- **Bluetooth 5.4:** Connect wireless headphones or external speakers for enhanced audio. Bluetooth 5.4 provides improved transmission speed and connection stability, ensuring perfect audio-video synchronization.

Image 6.3: Bluetooth 5.4 connectivity with audio devices.

- **HDMI:** Use the HDMI port to connect devices such as laptops, PCs, game consoles (e.g., Switch, PS), TV boxes, and DVD players.
- **USB:** Plug in USB storage devices to play media files directly.
- **3.5mm Audio:** Connect wired headphones or external speakers.

Note:

- This projector is not compatible with Google Pixel devices for screen mirroring.
- Some Android devices (e.g., AQUOS) may not have screen mirroring functionality, preventing connection to the projector. Please check your smartphone's specifications.
- Due to version compatibility, certain apps like KiT Player and TELASA may not be downloadable from the Google Play Store. For these, consider purchasing an Amazon Fire TV Stick separately.

6.3 Projection Adjustments

- **Automatic Keystone Correction:** The projector automatically corrects image distortion (trapezoidal effect) when placed at an angle. This eliminates the need for manual adjustments.
- **Manual Focus:** Rotate the focus wheel on the projector to sharpen the image.
- **Digital Zoom (50%-100%):** Adjust the projection size without moving the projector using the remote control or

settings menu.

- **270° Rotation:** The integrated stand allows you to rotate the projector up to 270 degrees, enabling projection onto walls, ceilings, or any desired surface.

7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector.

- **Lens Cleaning:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Do not use abrasive cleaners or harsh chemicals.
- **Dust Removal:** Regularly clean the projector's exterior with a soft, dry cloth. Use a can of compressed air to gently clear dust from ventilation openings.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Fan Noise:** The projector is designed for quiet operation. If you notice unusual fan noise, ensure ventilation is not obstructed.

8. TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No image or blurry image	Loose cable connection, incorrect input source, out of focus	Check HDMI/USB connections. Select correct input source. Adjust focus wheel.
No sound	Volume too low, incorrect audio output, external speaker not connected	Increase volume. Check audio settings. Ensure Bluetooth speaker is paired or wired speaker is connected.
Remote control not working	Dead batteries, obstruction, out of range	Replace batteries. Remove obstructions. Ensure remote is pointed at the projector.
Wi-Fi connection issues	Incorrect password, weak signal, router issues	Verify Wi-Fi password. Move projector closer to router. Restart router.
Screen mirroring not working	Device incompatibility, network issues	Check device compatibility (Google Pixel and some AQUOS models are not supported). Ensure both devices are on the same Wi-Fi network.

If the problem persists after trying these solutions, please contact WISHOLY customer support.
