CAMECHO e0c6f1db-4002-463c-a666-6c71beb45753

CAMECHO 10.26" Wireless CarPlay Screen User Manual

Model: e0c6f1db-4002-463c-a666-6c71beb45753

Brand: CAMECHO

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your CAMECHO 10.26" Wireless CarPlay Screen. This portable car stereo features a high-definition touchscreen, supporting wireless Apple CarPlay, Android Auto, backup camera integration, Super Link, voice control, mirror link, AUX, FM, and Bluetooth audio connectivity. Please read this manual thoroughly before use to ensure proper functionality and safety.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x 10.26-Inch Smart Screen Player
- 1 x 12-LED Backup Camera
- 1 x 3m AUX Cable
- 1 x Power Cord
- 1 x Monitor Base
- 1 x Suction Cup
- 1 x Bracket Fixing Sticker
- 1 x User Manual

Package Content

Figure 2.1: Package Contents Overview

The image above illustrates the main components included in the product package, such as the 10.26-inch screen, backup camera, various cables, and mounting accessories.

3. SETUP

3.1 Mounting and Installation

The CAMECHO 10.26" Wireless CarPlay Screen offers versatile installation options to suit various vehicle types (7-32V), including cars, trucks, campers, RVs, and vans. It can be mounted on the windshield or dashboard without modifying your vehicle's original structure.

- **Dashboard Mount:** Use the provided monitor base and bracket fixing sticker to secure the screen to your dashboard.
- **Windshield Mount:** Attach the suction cup bracket to your windshield for a secure hold.

Both bracket types allow for 360-degree rotation, enabling optimal viewing angles.

Wide Compatibility with 7-32V Vehicles

RV

TRUCK

TRAILER

PICKUP

CAMPER

BUS

3 Installation Methods

2 Kinds of Brackets

Figure 3.1: Installation Methods and Brackets

This image demonstrates the flexibility of mounting the device, showing it installed on a dashboard and a windshield, along with detailed views of the adjustable monitor base and suction cup bracket.

3.2 Power Connection

Connect the provided power cord to the device's power input and then to your vehicle's 12V power outlet (cigarette lighter socket). Ensure the connection is secure.

4. OPERATING INSTRUCTIONS

4.1 Wireless CarPlay Connection (for iPhone)

1. Click the AirPlay icon on the screen.
2. Open "Settings" on your iPhone.
3. Turn on "Bluetooth".
4. Select the Bluetooth device starting with "T86-XXX".
5. Drop down the phone's control center and select the "Screen Mirroring" icon.
6. Wait for approximately 20-30 seconds, then select "SmartScreen".
7. The device will enter Android Cast mode (screen mirroring).

Figure 4.3: Wireless Apple AirPlay Connection Steps

This image details the steps for mirroring your iPhone screen to the CAMECHO display using AirPlay.

4.4 Wireless Android Cast (for Android Phones)

1. Install the Android Cast application from the Google Play Store on your phone.
2. Scan the QR code displayed on the screen to download the application to your phone.
3. Open the app on your phone.
4. Turn on Bluetooth, locate and connect to the device.
5. The device will enter Android Cast mode (screen mirroring).

Figure 4.4: Wireless Android Cast Connection Steps

This image outlines the procedure for mirroring your Android phone screen to the CAMECHO display using Android Cast.

4.5 Backup Camera Operation

When your vehicle is shifted into reverse gear, the wireless Apple CarPlay screen automatically displays a real-time image from the backup camera. This includes parking lines to assist with safe and effortless reversing and parking. The rear camera is designed to be waterproof, protecting against powerful jets of water from any direction.

Figure 4.5: Backup Camera Display

This image demonstrates the backup camera's view on the screen, complete with parking assistance lines, and highlights the camera's waterproof design.

4.6 Audio Output Modes

The device offers multiple options for audio output:

- **Built-in Speaker:** The unit has an integrated speaker for direct audio playback.
- **Bluetooth Audio:** Connect to your car's existing audio system via Bluetooth for enhanced sound quality.
- **AUX Connection:** Use the provided 3.5mm AUX cable to connect the unit to your car's AUX input.
- **FM Transmission:** Transmit audio wirelessly to your car's FM radio by setting both the unit and your car radio to the same FM frequency.

