5. Maintenance

To ensure the longevity and appearance of your record player stand, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Promptly clean any spills to prevent moisture damage to the MDF components.

- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Adjustable Feet:** Ensure the adjustable feet are properly set to keep the stand level and prevent wobbling.

6. Troubleshooting

Problem	Possible Cause	Solution
Stand is wobbly or unstable.	Uneven floor surface; loose connections.	Adjust the leveling feet at the bottom of the stand. Ensure all screws are tightened securely.
Equipment (e.g., receiver) does not fit on shelves.	Dimensions of equipment exceed shelf capacity.	Before purchase, always verify the dimensions of your audio equipment against the stand's internal shelf measurements (refer to Image 3.1 for dimensions).
Records are difficult to access or store.	Overfilling storage sections.	While the stand can hold a large number of records, avoid overfilling individual sections to allow for easy browsing and prevent damage to record sleeves.
