

IWOBAC WD08-5K

IWOBAC 5K Digital Camera User Manual

Model: WD08-5K

1. INTRODUCTION

This manual provides comprehensive instructions for the operation and maintenance of your IWOBAC 5K Digital Camera. Designed for photography enthusiasts and vloggers, this camera captures stunning 5K video and 75MP photos, offering advanced features like autofocus, 18X digital zoom, and Wi-Fi connectivity. Please read this manual thoroughly before using your camera to ensure optimal performance and longevity.

2. PACKAGE CONTENTS

Upon opening the package, verify that all items listed below are present and in good condition:

- IWOBAC 5K Digital Camera
- Two (2) 1150mAh Rechargeable Batteries (BL-5C type)
- One (1) 64GB SD Card
- USB Cable (for charging and data transfer)
- User Manual (this document)

4. SETUP

4.1 Battery Installation

1. Open the battery compartment cover located on the bottom of the camera.

2. Insert a fully charged 1150mAh BL-5C battery into the compartment, ensuring the contacts align correctly.
3. Close the battery compartment cover until it clicks securely into place.

4.2 SD Card Installation

1. Locate the SD card slot, usually next to the battery compartment.
2. Insert the 64GB SD card with the metal contacts facing down, pushing gently until it clicks into place.
3. To remove, push the card in slightly until it springs out.

4.3 Charging the Battery

Connect the camera to a power source (e.g., computer USB port or USB wall adapter) using the provided USB cable. The charging indicator light will illuminate. Once fully charged, the light will change or turn off.

- * Built-in Flash
- * Beauty Function
- * Auto Smile Capture

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the Power button to turn the camera on or off.

5.2 Taking Photos

Select your desired photography mode from the menu:

- **Single Photo:** Captures one image per shutter press.
- **Auto Shooting:** Automatically takes photos at set intervals.
- **Continuous Shooting:** Captures a rapid sequence of photos (3P/s or 5P/s).
- **Timed Shooting:** Sets a delay before taking a photo.

5K Ultra HD Video Camera

Capture perfect moments, ideal for creators and vloggers

Image: Visual examples of the four available photography modes: Single Photo, Auto Shooting, Continuous Shooting, and Timed Shooting.

5.3 Recording Videos

Choose from various video recording modes:

- **Normal Recording:** Standard video capture.
- **Loop Recording:** Records video in a continuous loop, overwriting older footage.
- **Slow-Motion Recording:** Captures video at a higher frame rate for slow-motion playback.
- **Time-lapse Recording:** Records frames at set intervals to create a sped-up video.
- **Video + Photo:** Captures both video and still images simultaneously.

Image: Examples illustrating the five different video modes available on the camera: Normal, Loop, Slow-Motion, Time-lapse, and Video + Photo.

5.4 Wi-Fi Connectivity

To transfer files wirelessly:

1. Download the dedicated app to your smartphone or tablet.
2. Enable Wi-Fi on the camera and connect your smart device to the camera's Wi-Fi network.
3. Use the app to browse, download, and share your photos and videos.

5.5 Webcam Functionality

To use the camera as a webcam:

- 1. Connect the camera to your computer using the USB cable.
- 2. Select "Webcam Mode" on the camera's screen (if prompted).
- 3. Your computer should recognize the camera as a webcam, allowing its use for live streaming or video calls.

6. MAINTENANCE

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for camera lenses. Avoid using harsh chemicals.
- **Cleaning the Body:** Wipe the camera body with a dry, soft cloth. Do not use liquid cleaners.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. Remove the battery if storing for extended periods.
- **Battery Care:** Fully charge batteries before first use. Avoid overcharging or completely draining batteries.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera does not power on.	Battery is dead or not inserted correctly.	Charge the battery or reinsert it correctly. Ensure battery contacts are clean.
Cannot take photos/videos.	SD card is full, locked, or not inserted.	Delete files, unlock the SD card, or insert it properly. Format the SD card if necessary (this will erase all data).
Poor image quality.	Lens is dirty, low light, or incorrect settings.	Clean the lens. Use flash in low light. Adjust exposure settings.
Wi-Fi connection issues.	Incorrect password, out of range, or app issue.	Verify Wi-Fi password. Move closer to the camera. Restart camera and smart device. Reinstall app.