Figure 4.6: Audio Output Options

This image visually explains the different ways to output audio from the device to your car's sound system or directly through its built-in speaker.

FM Radio Transmitter

You can set the same FM radio channel on this head unit as your cars radio.

Figure 4.7: FM Radio Transmitter Interface

This image displays the FM transmitter function, showing how to select an FM frequency on the device to match your car's radio for audio playback.

4.7 Voice Control

Utilize voice control to safely access functions like Siri or Google Assistant. This allows you to get directions, make phone calls, play music, and send messages without taking your eyes off the road, enhancing driving safety.

Voice Control Helps You Drive Safer

Use voice control to access Siri/Google Assistant, get direction, make phone calls, play music, send message, etc. All while keeping your eyes on the road and drive safer

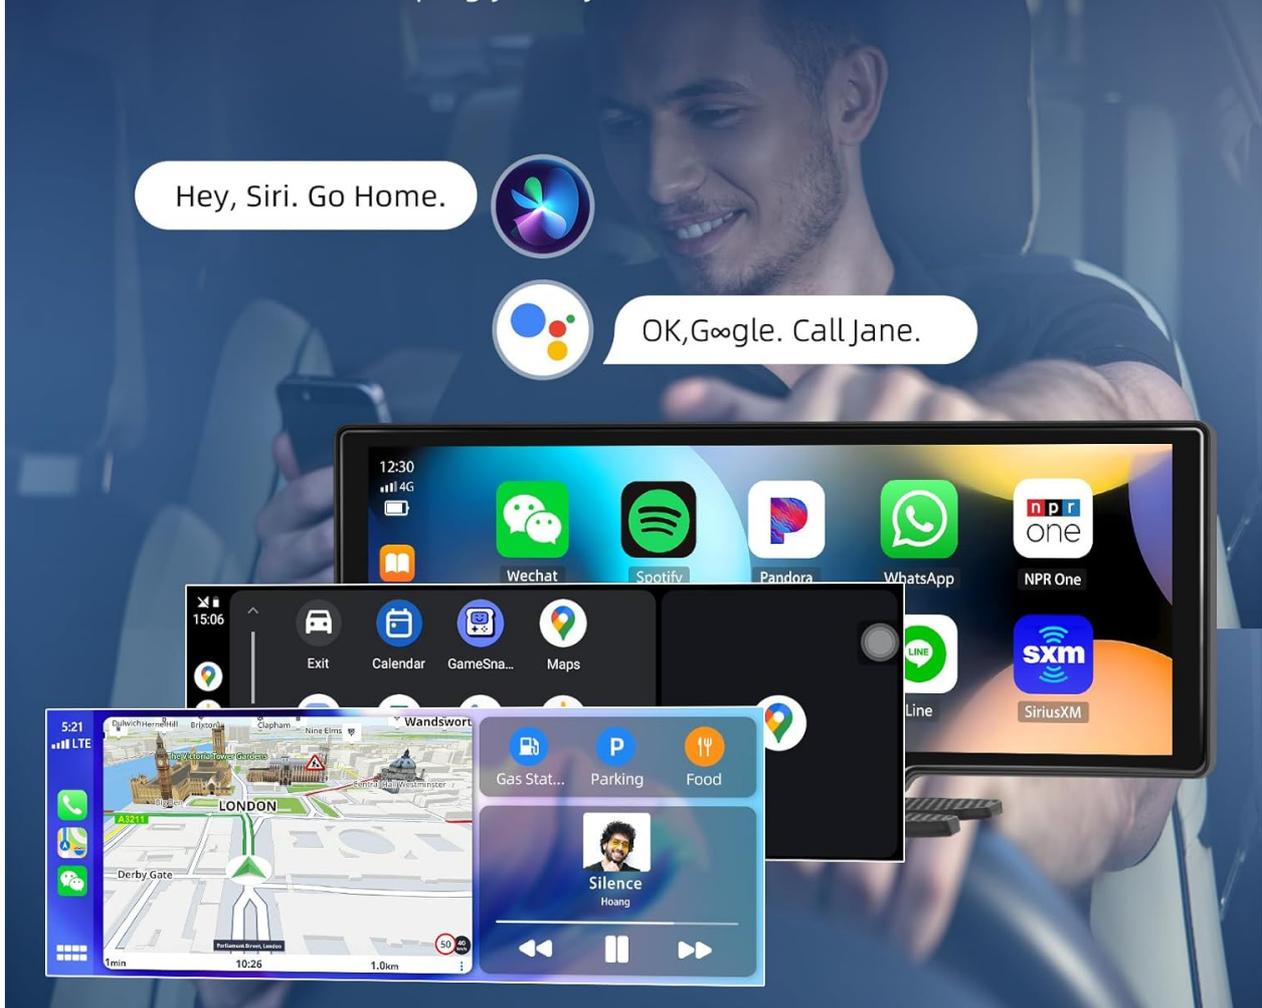

Figure 4.8: Voice Control Functionality

This image demonstrates the voice control feature, showing how to interact with Siri or Google Assistant for various tasks while driving.

4.8 Super Link for Video Playback

The Super Link feature allows for direct playback of online videos from platforms like YouTube, TikTok, and Twitch. It also supports mirror casting and Air Drop for mobile local video playback, enabling you to use your phone for other tasks while video content is displayed on the screen.

Super Link for Video

When using Super Link to watch online videos, you can free your phone to do other things

Online Video

Direct playback of online Videos from YouTube, TikTok, Twitch

Mirror Casting

Mirror your phone screen to the car screen

Air Drop

View videos and pictures from your phone

Figure 4.9: Super Link for Video

This image highlights the Super Link feature, demonstrating its capability to play online videos and mirror content from your phone.

4.9 General Settings

The device allows adjustment of various settings:

- **Volume:** Adjust the audio output level.
- **Brightness:** Modify screen brightness for optimal visibility in different lighting conditions.
- **Language:** Select your preferred language for the user interface.

Your browser does not support the video tag.

Video 4.1: Demonstrating Android Auto Connection, Voice Assistant, and Audio/Brightness Settings

