Safety Instructions

Please observe the following safety guidelines:

- Read all instructions before assembly and use.
- Keep small parts and packaging materials away from children and pets to prevent choking hazards.
- Assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload the shelves or top surface. Refer to the 'Specifications' section for weight limits.
- Do not stand or climb on the unit.
- Use the locking casters to secure the trolley in place when not in motion.

Setup and Assembly Instructions

Follow these steps carefully for proper assembly. It is recommended to have two people for certain steps.

1. **Unpack and Identify:** Carefully unpack all components and hardware. Lay them out on a clean, soft surface. Identify each part using the provided parts list.
2. **Attach Casters:** Secure the four casters to the bottom panel of the trolley. Ensure the two casters with locking mechanisms are positioned on the same side for easier access. Tighten them firmly.
3. **Assemble Side Frames:** Attach the side panels to the bottom panel using the designated hardware. Ensure the pre-drilled holes for the adjustable shelf are facing inwards.
4. **Install Drawer Slides:** Attach the drawer slides to the inner sides of the trolley frame according to the markings. Ensure they are level and aligned.
5. **Assemble Drawer:** Construct the drawer by attaching the front, back, and side panels, then inserting the drawer bottom. Attach the remaining drawer slide components to the sides of the assembled drawer.
6. **Insert Drawer:** Carefully slide the assembled drawer into the trolley frame, aligning the drawer slides.
7. **Install Shelves:** Insert the bottom fixed shelf. Then, place the adjustable center shelf at your desired height using the shelf pins.
8. **Attach Top Panel:** Secure the top panel to the assembled frame using the provided hardware. Ensure it is flush

and centered.

9. **Attach Hooks:** Fasten the two hooks to the designated holes on the side of the trolley.
10. **Final Check:** Verify that all connections are tight and the unit is stable.

Operating Instructions

- **Moving the Trolley:** To move the kitchen island, ensure both locking casters are in the unlocked position. Push or pull the trolley to your desired location.
- **Securing the Trolley:** To prevent unintended movement, push down the locking levers on the two locking casters until they click into place. This will immobilize the trolley.
- **Using the Drawer:** The drawer provides enclosed storage for utensils or smaller items. Pull the handle to open and push to close.
- **Using the Shelves:** The open shelves are suitable for storing kitchen appliances, dishes, or other items. The center shelf can be adjusted to different heights to accommodate various item sizes.
- **Using the Hooks:** The two side hooks are ideal for hanging towels, oven mitts, or small kitchen tools.

Maintenance

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. For stubborn stains, use a mild detergent and dry immediately. Avoid abrasive cleaners or harsh chemicals.
- **Hardware Check:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if any feel loose to maintain stability.
- **Caster Care:** Keep casters free of debris (hair, dust) to ensure smooth movement.

Troubleshooting

- **Trolley is Wobbly:** Check that all screws are securely tightened. Ensure the trolley is on a flat, level surface.
- **Drawer Does Not Slide Smoothly:** Verify that the drawer slides are correctly installed and aligned. Ensure no objects are obstructing the drawer's path. A small amount of silicone lubricant can be applied to the slides if needed.
- **Casters Not Locking:** Ensure the locking mechanism is fully engaged. Check for any debris preventing the brake from functioning correctly.
