## EZON T048

# EZON T048 Digital Kids Sport Watch User Manual

Your guide to setting up, operating, and maintaining your EZON T048 watch.

## 1. PRODUCT OVERVIEW

The EZON T048 is a multi-functional digital sport watch designed for children and teens. It combines timekeeping with fitness tracking features and an interactive virtual pet. This watch operates independently, requiring no smartphone app or Bluetooth connection.

Image: Front view of the EZON T048 Digital Kids Sport Watch, showcasing its digital display with a virtual cat character and current time.

### Key Features:

- **Virtual Pet Cat:** An interactive digital cat that responds to your steps, making activity more engaging.
- **Pedometer:** Tracks daily steps without the need for an app or smartphone.
- **Stopwatch:** High-precision 1/100 second stopwatch with lap timer functionality.
- **Interval Timer:** Customizable timer for warm-up, run, rest, and cool-down cycles, with up to 99 repeats.
- **Alarm & Hourly Chime:** Daily alarm and an optional hourly chime for reminders.
- **Waterproof:** Rated for 50 meters water resistance, suitable for swimming and daily use.
- **EL Backlight:** Ensures clear readability in low-light conditions.
- **Long Battery Life:** Up to 365 days of standby time.

## 2. GETTING STARTED

---

### Initial Setup:

Upon first use or after a battery change, you may need to set the time, date, and other preferences. Refer to the button functions below for navigation.

### Button Functions:

The EZON T048 watch typically features four buttons for navigation and function control. While specific labels may vary, their general functions are:

- **MODE Button:** Cycles through different modes (Time, Pedometer, Stopwatch, Timer, Alarm).
- **SET/ADJUST Button:** Enters setting mode for the current function or confirms selections.
- **START/STOP Button:** Starts/stops functions like stopwatch or timer, or increases values during setting.
- **LIGHT/RESET Button:** Activates the EL backlight, or resets values/laps in certain modes, or decreases values during setting.

Press and hold the **SET/ADJUST** button in Time mode to enter time setting. Use **START/STOP** and **LIGHT/RESET** to adjust values, and **MODE** to move between settings (hours, minutes, year, month, day, 12/24 hour format).

## 3. OPERATING MODES AND FEATURES

---

### Time and Date Display:

The watch displays the current time, date, and day of the week. You can switch between 12-hour and 24-hour formats during the time setting process.

### Virtual Pet Cat:

The virtual pet cat encourages activity by reacting to your steps. As you walk, the cat performs animations. Reaching your daily step goal will reward the cat with a fish snack on the display.

- **Setting Step Goal:** In Pedometer mode, press and hold the **SET/ADJUST** button to enter step goal setting.

Adjust the goal from 1,000 to 99,000 steps in increments of 1,000.

Image: Illustration of the virtual pet cat feature, demonstrating how the cat appears on the watch face and the process of setting a daily step goal between 1,000 and 99,000 steps.

### Pedometer (Step Counter):

The watch automatically tracks your steps throughout the day. This feature operates independently, without requiring any external applications or devices.

### Stopwatch:

Access the stopwatch mode to measure elapsed time with 1/100 second accuracy. It includes split time (lap time) functionality.

- **Start/Stop:** Press **START/STOP** to begin and end timing.
- **Lap/Split:** While the stopwatch is running, press **LIGHT/RESET** to record a lap time.
- **Reset:** When stopped, press **LIGHT/RESET** to clear the stopwatch.

### Interval Timer:

This feature allows you to program custom interval workouts. You can set durations for warm-up, exercise (run), rest, and cool-down periods, along with the number of repeats (up to 99 sets).

- **Setting Intervals:** In Timer mode, press and hold **SET/ADJUST** to configure the warm-up, run, rest, cool-down times, and repeat count.
- **Start/Pause:** Press **START/STOP** to begin or pause the interval sequence.

### Alarm and Hourly Chime:

The watch includes a daily alarm and an optional hourly chime.

- **Setting Alarm:** In Alarm mode, press and hold **SET/ADJUST** to set the alarm time.
- **Activating/Deactivating:** Use the **START/STOP** button to toggle the alarm and hourly chime on or off.

### EL Backlight:

Press the **LIGHT/RESET** button to illuminate the display for easy viewing in dark environments.

### Water Resistance:

The EZON T048 is water-resistant up to 50 meters (5 ATM), making it suitable for swimming, showering, and everyday water exposure. Avoid pressing buttons underwater or exposing the watch to hot water or steam, as this can compromise the seal.

