USAGE GUIDELINES

This patio furniture set is designed for outdoor use. Observe the following guidelines for optimal experience:

- **Weight Capacity:** The loveseat supports up to 705 lbs. Each single chair supports up to 363 lbs. Do not exceed these limits.
- **Ergonomic Design:** The furniture features a 110° ergonomic backrest and curved armrests for comfortable seating.
- **Cushions:** The 2-inch thick seat cushions are water-resistant, UV-resistant, and fade-resistant. While resistant, it is recommended to bring cushions indoors during heavy rain or prolonged periods of non-use to extend their lifespan.
- **Placement:** Place the furniture on a flat, stable surface.

CARE AND MAINTENANCE

Proper care will help maintain the appearance and extend the life of your patio furniture.

- **Cleaning Frame:** Wipe the powder-coated steel frame and PE rattan with a damp cloth and mild soap. Rinse thoroughly and dry completely. Avoid harsh chemicals or abrasive cleaners.
- **Cushion Care:** The zippered cushion covers are removable and easy to clean. Hand wash or machine wash on a gentle cycle with cold water and mild detergent. Air dry only; do not tumble dry. Ensure cushions are completely dry before storing or replacing.
- **Acacia Wood Tabletop:** The acacia wood tabletop is scratch-resistant and easy to clean. Wipe spills immediately with a damp cloth. For deeper cleaning, use a wood-safe cleaner. Periodically apply a wood sealant or oil to maintain its natural look and protect against weathering.
- **Seasonal Storage:** During off-seasons or extreme weather, store the furniture in a dry, covered area to protect it from prolonged exposure to elements.

TROUBLESHOOTING

If you encounter any issues with your patio furniture, consider the following common solutions:

- **Wobbly Furniture:** Check all bolts and screws to ensure they are tightened. The furniture features levelled feet; adjust them as needed to stabilize the unit on uneven surfaces.
- **Cushion Water Retention:** While cushions are water-resistant, they can absorb water during heavy rain. Flip them over or stand them on edge to allow water to drain and dry. Store indoors during prolonged wet weather.
- **Fading:** Although cushions are UV-resistant, prolonged direct sunlight can cause some fading over time. Consider using a furniture cover when not in use to minimize sun exposure.
