SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances and assembling furniture. Keep this manual for future reference.

- Ensure all components are present and undamaged before assembly.
- Do not overload the TV stand. The desktop supports up to 300 pounds.
- Keep flammable materials away from the electric fireplace.
- Do not block the air vents of the fireplace.
- Always plug the fireplace directly into a wall outlet; do not use extension cords.
- Supervise children and pets around the fireplace.
- If any part is damaged or missing, do not attempt to assemble or use the product. Contact customer service.

PACKAGE CONTENTS

Your VITESSE TV Stand will be delivered in two separate packages. These packages may arrive at different times. Please ensure you have received both packages before beginning assembly.

Image: Illustration of the product being delivered in two separate packages.

Verify all parts against the included parts list in the assembly instructions.

SETUP AND ASSEMBLY

Basic assembly instructions are included with your product. Follow these instructions carefully. Assembly typically requires two people. An extension for your screwdriver bit may be helpful when installing the fireplace due to tight spaces.

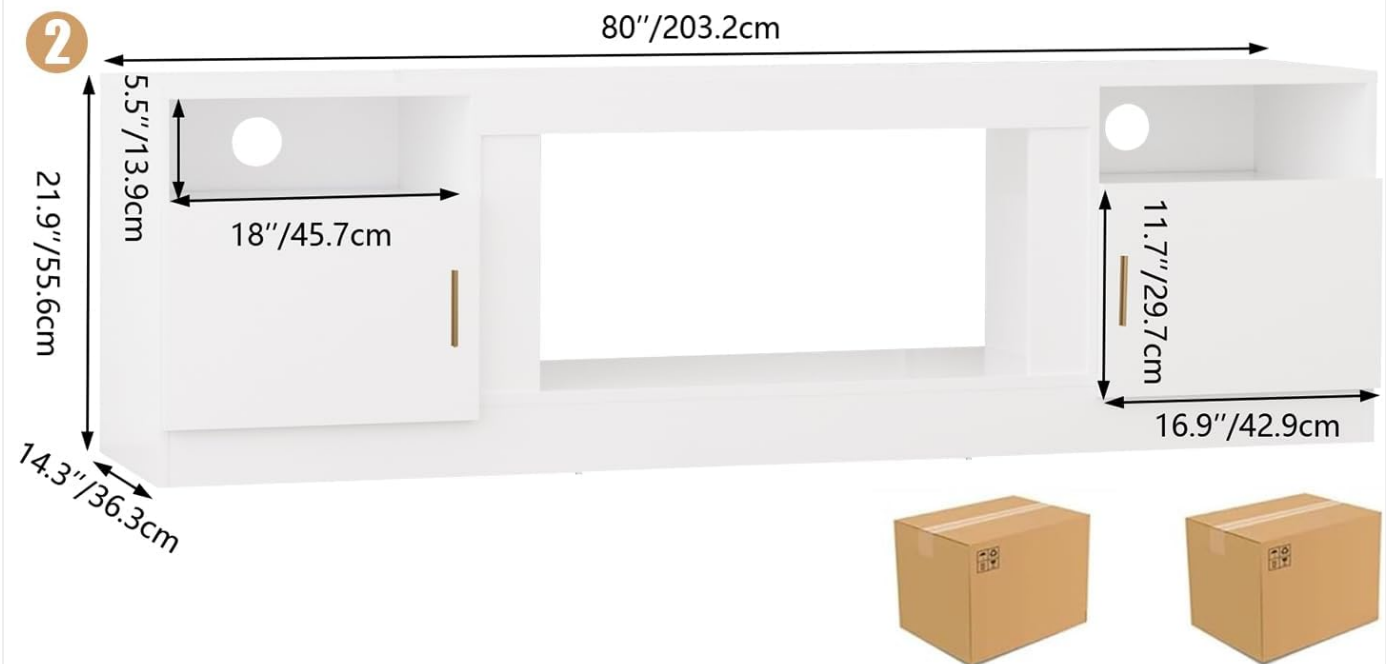

Product Dimensions and TV Compatibility

- **Overall Dimensions:** 14.3"D x 80"W x 21.9"H
- **Fireplace Dimensions:** 36"W x 13.7"H
- **TV Size Compatibility:** Supports TVs up to 90 inches.

