Rapoo MT560L

Rapoo MT560L Wireless Mouse Instruction Manual

Model: MT560L

1. INTRODUCTION

The Rapoo MT560L is a versatile wireless mouse designed for enhanced productivity across multiple devices. It features multi-mode connectivity, a high-resolution optical sensor, an ergonomic design, and a long-lasting rechargeable battery. This manual provides detailed instructions for setting up, operating, and maintaining your MT560L mouse to ensure optimal performance.

2. SETUP

2.1 Unpacking

Inside the product packaging, you will find the following items:

- Rapoo MT560L Wireless Mouse
- USB Receiver

2.2 Charging the Mouse

The MT560L mouse is equipped with an 800mAh rechargeable battery. Before initial use, it is recommended to fully charge the mouse.

1. Connect the mouse to a power source (e.g., computer USB port, USB wall adapter) using a USB Type-C cable.
2. The charging indicator light will illuminate.
3. A full charge typically takes approximately 3 hours and can provide up to 90 days of use, depending on usage patterns.

2.3 Connectivity Options

The MT560L supports multi-mode connectivity, allowing you to connect via Bluetooth 3.0, Bluetooth 4.0, or 2.4 GHz wireless using the included USB receiver.

Image 2.2: Visual representation of the MT560L's triple-mode connectivity options: Bluetooth, 2.4GHz wireless, and wired USB (though wired is not explicitly mentioned in features, the image implies it).

2.4 Connecting via 2.4 GHz Wireless

1. Locate the USB receiver included with your mouse.
2. Insert the USB receiver into an available USB port on your computer.
3. Ensure the mouse is powered on and the connection mode is set to 2.4 GHz (refer to the switch or button on

the mouse for mode selection).

4. The mouse should automatically connect to your computer.

2.5 Connecting via Bluetooth

The MT560L can connect to up to three Bluetooth devices.

1. Turn on the mouse and switch its connection mode to one of the Bluetooth channels (BT1, BT2, or BT3).
2. On your device (PC, Mac, smartphone, tablet), navigate to the Bluetooth settings.
3. Search for new devices and select "Rapoo MT560L" from the list of available devices to initiate pairing.
4. Follow any on-screen prompts to complete the pairing process.

3. OPERATING THE MOUSE

3.1 Basic Mouse Functions

- **Left Click:** Used for primary selection, opening items, and activating functions.
- **Right Click:** Accesses contextual menus and secondary functions.
- **Scroll Wheel:** Scrolls vertically through documents and web pages.

3.2 DPI Adjustment

The MT560L features a 7-level adjustable optical sensor, allowing you to change the cursor sensitivity from 800 to 4000 DPI (Dots Per Inch).

1. Locate the DPI button, typically positioned near the scroll wheel.
2. Press the DPI button to cycle through the available sensitivity settings.
3. Select a DPI setting that suits your task, whether for precise graphic design work or fast-paced navigation.

Image 3.1: The MT560L's 7-level DPI adjustment feature, enabling precise control from 800 to 4000 DPI.

3.3 Multi-Device Switching

The MT560L allows seamless switching between up to four connected devices (one 2.4 GHz wireless and three Bluetooth devices).

- Use the dedicated device switch button (usually located on the top or bottom of the mouse) to cycle through your paired devices.
- The mouse will connect to the selected device almost instantly.

3.4 Customizable Buttons and Onboard Memory

The mouse features 10 customizable buttons. Functions can be assigned to these buttons and saved directly to the mouse's onboard memory. This allows your personalized settings to be retained and used across different computers without requiring software reinstallation.

Image 3.2: The MT560L mouse highlighting its onboard memory for saving custom button assignments across multiple devices.

3.5 Hall Magnetic Side Scroll Wheel

The MT560L includes a Hall Magnetic Side Scroll Wheel, which provides ultra-smooth and precise horizontal scrolling. This feature is particularly useful for navigating wide documents, spreadsheets, or timelines efficiently.

3.6 Optical Sensor Performance

Equipped with a PAW3220 optical sensor, the MT560L delivers precise and reliable tracking on almost any surface, ensuring consistent performance in various environments.

3.7 Ergonomic Design

The MT560L features an ergonomic design tailored for right-handed users, with an arch-back shape and thumb support. This design promotes comfortable use during extended periods, reducing strain and fatigue.

4. MAINTENANCE

4.1 Cleaning

- To clean the mouse, gently wipe its surface with a soft, slightly damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the mouse.
- Periodically clean the optical sensor area on the underside of the mouse with a dry cotton swab to ensure optimal tracking performance.

4.2 Battery Care

- To prolong the lifespan of the integrated rechargeable battery, avoid fully discharging the mouse frequently.
- Charge the mouse when the battery indicator suggests low power.
- Store the mouse in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

5.1 Mouse Not Responding

- Ensure the mouse is powered on.
- Check if the battery is charged. Connect the mouse to a power source to charge if needed.
- Verify that the correct connection mode (2.4 GHz or Bluetooth) is selected on the mouse.
- For 2.4 GHz wireless: Ensure the USB receiver is securely plugged into a working USB port on your computer. Try a different USB port.
- For Bluetooth: Ensure Bluetooth is enabled on your device and the mouse is correctly paired. If necessary, remove the mouse from your device's Bluetooth list and re-pair it.

5.2 Erratic Cursor Movement

- Clean the optical sensor on the underside of the mouse to remove any dust or debris.
- Try using the mouse on a different surface. While the PAW3220 sensor is versatile, certain highly reflective or uneven surfaces may affect tracking.
- Adjust the DPI setting to a lower value if the cursor is too sensitive or jumps excessively.

5.3 Scroll Wheel Issues

- If the scroll wheel is not functioning smoothly or is jumping, ensure it is free from any debris.
- If the issue persists after cleaning, it may indicate a hardware issue.

5.4 Connectivity Drops

- Ensure the mouse is within the optimal operating range (up to 10 meters / 360° coverage) of your connected device.
- Minimize potential interference from other wireless devices operating on similar frequencies.

6. SPECIFICATIONS

Feature	Detail
Brand	Rapoo
Model	MT560L
Connectivity	Bluetooth 3.0, Bluetooth 4.0, 2.4 GHz Wireless (USB Receiver)
Sensor Type	Optical (PAW3220)
DPI	Adjustable 800-4000 DPI (7 levels)
Battery	800mAh Rechargeable Lithium Battery
Battery Life	Up to 90 days (on a full charge)
Charging Port	USB Type-C
Charging Time	Approx. 3 hours for full charge
Hand Orientation	Right-handed
Weight	82 g
Special Features	Ergonomic Design, Multi-Device Switching, 10 Customizable Buttons, Onboard Memory, Hall Magnetic Side Scroll Wheel
Compatible Devices	Personal Computer, Smartphone, Tablet (Windows, Mac)

7. WARRANTY AND SUPPORT

7.1 Warranty Information

For detailed warranty terms and conditions applicable to your Rapoo MT560L Wireless Mouse, please refer to the warranty card included with your product or visit the official Rapoo website. Keep your proof of purchase for warranty claims.

7.2 Customer Support

Should you encounter any issues or require technical assistance beyond the scope of this manual, please contact Rapoo customer support. Contact details, including phone numbers and email addresses, can typically be found on the official Rapoo website or in your product packaging.
