Utilizing Storage Drawers:

The bed frame includes four spacious storage drawers, each measuring 40.2"L x 16.9"W x 9.4"H. These drawers are equipped with wheels for easy sliding in and out, providing ample space for seasonal bedding, clothing, toys, or other items. Ensure drawers are properly aligned on their wheels for smooth operation.

Maintenance and Care

- **Cleaning Upholstery:** For routine cleaning, gently vacuum the upholstered headboard and frame with a soft brush attachment. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner according to its instructions, testing on an inconspicuous area first.
- **Cleaning Metal Parts:** Wipe metal components with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Tightening Hardware:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain the bed frame's stability and prevent squeaking.
- **Drawer Maintenance:** Keep the drawer wheels free of debris to ensure smooth operation. If drawers become difficult to slide, check for obstructions or damage to the wheels.

Troubleshooting

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose bolts or improperly installed slats.	Check and tighten all bolts and screws. Ensure all wooden slats are correctly seated in their supports.
Storage drawers do not slide smoothly.	Obstruction under the drawer, damaged wheels, or improper assembly.	Clear any debris from under the bed. Inspect drawer wheels for damage. Re-check drawer assembly steps.
Charging ports are not working.	Loose connection, power outage, or faulty device cable.	Ensure the charging station's power cable is securely plugged into a working outlet. Test with a different device cable. If issues persist, contact customer support.
Headboard height is not as expected.	Headboard not adjusted to maximum height or mattress is too thin/thick.	Verify the headboard is adjusted to its highest setting (47 inches) if a taller appearance is desired. Ensure your mattress thickness is within the recommended 8-14 inches for optimal headboard visibility.
