4. SETUP

4.1 Charging the Battery

1. Connect the USB charging cable to the camera's USB-C port.
2. Plug the other end of the cable into a compatible USB power adapter (not included) or a computer's USB port.
3. The charging indicator light will illuminate. Once fully charged, the light will change or turn off.

Ensure the camera is fully charged before first use for optimal battery life.

4.2 Inserting the Micro SD Card

1. Locate the Micro SD card slot on the side of the camera.
2. Gently insert the provided 32GB Micro SD card into the slot until it clicks into place. Ensure the card is oriented correctly.
3. To remove, push the card inward until it clicks, then release, and it will spring out.

A Micro SD card is required to save photos and videos.

4.3 Loading Print Paper

1. Open the paper compartment cover on the camera.
2. Insert a roll of thermal print paper, ensuring the paper feeds out from the top of the roll and is aligned with the printing mechanism.
3. Close the compartment cover, leaving a small portion of paper extending from the print slot.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the Power button for a few seconds to turn the camera on or off.

5.2 Taking Photos

1. Turn on the camera. It will typically start in photo mode.
2. Frame your shot using the 2.4-inch LCD screen.
3. Use the Up/Down navigation buttons to adjust the 16x digital zoom.
4. Press the Shutter button to take a photo.

5.3 Instant Printing

The camera supports ink-free thermal printing in two modes: Grayscale and Dot Matrix.

After taking a photo, you can choose to print it directly. Navigate through the menu to select your preferred printing mode. The camera also offers various creative options for photos:

- **Filters:** Apply artistic filters to your photos.
- **Frames:** Add fun and decorative frames.
- **Stickers:** Incorporate cute digital stickers.
- **Mirror Effects:** Experiment with mirror image effects.

1. Select the 'Games' option from the main menu.
2. Choose a game and use the navigation buttons to play.

5.7 Transferring Files

To transfer photos and videos to a computer or other device:

1. Connect the camera to your computer using the USB cable.
2. The camera will appear as a removable disk.
3. Open the camera's folder and copy the desired files to your computer.

Alternatively, you can remove the Micro SD card and insert it into a card reader connected to your computer.

6. MAINTENANCE

6.1 Cleaning

- Use a soft, dry cloth to clean the camera body.
- For the lens and screen, use a specialized lens cleaning cloth to avoid scratches.

- Do not use liquid cleaners or solvents.

6.2 Battery Care

- Avoid exposing the camera to extreme temperatures.
- Charge the battery regularly, even if the camera is not in use, to maintain battery health.
- If the camera will not be used for an extended period, store it with a partial charge (around 50%).

6.3 Storage

Store the camera in a cool, dry place away from direct sunlight and moisture.

7. TROUBLESHOOTING

- **Camera does not turn on:** Ensure the battery is charged. Connect the camera to a charger and try again.
- **Cannot take photos/record videos:** Check if the Micro SD card is inserted correctly and has sufficient free space.
- **Print quality is poor:** Ensure the print paper is loaded correctly and is not damaged. Replace the paper roll if necessary.
- **Camera freezes:** Press and hold the Power button for 10 seconds to force a restart.
- **Files not transferring to computer:** Ensure the USB cable is securely connected to both the camera and the computer. Try a different USB port or cable.
