## Geeni GNC-CW067-199

# Geeni Vision 2K Quad HD Smart Indoor Camera Instruction Manual

Model: GNC-CW067-199

## INTRODUCTION

---

This manual provides detailed instructions for the setup, operation, and maintenance of your Geeni Vision 2K Quad HD Smart Indoor Camera. Please read this manual thoroughly before using the product to ensure proper functionality and safety. The Geeni Vision camera offers advanced features such as 2K resolution, two-way audio, motion detection, night vision, and compatibility with Alexa and Google Home for enhanced indoor security.

## KEY FEATURES

---

- **Sharp 2K Resolution:** Captures video in stunning 2K clarity.
- **Fully Adjustable View:** Camera tilts up and down for flexible viewing angles.
- **Instant Mobile Alerts:** Receives notifications on your smartphone for detected motion.
- **Two-Way Talk:** Enables communication through the camera via your smartphone.
- **Night Vision:** Provides clear footage in low-light conditions up to 25 feet.
- **Voice Control:** Integrates with Amazon Alexa and Google Home for hands-free operation.

## WHAT'S IN THE BOX

The Geeni Vision 2K Quad HD Smart Indoor Camera package includes:

- Geeni Vision 2K Quad HD Smart Indoor Camera
- Power Adapter and Cable
- Mounting Hardware (Screws, Wall Anchors)
- User Manual (this document)

## SETUP

### 1. Download the Geeni App

Search for "Geeni" in the Apple App Store or Google Play Store and download the application. Create an account or log in if

you already have one.

## **2. Power On the Camera**

Connect the provided power cable to the camera and plug the adapter into a power outlet. The camera will power on and indicate its status with an LED light.

## **3. Add Device in the Geeni App**

1. Open the Geeni app and tap "+" in the top right corner to add a new device.
2. Select "Video Camera" and then choose your Geeni Vision 2K camera model.
3. Follow the on-screen instructions to connect the camera to your Wi-Fi network. Ensure your phone is connected to a 2.4GHz Wi-Fi network.
4. Scan the QR code displayed on your phone screen with the camera lens. You will hear a confirmation sound once scanned successfully.
5. Complete the pairing process in the app.

## **4. Camera Placement and Mounting**

The Geeni Vision camera features a flexible stem, allowing for versatile placement. You can place it on a flat surface or mount it to a wall or ceiling using the included hardware. Ensure the camera is positioned to cover your desired monitoring area.

Camera tilts up and down for adjustable viewing angles.

## Set Up Anywhere

### OPERATING THE CAMERA

---

#### Live View and Recording

Once connected, open the Geeni app and select your camera to view the live feed. From the live view screen, you can manually record video, take screenshots, and access other features.

Check back at home from  
anywhere using your smartphone.

# Never Miss a Thing

Image: A smartphone displaying the live feed from the Geeni Vision 2K camera, illustrating how users can check back at home from anywhere.

## **Motion Detection and Alerts**

The camera features advanced motion detection. To enable or adjust settings:

1. In the Geeni app, select your camera.
2. Tap the settings icon (gear) in the top right corner.
3. Navigate to "Motion Detection Settings" to adjust sensitivity, set activity zones, and enable/disable alerts.

Detect movement and  
send instant notifications  
right to your phone.

## Motion Detection

Image: A smartphone displaying an instant notification for human body detection from the Geeni Vision 2K camera, demonstrating the motion detection feature.

### Two-Way Audio

Use the two-way audio feature to communicate with individuals near the camera. On the live view screen, tap the microphone icon to speak and the speaker icon to listen.

2-way audio for full communication.

"Honey, dinner is ready"

## Listen & Talk

### Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black-and-white footage up to 25 feet. This feature ensures continuous monitoring even in the dark.

**Crisp and clear surveillance of  
your home, even in the dark.**

## **Night Vision**

Image: A smartphone displaying a crisp and clear surveillance image of a home interior at night, demonstrating the camera's night vision capabilities.

### **Voice Control Integration**

The Geeni Vision camera is compatible with Amazon Alexa and Google Home. To enable voice control:

1. Link your Geeni account in the Alexa or Google Home app.
2. Discover devices.
3. Use commands such as "Alexa, show me the baby room camera" or "Hey Google, show me the living room camera" on compatible smart displays.

*"Alexa, show me the baby room camera."*

## MicroSD Card Storage

Insert a MicroSD card (up to 128GB, not included) into the camera's slot for local video storage. The camera will automatically record events or continuous video based on your settings in the Geeni app. Ensure the card is formatted correctly within the app.

## MAINTENANCE

### Cleaning the Camera

To maintain optimal performance, periodically clean the camera lens and body. Use a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the lens or casing.

### Software Updates

The Geeni app will notify you of any available firmware updates for your camera. It is recommended to keep your camera's

firmware updated to ensure the latest features and security enhancements.

## MicroSD Card Management

If using a MicroSD card, regularly check its storage capacity through the Geeni app. You may need to format the card periodically or replace it if it becomes full or corrupted.

## TROUBLESHOOTING

---

- **Camera not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4GHz. Check that the Wi-Fi password is correct. Move the camera closer to your router. Reset the camera and try pairing again.
- **No live view:** Check your internet connection. Ensure the camera is powered on. Restart the Geeni app.
- **Motion alerts not received:** Verify motion detection is enabled in the app settings. Check your phone's notification settings for the Geeni app. Adjust motion sensitivity.
- **Two-way audio not working:** Ensure microphone and speaker permissions are granted to the Geeni app on your phone. Check volume settings on your phone and within the app.
- **MicroSD card not recording:** Ensure the MicroSD card is inserted correctly and formatted within the Geeni app. Check if the card is full.
- **Camera LED status:** Refer to the Geeni app or manufacturer's website for a detailed explanation of LED indicators. A blinking light usually indicates pairing mode or a connection issue.

If issues persist, contact Geeni customer support for further assistance.