This video demonstrates the process of connecting an Android phone to the device, using the voice assistant, and adjusting general settings such as volume and screen brightness.

5. MAINTENANCE

5.1 Cleaning

To clean the screen, use a soft, lint-free cloth. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid abrasive materials or harsh chemicals that could damage the screen surface.

5.2 General Care

Avoid exposing the device to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture. Ensure all cables are securely connected to prevent accidental disconnections. When not in use, consider detaching the screen if your mounting method allows, especially in extreme weather conditions.

6. TROUBLESHOOTING

If you encounter issues with your CAMECHO 10.26" Wireless CarPlay Screen, refer to the following common problems and solutions:

- **No Power:** Ensure the power cord is securely plugged into both the device and the vehicle's 12V power outlet. Check if the vehicle's power outlet is functioning.
- **Connectivity Issues (CarPlay/Android Auto):** Verify that Bluetooth is enabled on both your phone and the device. Ensure your phone's operating system is up to date. Try restarting both the phone and the device. For Android Auto, confirm the app is installed on your phone.
- **No Audio Output:** Check the selected audio output mode (Built-in Speaker, Bluetooth, AUX, FM). If using FM transmission, ensure the frequency matches your car radio. Adjust the volume on both the device and your car's audio system.
- **Unstable Mounting:** If the adhesive for the monitor base is not sufficiently sticky, consider using stronger double-sided adhesive tape or an alternative mounting solution to ensure stability.
- **Screen Mirroring Problems:** For Apple AirPlay, ensure both devices are on the same Wi-Fi network (if applicable) and Bluetooth is active. For Android Cast, confirm the specific app is installed and connected.

If these steps do not resolve the issue, please contact customer support.

7. SPECIFICATIONS

Feature	Specification
Package Dimensions	10.24 x 4.72 x 4.33 inches
Item Weight	1.98 pounds
ASIN	B0F4QL8L6D
Item Model Number	e0c6f1db-4002-463c-a666-6c71beb45753
Brand	CAMECHO
Connectivity Technology	Bluetooth
Controller Type	Touchscreen, Push Button
Special Features	Wireless CarPlay, Android Auto, Voice Control, Super Link, Built-in Speaker
