OPERATING INSTRUCTIONS

Trundle Operation

The trundle bed is designed for smooth and easy operation. To extend the trundle, gently pull the front panel outwards. The built-in casters will allow it to roll out from underneath the main daybed. To retract, push the trundle back into its stored position until it is fully aligned with the main frame.

MAINTENANCE

To maintain the appearance and longevity of your Loisall Daybed, follow these care instructions:

- **Cleaning:** Wipe the upholstered surfaces with a damp cloth to remove dust and light stains. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Spills:** Blot spills immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- **General Care:** Periodically check and tighten all screws and bolts to ensure stability. Avoid exposing the daybed to direct sunlight for prolonged periods to prevent fading of the upholstery.

TROUBLESHOOTING

If you encounter any issues with your daybed, consider the following common solutions:

- **Squeaking Noises:** Check all assembly hardware (screws, bolts) and tighten any loose connections. Ensure the slats are properly seated in their supports.
- **Trundle Not Rolling Smoothly:** Inspect the trundle casters for any obstructions (e.g., debris, carpet fibers). Clean the casters if necessary. Ensure the floor surface is clear.
- **Stability Concerns:** Verify that the daybed is placed on a flat, level surface. Re-check all assembly steps to confirm correct installation of all parts.

If problems persist, please refer to the support section for contact information.
