

Gedsffati PT06

Gedsffati PT06 Portable Carbon Monoxide Detector User Manual

Model: PT06 | Brand: Gedsffati

1. INTRODUCTION

The Gedsffati PT06 is a versatile 3-in-1 portable carbon monoxide (CO) detector designed to monitor CO concentration, temperature, and humidity. Its compact and lightweight design makes it suitable for various environments, including homes, vehicles, RVs, and during travel or outdoor activities like camping and mountaineering. This device provides real-time monitoring and alerts to help ensure your safety from carbon monoxide poisoning.

2. PACKAGE CONTENTS

Upon opening the package, please verify that all items are present:

- Gedsffati PT06 Carbon Monoxide Detector (1 unit)
- USB Charging Cable (1 unit)
- User Manual (1 unit)

3. KEY FEATURES

- **Multifunctional & Portable:** Combines carbon monoxide, temperature, and humidity detection in a compact, travel-friendly device.
- **High Precision Carbon Monoxide Sensor:** Utilizes an electrochemical reaction principle for accurate CO measurement. Certified with EN-50291 (EU standard for CO detectors), ensuring reliability and a long service life.

- **LCD Screen & Acoustic Alarm:** Features a high-resolution 2.45-inch LCD screen for clear, real-time display of readings (updated every two seconds). An audible alarm activates when CO concentration exceeds 50ppm.
- **Built-in Rechargeable Lithium Battery:** Equipped with a 2000mAh lithium battery, providing approximately 70 hours of continuous operation in standby mode after a 4-hour charge. The device can also function while charging.
- **Standby Mode:** To conserve energy, the screen backlight automatically turns off after 30 seconds of inactivity. The CO sensor remains active, continuously monitoring CO concentration. Pressing any button reactivates the screen.

MINI · PORTABLE · COMPACT

Size:3.4x2.1x0.8 inches

Weight:3.5 oz

Image: The compact size of the Gedsffati PT06, highlighting its portability with dimensions of 3.4x2.1x0.8 inches and a weight of 3.5 oz.

4. SETUP

4.1 Initial Charging

Before first use, fully charge the device. Connect the provided USB cable to the device's charging port and a standard DC 5V/1A USB power adapter. A full charge typically takes approximately 4 hours. The device can be used while charging.

4.2 Power On/Off

To power on the device, press and hold the power button (usually marked with a power symbol) until the screen illuminates. To power off, press and hold the power button again until the screen turns off.

5. OPERATING INSTRUCTIONS

5.1 CO Concentration Display

The device displays the carbon monoxide concentration in parts per million (ppm) on the LCD screen. A colored icon indicates the current CO level:

- **Green (0-50ppm):** Safe level.
- **Yellow (51-100ppm):** Ventilation required.
- **Orange (101-200ppm):** Ventilation required.
- **Red (201-999ppm):** Hazardous level.

5.2 CO Concentration Alarm

The device provides audible alarms based on detected CO levels:

- **51-100ppm:** Alarm sounds 3 times every 3 minutes.
- **101-200ppm:** Alarm sounds 5 times every 3 minutes.
- **201-999ppm:** Alarm sounds continuously.

To stop a continuous alarm, press the 'S' button on the device.

5.3 Temperature and Humidity Display

In addition to CO levels, the device continuously displays the ambient temperature and humidity on the screen.

6. MAINTENANCE

6.1 Battery Life and Charging

The built-in 2000mAh lithium battery provides approximately 70 hours of continuous operation in standby mode. Recharge the device using the provided USB cable and a DC 5V/1A power source. The device can operate normally while charging.

6.2 Standby Mode

To conserve power, the screen backlight automatically turns off after 30 seconds of inactivity. The CO sensor remains active and continues to monitor the environment. Press any button to reactivate the screen.

7. DATA RECORDING

The Gedsffati PT06 supports CO data recording with an SD card (not included). With a 128MB SD card, the device can store up to one year of carbon monoxide detection data. This feature is valuable for analyzing CO levels over time and assessing environmental safety.

CO DATA RECORD WITH SD CARD

With 128M sd card, we can store the last 1 year datas from detecting carbon monoxide. It is important for us to do analysis the data level and environment safety.

8. TROUBLESHOOTING

If you encounter issues with your Gedsffati PT06 detector, consider the following:

- **Device not powering on:** Ensure the device is fully charged. Connect it to a power source using the USB cable and allow it to charge for at least 30 minutes before attempting to power on again.
- **Inaccurate readings:** Ensure the sensor area is not obstructed. Avoid placing the device in areas with extreme temperatures, high humidity, or near strong chemical fumes, as these can affect sensor performance.
- **Alarm not sounding:** Check if the device is powered on and if the CO concentration exceeds the alarm thresholds. Ensure the speaker is not obstructed.
- **Screen backlight off:** This is normal behavior for standby mode. Press any button to reactivate the screen.

For persistent issues, please refer to the warranty and support section.

9. SPECIFICATIONS

Feature	Specification
Model	PT06
Carbon Monoxide Measurement Range	0-999 ppm (±5 ppm)
Temperature Measurement Range	-10°C to 50°C (±2%)
Humidity Measurement Range	0% to 95% RH (±2% RH)
Warm-up Time	35 seconds
Data Refresh Frequency	2 seconds
Power Supply	Built-in 2000mAh Lithium Battery
Charging Input	DC 5V/1A
Product Dimensions	90 x 55 x 17 mm (3.54 x 2.17 x 0.67 inches)
Item Weight	65g (2.29 oz)
Material	ABS plastic
Manufacturer	Shenzhen Prodo Technology Co., Ltd.
UPC	758321309837

10. SAFETY INFORMATION

Carbon monoxide (CO) is a colorless, odorless, and tasteless gas that can be deadly. Always follow these safety guidelines:

- This device is intended as a supplementary safety tool and should not replace proper ventilation or regular maintenance of fuel-burning appliances.
- Do not block the sensor vents on the device.
- Keep the device away from direct sunlight, extreme temperatures, and high humidity.
- If the alarm sounds, immediately move to fresh air, call emergency services, and do not re-enter the area until it has been deemed safe by professionals.
- Regularly test the device according to manufacturer recommendations (if applicable, not specified in provided data).

11. WARRANTY AND SUPPORT

For warranty information, technical support, or service inquiries, please contact the manufacturer, Shenzhen Prodo Technology Co., Ltd., or your point of purchase. Keep your purchase receipt as proof of purchase.