OPERATING INSTRUCTIONS

Electric Fireplace Operation

The integrated 36-inch electric fireplace provides both ambiance and heat. It can heat rooms up to 400 square feet and offers adjustable heat settings between 750 watts and 1,500 watts. The fireplace features 12 flame types and 5 adjustable brightness levels, allowing for customization. It can operate with or without the heating function.

Cable Management

Integrated cable holes are designed to help keep your wires organized and reduce clutter, contributing to a cleaner and more aesthetically pleasing entertainment area.

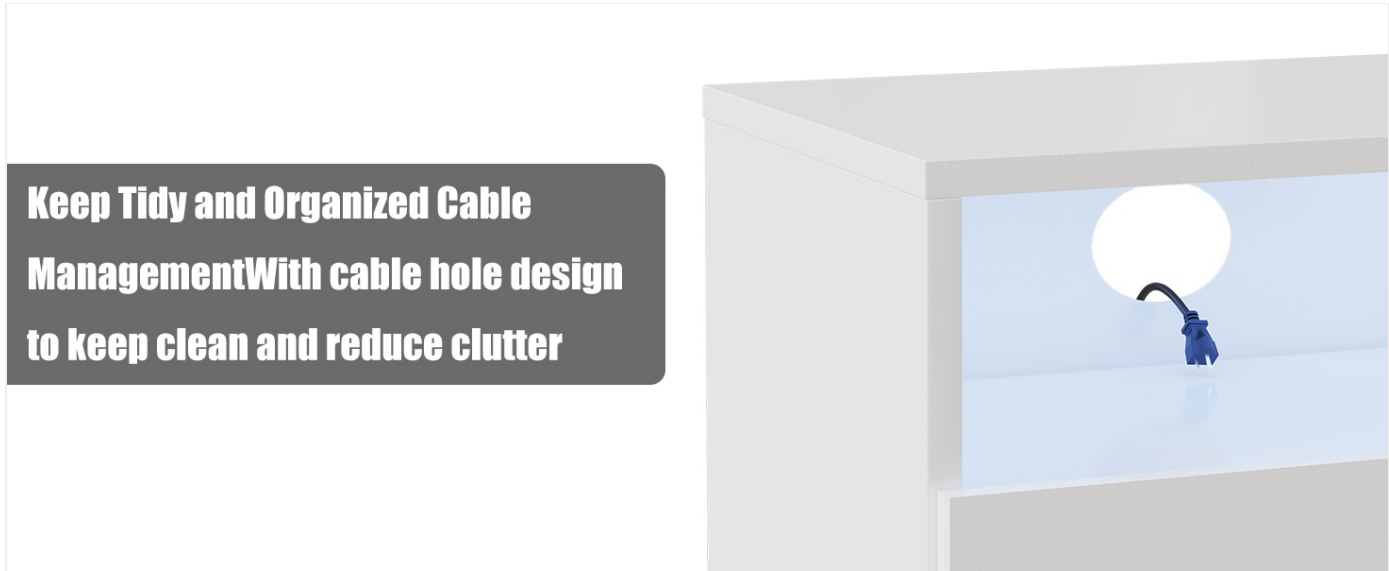

Image: Detail of the cable management hole for organizing wires.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Fireplace:** Ensure the fireplace is turned off and unplugged before cleaning. Wipe the glass and exterior with a soft, lint-free cloth. Do not spray liquids directly onto the unit.
- **General Care:** Periodically check all screws and fasteners to ensure they remain tight.

TROUBLESHOOTING

Issue	Possible Cause / Solution
-------	---------------------------

Issue	Possible Cause / Solution
Fireplace Heater Not Working	Ensure the fireplace is properly plugged into a functional wall outlet. Check if the heater function is activated via the control panel or remote. Verify that the thermostat setting is above the current room temperature. The unit may have activated its overheating protection. Unplug the unit, wait 10-15 minutes, and plug it back in.
LED Lights Not Responding	Check if the remote control batteries need replacement. Ensure there are no obstructions between the remote and the LED receiver.
Electronic Devices Overheating in Storage	Ensure adequate airflow around electronic devices placed in enclosed compartments. Avoid snug fits that restrict ventilation. Consider placing high-heat generating devices in open shelves or on top of the stand.
Fireplace Fan Noise	Some fan noise is normal during heating operation. If the noise is excessive or unusual, ensure the unit is clean and free of obstructions.
