## Natura Aura Alba Eau de Parfum 75ml

# Natura Aura Alba Eau de Parfum 75ml - User Manual

Model: Aura Alba Eau de Parfum 75ml

## 1. PRODUCT OVERVIEW

---

The Natura Aura Alba Eau de Parfum is a sophisticated feminine fragrance, featuring the exclusive natural oil of Rosa Alba from Konare, Bulgaria. This elegant, modern, and potent fragrance offers a new interpretation of the classic floral scent, enriched with the creaminess of honey flower, succulent lychee notes, and the comforting warmth of sandalwood and patchouli. It is designed for high fixation and long-lasting wear.

## Key Features:

- **Fragrance Concentration:** Eau de Parfum
- **Olfactory Family:** Floral
- **Top Notes:** Lychee, Honey Flower
- **Heart Note:** Rosa Alba
- **Base Notes:** Sandalwood, Patchouli
- **Volume:** 75ml
- Cruelty-free and Vegan formulation.
- Designed for high fixation and long duration.

## 2. USAGE INSTRUCTIONS (OPERATING)

---

To achieve the best and most lasting fragrance experience, follow these application guidelines:

1. **Prepare Your Skin:** For optimal longevity, apply the perfume to clean, moisturized skin. Hydrated skin holds

fragrance better.

2. **Identify Pulse Points:** Focus on pulse points where the body heat can help diffuse the fragrance throughout the day. Common pulse points include the wrists, neck, behind the ears, inside the elbows, and behind the knees.
3. **Application:** Hold the bottle approximately 15-20 cm (6-8 inches) away from your skin. Spray 1-2 times on each chosen pulse point. Avoid rubbing the perfume into your skin after application, as this can break down the fragrance molecules and alter the scent.
4. **Layering (Optional):** For an enhanced and longer-lasting scent, consider layering with complementary unscented body lotions or those from the same fragrance line, if available.

### 3. CARE AND STORAGE (MAINTENANCE)

---

Proper care and storage will help preserve the quality and longevity of your Natura Aura Alba Eau de Parfum:

- **Store in a Cool, Dark Place:** Heat, light, and humidity are the enemies of perfume. Store your bottle in its original box or a dark cabinet, away from direct sunlight, windows, and heat sources like radiators or vents.

- **Avoid Temperature Fluctuations:** Consistent temperatures are ideal. Do not store perfume in bathrooms, as the fluctuating humidity and temperature can degrade the fragrance.
- **Keep Bottle Sealed:** Ensure the cap is tightly closed after each use to prevent evaporation and oxidation, which can alter the scent.
- **Handle with Care:** The glass bottle is fragile. Handle it carefully to avoid drops or impacts that could cause breakage.

## 4. SAFETY INFORMATION

---

While the product information states "Not Applicable" for specific safety warnings, general safety precautions for perfumes should always be observed:

- **External Use Only:** This product is for external use on skin only. Do not ingest.
- **Avoid Contact with Eyes:** In case of contact with eyes, rinse immediately with plenty of water.
- **Keep Out of Reach of Children:** Store the product in a secure location away from children and pets.

- **Flammable:** Perfumes contain alcohol and are flammable. Keep away from heat, open flames, and hot surfaces. Do not spray near a naked flame or any incandescent material.
- **Patch Test:** If you have sensitive skin or are prone to allergies, perform a patch test on a small, inconspicuous area of skin before full application. Discontinue use if irritation occurs.

## 5. TROUBLESHOOTING

---

Here are some common questions and solutions regarding perfume usage:

**Q: Why does the fragrance not last long on my skin?**

A: Fragrance longevity can vary based on skin type, hydration, and application method. Ensure your skin is moisturized before application. Apply to pulse points. Avoid rubbing the perfume after spraying. Environmental factors like heat and humidity can also affect longevity. Consider reapplying throughout the day if needed.

**Q: The scent seems different than when I first bought it.**

A: This could be due to improper storage. Exposure to light, heat, or air can degrade the fragrance over time. Ensure the bottle is stored in a cool, dark place with the cap tightly sealed. Perfumes also have a shelf life, typically 3-5 years after opening.

**Q: I experienced skin irritation after applying the perfume.**

A: Immediately wash the affected area with soap and water. Discontinue use of the product. You may have a sensitivity or allergy to one of the ingredients. Consult a healthcare professional if irritation persists.

## 6. SPECIFICATIONS

---

Attribute	Detail
Brand	Natura
Product Name	Aura Alba Eau de Parfum
Volume	75 Milliliters
Fragrance Concentration	Eau de Parfum
Aroma	Floral
Product Form	Spray
Manufacturer	Natura
Product Dimensions	8 x 10 x 11 cm; 310 g
