

ALAULM GZYP-250-01

ALAULM 10'x 14' Outdoor Hardtop Pergola User Manual

Model: GZYP-250-01

1. INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your ALAULM 10'x 14' Outdoor Hardtop Pergola. Please read this manual thoroughly before assembly and retain it for future reference.

The ALAULM Hardtop Pergola is designed to provide a shaded outdoor living space, featuring a galvanized metal frame, polycarbonate roof panels, and integrated curtains and netting for enhanced comfort and privacy.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in serious injury or property damage.

- **Assembly Safety:** Always assemble with at least two adults. Wear appropriate safety gear, such as gloves and eye protection. Keep children and pets away from the assembly area.
- **Anchoring:** This pergola must be securely anchored to a solid wall and the ground using the provided hardware. Failure to do so may result in the structure overturning in high winds.
- **Weather Conditions:** Do not use this pergola in extreme weather conditions, including heavy winds (above 40 mph), heavy snow, or severe thunderstorms. Remove curtains and netting during strong winds to prevent damage. Clear snow accumulation from the roof promptly to prevent structural collapse.
- **Location:** Choose a level, stable surface for installation. Ensure adequate clearance from power lines, trees, and other structures.
- **Fire Hazard:** Keep all heat sources, including grills, fire pits, and heaters, at a safe distance from the pergola structure, curtains, and netting.
- **Inspection:** Regularly inspect all bolts, screws, and anchors to ensure they are tight and secure. Replace any damaged parts immediately.

3. SETUP AND ASSEMBLY

3.1 Package Contents

Your ALAULM Hardtop Pergola is shipped in 3 separate boxes. These boxes may arrive at different times. Please ensure all boxes have been received before beginning assembly.

Figure 3.1: Illustration of the 3-box delivery process. Please wait for all packages to arrive before starting assembly.

Refer to the included parts list in your package to verify all components are present and undamaged before proceeding.

3.2 Tools Required (Not Included)

- Ladder
- Drill with appropriate bits for wall mounting
- Wrench set
- Measuring tape
- Level
- Safety gloves and eye protection

3.3 Site Preparation

- Select a flat, level surface for installation.
- Ensure the wall where the pergola will be mounted is structurally sound and capable of supporting the weight and forces exerted by the pergola.
- Clear the area of any debris or obstructions.

3.4 Assembly Steps (General Overview)

Detailed step-by-step instructions with diagrams are provided in a separate assembly guide included with your product. The following is a general sequence:

1. **Frame Assembly:** Assemble the main aluminum-iron frame components according to the diagrams.
2. **Wall Mounting:** Securely attach the wall-mounted side of the pergola to your chosen wall using the provided steel nails and screws. Ensure the structure is level before tightening.
3. **Column Installation:** Erect the support columns and attach them to the main frame.
4. **Ground Anchoring:** Secure each column base to the ground using the provided ground anchors for enhanced stability.
5. **Roof Panel Installation:** Install the translucent greenish-blue polycarbonate roof panels onto the frame. Ensure they are correctly seated for proper drainage and UV protection.

6. **Curtain and Netting Installation:** Hang the dual-track sliding fabric curtains and mesh netting onto their respective tracks.

PRODUCT DIMENSION

10FT X 14FT Hard Top Gazebo

Notice: The item is packed into 3 boxes so they may be delivered at different time. Please wait patiently.

4. OPERATING INSTRUCTIONS

4.1 Curtains and Netting

The pergola is equipped with a dual-track system for curtains and netting, allowing independent operation.

- **Mesh Netting:** Use the mesh screen to keep insects out while allowing airflow.
- **Fabric Curtains:** Use the fabric curtains for privacy, sun blockage, and wind protection.
- **Operation:** Slide the curtains and netting along their respective tracks. Use the integrated zippers and Velcro straps to secure them as desired (fully open, semi-open, fully closed).

Fully-closed

Figure 4.2: Pergola in a semi-open configuration, with mesh netting closed for insect protection.

Figure 4.3: Pergola in a fully closed configuration, with fabric curtains providing privacy and weather protection.

4.2 Polycarbonate Roof Panels

The translucent greenish-blue polycarbonate roof panels are designed for optimal light transmission, UV protection, and

efficient water drainage due to their sloped design.

POLYCARBONATEROOF

The slope roof design allow water to flow off the roof quickly to prevent water accumulation

Anti-UV

Waterproof

Sturdy & Stable

5. MAINTENANCE

5.1 Frame and Roof Panels

- **Cleaning:** Clean the metal frame and polycarbonate roof panels with a mild soap and water solution. Rinse thoroughly with clean water. Avoid abrasive cleaners or scrub brushes that could scratch the surfaces.
- **Inspection:** Periodically check all bolts, screws, and anchors for tightness. Tighten as necessary. Inspect the frame for any signs of rust or damage; touch up with appropriate paint if needed.
- **Snow Removal:** In snowy conditions, regularly remove snow accumulation from the roof to prevent excessive weight and potential damage.

5.2 Curtains and Netting

- **Cleaning:** The fabric curtains and mesh netting can be spot cleaned with mild soap and water. For deeper cleaning, follow care instructions on any attached labels. Ensure they are completely dry before storing or closing for extended periods to prevent mildew.
- **Storage:** During severe weather or off-season, it is recommended to remove and store the curtains and netting indoors to prolong their lifespan.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pergola feels unstable or wobbly.	Loose anchors or wall mounts; uneven ground.	Ensure all ground anchors are securely fastened. Verify wall mounting screws are tight. Confirm installation surface is level.
Water accumulation on roof.	Improper roof panel installation; debris blocking drainage.	Check that roof panels are correctly seated and aligned. Clear any leaves or debris from the roof and gutters.
Curtains/netting do not slide smoothly.	Debris in tracks; damaged rollers/hooks.	Clean tracks of any dirt or debris. Inspect rollers/hooks for damage and replace if necessary.

Problem	Possible Cause	Solution
Missing or damaged parts upon delivery.	Logistics issue; manufacturing defect.	Contact ALAULM customer service immediately with your order details.

7. SPECIFICATIONS

Brand	ALAULM
Model Number	GZYP-250-01 (SZYP-250)
Product Dimensions (L x W x H)	170.04"L x 108"W x 101.4"H (14.17'L x 9'W x 8.45'H)
Floor Area	140 square feet
Item Weight	21.3 kg (approx. 47 lbs)
Frame Material	Aluminum-Iron Frame, Zinc-Coated Metal Spray
Roof Material	Translucent Greenish-Blue Polycarbonate Panels
Curtain/Netting Material	Fabric curtains, Mesh netting
Color	Gray
Water Resistance Level	Water Resistant
