Initial Charge

Before first use, it is recommended to fully charge your Kuulaa Portable Charger. This ensures optimal battery performance.

1. Connect the provided Type-C cable to the USB-C port on the power bank.
2. Connect the other end of the cable to a compatible USB wall adapter (not included) or a computer's USB port.
3. The LED indicators on the power bank will illuminate to show the charging progress. All four LEDs will be solid when fully charged. A full recharge takes approximately 3 hours with an 18W power adapter.

MAINTENANCE

- Keep the power bank away from extreme temperatures (hot or cold) and direct sunlight.
- Avoid dropping or subjecting the power bank to strong impacts.
- Do not expose the power bank to water or excessive moisture.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- If storing for an extended period, charge the power bank to approximately 50% every 3 months to preserve battery life.

TROUBLESHOOTING

Power bank is not charging / not turning on:

- Ensure the charging cable is securely connected to both the power bank and the power source.
- Try a different charging cable or wall adapter.
- Verify the power source is active.

Device is not charging from the power bank:

- Check if the power bank has sufficient charge (press the power button to check LEDs).
- Ensure the charging cable connecting the power bank to your device is functional and securely connected.
- Try a different charging cable.
- Confirm your device is compatible with the power bank's output specifications.

Slow charging:

- Ensure you are using a fast-charging compatible cable and your device supports fast charging.
- Verify that the power bank itself is fully charged.
- Some devices may limit charging speed if they are in heavy use or if their battery is nearly full.