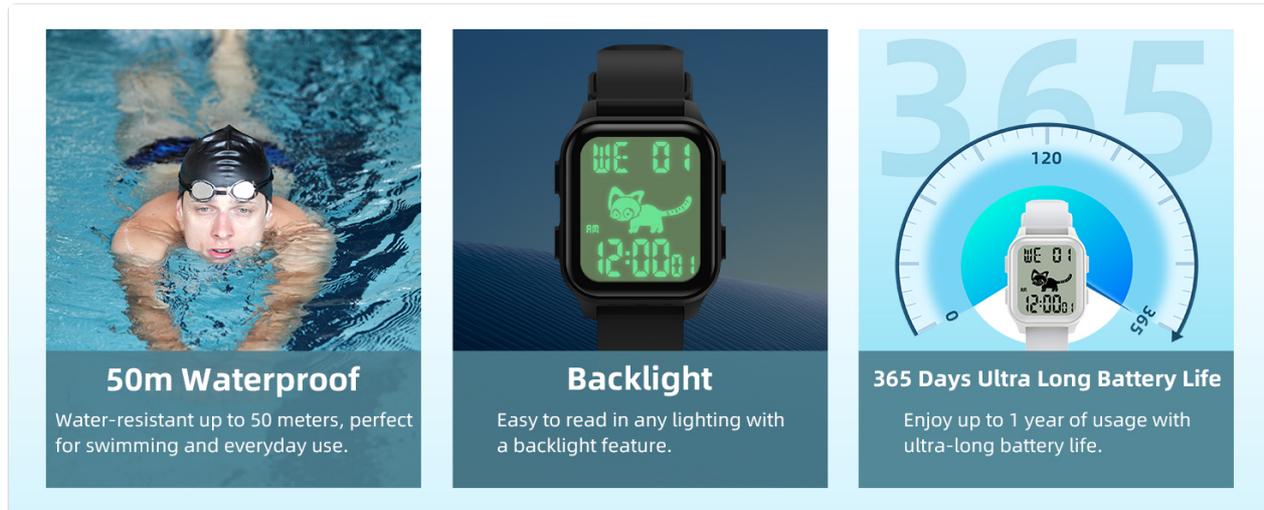

Image: Visual summary of key features including 50m water resistance, the EL backlight in action, and the watch's ultra-long battery life of 365 days.

## 4. CARE AND MAINTENANCE

### Cleaning:

Wipe the watch regularly with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the watch's finish or seals.

### Battery:

The EZON T048 features an ultra-long battery life of up to 365 days. When the battery eventually depletes, it is recommended to have it replaced by a qualified technician to ensure the water resistance seal is maintained.

### Storage:

Store the watch in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

## 5. TROUBLESHOOTING

- **Display is blank or dim:** The battery may be low. Consider professional battery replacement. Ensure the backlight is not continuously on, which can drain the battery faster.
- **Time is incorrect:** Re-enter the time setting mode and adjust the time, date, and year as described in the "Getting Started" section.
- **Pedometer not counting steps accurately:** Ensure the watch is worn snugly on the wrist. Excessive movement unrelated to walking or running may be misinterpreted, and very subtle movements might not be registered.
- **Alarm or hourly chime is too quiet:** The watch's chime volume is fixed and cannot be adjusted. Ensure the alarm/chime function is activated in the settings.
- **Watch is not responding to button presses:** A soft reset might be needed. If possible, remove and reinsert the battery (recommended to be done by a professional).

- **Water ingress:** If water appears inside the watch, stop using it immediately and seek professional repair. Avoid pressing buttons underwater.

## 6. SPECIFICATIONS

Feature	Detail
Model	T048
Brand	EZON
Display Type	Digital LCD
Water Resistance	50 meters (5 ATM)
Battery Life	Up to 365 days (standby)
Weight	27 grams
Thickness	11.3 mm
Strap Material	Silicone (Quick Release, 20mm)
Features	Virtual Pet, Pedometer, Stopwatch, Interval Timer, Alarm, Hourly Chime, EL Backlight, 12/24 Hour Format
Connectivity	None (No App, No Phone, No Bluetooth required)

The graphic features the EZON logo in red at the top left. The main headline 'Comfortable to Wear' is in a large, bold, blue font. Below the headline, a black digital watch with a silicone strap is shown against a light blue background with a feather and clouds. To the right of the watch, two white rounded rectangular callouts highlight '27g Lightweight Body' and '11.3mm Thickness'. Below these, a horizontal line is followed by the text 'Quick Release watchband Change as you wish' in a dark blue font.

**EZON**
