

Technical Precision 35004-0343-839

Technical Precision Replacement Part for EZGO/Cushman/TEXTRON 35004-0343-839 Instruction Manual

Model: 35004-0343-839

1. INTRODUCTION

This instruction manual provides essential information for the proper installation, operation, and maintenance of the Technical Precision Replacement Part, model 35004-0343-839. This part is designed as a direct replacement for specific EZGO, Cushman, and TEXTRON vehicles, ensuring compatibility and reliable performance. Please read this manual thoroughly before attempting any installation or use to ensure safety and optimal functionality.

2. PRODUCT OVERVIEW

The Technical Precision Replacement Part 35004-0343-839 is engineered to meet or exceed the specifications of the original equipment manufacturer (OEM) part. It is a critical component for the specified EZGO, Cushman, and TEXTRON models, ensuring the continued operation of your vehicle's system. This replacement part is specifically identified as a battery or a related electrical component based on the product description.

3. PACKAGE CONTENTS

Upon opening the package, please verify that all components are present and undamaged. The standard package for model 35004-0343-839 includes:

- One (1) Technical Precision Replacement Part (Model: 35004-0343-839)

If any items are missing or damaged, please contact Technical Precision customer support immediately.

4. SETUP AND INSTALLATION

Safety First: Before beginning any installation, ensure the vehicle's power is completely disconnected. Wear appropriate personal protective equipment (PPE), including safety glasses and gloves. If you are unsure about any step, consult a qualified technician.

1. **Identify the Original Part:** Locate the existing part in your EZGO, Cushman, or TEXTRON vehicle that corresponds to the 35004-0343-839 replacement.
2. **Disconnect Power:** For battery or electrical component replacement, disconnect the negative (-) terminal first, followed by the positive (+) terminal. Ensure all power sources are isolated.
3. **Remove Original Part:** Carefully unfasten any mounting hardware and disconnect any wiring or hoses attached to the original part. Note the orientation and connection points for reinstallation.
4. **Install New Part:** Position the Technical Precision Replacement Part 35004-0343-839 in the same location and orientation as the original. Secure it with the appropriate mounting hardware.
5. **Connect Wiring/Hoses:** Reconnect all wiring and hoses. For electrical connections, connect the positive (+) terminal first, then the negative (-) terminal. Ensure all connections are secure and free from corrosion.
6. **Verify Installation:** Double-check all connections and mounting points to ensure everything is properly secured.

5. OPERATING INSTRUCTIONS

Once the replacement part is installed, follow these steps to resume vehicle operation:

1. **Restore Power:** Reconnect the main power supply to the vehicle.
2. **Initial Check:** Turn the vehicle's ignition to the "ON" position (without starting, if applicable) and observe for any warning lights or unusual behavior.
3. **Test Functionality:** Start the vehicle and perform a brief test of the system related to the replaced part. For example, if it's a battery, check the vehicle's electrical accessories.
4. **Monitor Performance:** During initial use, pay attention to the vehicle's performance to ensure the new part is functioning correctly.

6. MAINTENANCE

Regular maintenance helps extend the life of your replacement part and ensures continued optimal performance.

- **Periodic Inspection:** Periodically inspect the part and its connections for any signs of wear, corrosion, or damage.
- **Clean Connections:** Keep electrical connections clean and free from dirt and debris. Use a wire brush and appropriate cleaning solutions if corrosion is present.
- **Secure Mounting:** Ensure the part remains securely mounted. Tighten any loose fasteners as needed.
- **Refer to Vehicle Manual:** Always refer to your specific EZGO, Cushman, or TEXTRON vehicle's owner's manual for additional maintenance recommendations.

7. TROUBLESHOOTING

If you encounter issues after installing the replacement part, consider the following common troubleshooting steps:

- **No Power/Intermittent Power:**
 - Check all electrical connections for tightness and corrosion.
 - Ensure the vehicle's main power switch or circuit breaker is engaged.
 - Verify the replacement part is correctly installed according to Section 4.
- **Unusual Noises/Vibrations:**
 - Confirm the part is securely mounted and not loose.
 - Inspect for any obstructions or contact with other components.
- **Part Not Functioning as Expected:**
 - Re-read the installation instructions to ensure no steps were missed.
 - Verify that the replacement part is indeed the correct one for your specific vehicle model.
 - Consult your vehicle's service manual for diagnostic procedures.

If problems persist, contact Technical Precision customer support or a certified technician.

8. SPECIFICATIONS

Attribute	Detail
Brand	Technical Precision
Model Number	35004-0343-839
Manufacturer Part Number	35004-0343-839-AX-X3UJ-9
Compatibility	EZGO, Cushman, TEXTRON (specific models requiring part 35004-0343-839)
ASIN	B0F4KBWVD4
Date First Available	August 30, 2023

9. WARRANTY AND SUPPORT

Technical Precision stands behind the quality of its products. While specific warranty details are not

provided in this manual, typically, replacement parts come with a limited warranty against manufacturing defects. Please retain your proof of purchase.

For warranty claims, technical assistance, or further inquiries, please contact Technical Precision customer support through their official website or the retailer where the product was purchased. You may need to provide the model number (35004-0343-839) and proof of purchase.
