

2025

Generic Robot Pet Camera User Manual

MODEL: 2025

1. Safety Information

Please read all safety instructions carefully before using this product. Keep this manual for future reference.

- Do not expose the device to water or moisture.
- Avoid extreme temperatures. Operate within 0°C to 40°C (32°F to 104°F).
- Use only the provided charging cable and adapter.
- Keep the device away from children and pets to prevent accidental damage or injury.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Ensure the device is placed on a stable, flat surface to prevent it from falling.

2. Product Overview

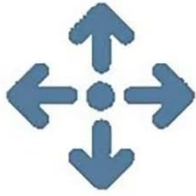

The Generic Robot Pet Camera (Model 2025) is an advanced indoor security and pet monitoring device designed to provide comprehensive surveillance and interaction capabilities. It features a dual-lens system for wide coverage, mobile app control for remote operation, and a long-lasting rechargeable battery.

Front view of the Generic Robot Pet Camera, showcasing its dual lenses and compact design.

Key Features:

- **Double Lens Design:** Provides 1080P dual-picture viewing with rotatable lenses, eliminating blind spots.
- **Mobile App Remote Control:** Monitor your home from anywhere via a dedicated mobile application.
- **Long Battery Life:** Built-in 5200mAh rechargeable battery for extended, uninterrupted surveillance.
- **Movable Camera:** Equipped with track wheels for remote control of direction and speed, allowing flexible movement to any corner of your home.
- **Two-Way Talk:** Interact with family or pets in real-time through the app.
- **Motion Tracking & Night Vision:** Automatically tracks movement and provides clear video in low-light conditions.

3. Package Contents

Please check the package contents upon unboxing. If any items are missing or damaged, contact customer support.

- Generic Robot Pet Camera (Model 2025)
- USB Charging Cable
- User Manual

4. Setup

4.1 Charging the Device

1. Connect the USB charging cable to the charging port on the camera.
2. Plug the other end of the cable into a compatible USB power adapter (not included) or a powered USB port.

3. The indicator light will show charging status. Charge the device fully before first use.

4.2 Downloading the Mobile App

1. Scan the QR code provided in the quick start guide or search for the designated app name (e.g., 'PetCam Connect' or similar, refer to packaging) in your smartphone's app store (App Store for iOS, Google Play Store for Android).
2. Download and install the app.
3. Register a new account or log in if you already have one.

4.3 Pairing the Device with the App

1. Ensure your smartphone is connected to a 2.4GHz Wi-Fi network. (5GHz networks are not supported).
2. Power on the Robot Pet Camera.
3. Open the mobile app and follow the on-screen instructions to add a new device.
4. You may be prompted to scan a QR code on the camera or enter a device ID.
5. Once connected, the camera's indicator light will change, and you will see the live feed in the app.

4.4 Initial Placement

Place the camera on a flat, stable surface in an area where you wish to monitor. Ensure it has a clear line of sight and is within range of your Wi-Fi network.

5. Operating

5.1 App Interface Overview

The mobile app provides access to all camera functions. Familiarize yourself with the layout:

- **Live View:** Displays real-time video feed from the camera.
- **Directional Controls:** Joystick or arrow buttons to move the camera.
- **Microphone/Speaker:** Buttons for two-way audio communication.
- **Record/Snapshot:** Capture video or still images.
- **Settings:** Access camera configurations, Wi-Fi settings, and more.

The mobile app interface allows remote control and monitoring of the robot pet camera, shown here with cats in the background.

5.2 Remote Movement

Use the directional controls within the app to move the camera around your home. The track wheels allow for smooth navigation.

5.3 Two-Way Audio

Tap the microphone icon in the app to speak through the camera's speaker. Tap the speaker icon to listen to audio from the camera's environment.

The two-way audio feature allows interaction with pets or family members, as depicted by a child and cat near the camera.

5.4 Motion Tracking and Auto Patrol

Enable motion tracking in the app settings to have the camera automatically follow detected movement. Configure auto patrol routes for scheduled surveillance of specific areas.

The camera's motion tracking feature can follow pets as they move, providing continuous monitoring.

5.5 Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black-and-white video.

6. Maintenance

6.1 Cleaning

Wipe the camera's exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials. Ensure the lenses are clean for optimal image quality.

6.2 Battery Care

To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, especially if it will be stored for an extended period.

6.3 Software Updates

Check the mobile app regularly for firmware updates. Keeping the camera's software up-to-date ensures optimal performance and security.

7. Troubleshooting

- **Camera not connecting to Wi-Fi:**
 - Ensure your Wi-Fi network is 2.4GHz.
 - Check Wi-Fi password accuracy.
 - Move the camera closer to the router.
 - Restart the camera and your router.
- **Poor video quality:**
 - Check your internet connection speed.
 - Clean the camera lenses.
 - Ensure adequate lighting for non-night vision mode.
- **Camera not moving:**
 - Check battery level.
 - Ensure there are no obstructions on the floor.
 - Restart the camera and the app.
- **Two-way audio not working:**
 - Check microphone and speaker permissions for the app on your phone.
 - Ensure volume levels are adjusted correctly in the app and on your phone.
