SHRATE SH001

SHRATE Professional High-Speed Ionic Hair Dryer User Manual

Model: SH001

Brand: SHRATE

Introduction

Thank you for choosing the SHRATE Professional High-Speed Ionic Hair Dryer. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new hair dryer. Please read it thoroughly before first use and retain it for future reference.

Safety Information

To ensure safe operation and prevent damage, please observe the following precautions:

- Keep out of reach of children.
- Do not rinse or submerge the appliance in water.
- Keep the power plug and cord away from heated surfaces.
- Do not use while bathing or in wet environments.
- Do not disassemble or modify the hair dryer.

- If the power cord or plug is damaged, discontinue use immediately and contact customer support.

Package Contents

Your SHRATE Professional High-Speed Ionic Hair Dryer package includes:

- SHRATE Professional High-Speed Ionic Hair Dryer (Model SH001)
- Magnetic Diffuser
- Magnetic Concentrator Nozzle
- User Manual

Product Features

- **Ultra-Fast Drying:** Equipped with a 160,000 RPM brushless motor and 36m/s high-speed airflow for significantly reduced drying time.
- **500 Million Negative Ions:** Advanced ionic technology reduces frizz, enhances shine, and locks in moisture

for smoother, healthier hair.

- **Lightweight & Low Noise:** Weighs only 0.89 lbs (400g) and operates at a low noise level of 51dB, ensuring comfortable and quiet use.
- **Intelligent Heat Control:** Monitors air outlet temperature 110 times per second to prevent overheating and hair damage.
- **Multiple Heat/Speed Settings:** Features 2 speed settings and 4 temperature modes (Cold, Warm, Hot, Alternating Hot/Cold) for versatile styling.
- **Magnetic Attachments:** Comes with easily attachable magnetic concentrator and diffuser for various hair types and styles.
- **Removable Mesh Filter:** Protects the motor from dust and debris, ensuring longevity and easy cleaning.

Setup

Your SHRATE hair dryer comes with magnetic attachments for easy setup.

1. **Attaching Nozzles:** Select either the magnetic diffuser or concentrator nozzle. Align the nozzle with the front of the hair dryer. The magnets will automatically secure the attachment in place.
2. **Removing Nozzles:** Gently pull the attachment away from the hair dryer.

Figure 6: Magnetic attachments for easy and secure fitting.

Operating Instructions

Familiarize yourself with the controls for optimal performance.

1. **Power On/Off:** Use the power switch located on the handle to turn the device on or off.
2. **Adjusting Airflow Speed:** The hair dryer features two speed settings. Use the speed control button on the handle to switch between low and high airflow.

3. **Selecting Temperature:** Press the temperature button to cycle through four heat settings: Cold (Green LED), Warm (Orange LED), Hot (Red LED), and Alternating Hot/Cold (Blue and Red running lights). The LED indicator on the back of the dryer will change color to reflect the selected temperature.
4. **Using the Concentrator Nozzle:** For precise styling and smoothing, attach the concentrator nozzle. Direct the airflow down the hair shaft.
5. **Using the Diffuser:** For enhancing natural curls and waves, attach the diffuser. Gently cup sections of hair in the diffuser and lift towards the scalp.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your hair dryer.

1. **Cleaning the Air Inlet Filter:** The hair dryer features a removable mesh filter at the bottom of the handle. Twist and pull off the bottom cap to access the filter. Regularly clean any accumulated dust or hair from the filter to maintain airflow and prevent overheating. Reattach the cap securely after cleaning.
2. **General Cleaning:** Wipe the power cord and plug regularly with a dry cloth. Ensure the power switch is off and the plug is disconnected before cleaning.
3. **Storage:** Do not wrap the power cord around the fuselage. Store the hair dryer in a cool, dry place.

Figure 9: The removable mesh filter for easy cleaning and maintenance.

Troubleshooting

If you encounter any issues with your SHRATE hair dryer, please refer to the following common troubleshooting tips:

- **No Power:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the outlet is

functional by plugging in another device.

- **Weak Airflow:** Clean the air inlet filter as described in the Maintenance section. A clogged filter can restrict airflow.
- **Overheating:** If the dryer stops working due to overheating, unplug it and allow it to cool down for several minutes. Clean the air inlet filter.
- **Attachments Not Staying On:** Ensure the magnetic attachments are clean and free of debris, and that they are correctly aligned with the dryer's magnetic ring.

If the problem persists after trying these steps, please contact SHRATE customer support for assistance.

Specifications

Feature	Specification
Product Dimensions	9.4 x 3.3 x 4.5 inches
Item Weight	1.29 Kilograms (2.84 Pounds)
Item Model Number	SH001
UPC	705161391430
Wattage	1400 watts
Power Source	Corded Electric
Motor Speed	160,000 RPM
Airflow Speed	36m/s
Negative Ions	500 Million
Noise Level	51dB
Hair Type Compatibility	All Hair Types
Number of Speeds	2
Number of Temperature Settings	4 (Cold, Warm, Hot, Alternating)
Maximum Temperature	170 Degrees Fahrenheit
Included Components	Diffuser, Concentrator Nozzle
Material Type	Metal
