **Passage Mode:** Disable auto-lock for a period, keeping the door unlocked for convenience during gatherings.
- **Silent Mode:** Adjust or mute the lock's voice prompts for quiet operation.

8. MAINTENANCE

- **Battery Replacement:** Replace all four AA batteries when the low battery alert is received. Use high-quality alkaline batteries for optimal performance.
- **Cleaning:** Wipe the keypad and lock body with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the finish or electronic components.
- **Regular Checks:** Periodically check that all screws are tight and the lock operates smoothly.

9. TROUBLESHOOTING

- **Lock Not Responding:** Check battery levels. If batteries are low, replace them or use the emergency Type-C charging port. If still unresponsive, use the physical key.
- **Fingerprint Not Recognized:** Ensure your finger is clean and dry. Re-register your fingerprint if issues persist.
- **Passcode Not Working:** Double-check the entered passcode. Ensure anti-peep digits are correctly used if enabled. The lock will automatically lockout after 5 failed attempts.
- **App Connectivity Issues:** Ensure Bluetooth is enabled on your phone and you are within range of the lock. Restart the app or your phone if necessary.
- **Latch Not Retracting/Extending:** Check for any obstructions in the door frame or latch mechanism. Ensure the latch square hole is correctly aligned during installation.

10. SPECIFICATIONS
