3. Package Contents

- 1 x TESSAN PD 65W USB Charging Station (Model 500163)
- 1 x User Manual

4. Product Features

- **PD 65W USB Charging:** Equipped with two USB-C ports (65W Max per port) and one USB-A port (30W Max), enabling fast charging for various USB devices, including MacBook Air 15" (50% charge in approximately 35 minutes).
- **6-in-1 Versatility:** Features three AC outlets (1250W Max total power), two USB-C ports, and one USB-A port. The integrated 5-foot flat extension cable allows simultaneous charging of up to six devices.
- **Right-Angle Flat Plug:** The ultra-thin 0.31-inch flat plug design allows for easy insertion into tight spaces, such as behind furniture. Its 45-degree right-angle orientation prevents blocking adjacent outlets.
- **3-Sided Design:** The desktop charging station's three-sided layout provides ample space for large power adapters without interference. Two non-slip rubber feet on the bottom ensure stability.
- **Compact and Portable:** Measuring 3.74 x 1.65 x 1.22 inches and weighing approximately 7.73 ounces; this charger is suitable for travel. It includes surge-free protection for high-power fast-charging needs.

5. Setup Instructions

1. Uncoil the 5-foot extension cable from the TESSAN PD 65W USB Charging Station.
2. Plug the flat, right-angle power plug into a standard 125V AC wall outlet. Ensure the plug is fully inserted.
3. Place the charging station on a stable, flat surface, utilizing its anti-slip rubber feet for secure placement.

6. Operating Instructions

1. **Connecting AC Devices:** Plug your AC-powered devices into any of the three available AC outlets on the charging station.

2. **Connecting USB-C Devices:** Connect your USB-C compatible devices (e.g., laptops, tablets, smartphones) to the USB-C ports for fast charging up to 65W per port.
3. **Connecting USB-A Devices:** Connect your USB-A compatible devices (e.g., older smartphones, smartwatches, power banks) to the USB-A port for charging up to 30W.
4. The charging station will automatically detect and deliver the optimal charging current for connected devices.

7. Maintenance

- Disconnect the charging station from the power outlet before cleaning.
- Wipe the exterior with a soft, dry cloth. Do not use liquid cleaners or aerosols.
- Store the device in a cool, dry place when not in use.

8. Troubleshooting

Problem	Possible Cause	Solution
Device not charging	Charging station not plugged in; device cable faulty; device not compatible.	Ensure the charging station is securely plugged into a live outlet. Try a different cable or device to isolate the issue.
Slow charging speed	Multiple high-power devices connected; cable not supporting fast charging.	Disconnect some devices to reduce load. Use a high-quality cable that supports PD 65W or 30W charging.
Charging station feels warm	Normal operation under load; poor ventilation.	Slight warmth is normal. Ensure the device is placed in a well-ventilated area and not covered. If excessively hot, disconnect immediately.
