

boAt 67W GaN

boAt 67W GaN Triple Port Charger User Manual

MODEL: 67W GaN

1. Introduction

Thank you for choosing the boAt 67W GaN Triple Port Charger. This compact and powerful charger is designed to provide ultra-fast charging for a wide range of devices, including laptops, smartphones, and tablets, utilizing advanced GaN technology. This manual provides essential information for safe and efficient use of your charger.

2. Safety Information

Please read all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Do not expose the charger to liquids, moisture, or extreme temperatures.
- Do not disassemble, modify, or attempt to repair the charger.
- Keep out of reach of children.
- Use only with compatible devices and cables.
- Unplug the charger during lightning storms or when unused for long periods.
- Ensure proper ventilation around the charger during use.

3. Product Overview

The boAt 67W GaN Charger features cutting-edge technology and multiple ports for versatile charging.

Key Features:

- **67W Fast Charging:** Supports Power Delivery (PD), Programmable Power Supply (PPS), and Quick Charge 3.0 (QC 3.0) for rapid charging of compatible devices.
- **Triple Output Ports:** Includes two USB-C ports (67W PD, PPS) and one USB-A port (30W QC 3.0) for simultaneous charging of up to three devices.
- **GaN Chip Technology:** Minimizes heat build-up and maximizes charging efficiency.

- **12-Layer Smart IC Protection:** Safeguards devices from short circuits, overcharging, and overheating.
- **Compact & Lightweight Design:** Easy to carry and store.
- **Corrosion & Scratch Resistant:** Designed for durability.

Product Components:

Triple Output Ports: The charger features two USB-C ports and one USB-A port, allowing simultaneous charging of a laptop, smartphone, and earbuds.

Cutting Edge GaN Chip Tech: This image illustrates the advanced Gallium Nitride (GaN) technology integrated into the charger, enabling efficient 67W fast charging with PD, PPS, and QC 3.0 protocols.

Ultra-Compact & Lightweight: The charger's small size makes it highly portable, fitting easily into pockets or bags for convenient travel.

0-50% Charge Time	
Device	67W charger
Macbook air M3	30 mins
Samsung S25	29 mins
HP EliteBook	30 mins
Ipad Pro	29 mins
iphone 16 pro	26 mins

12-Layer Smart IC Protection: This visual represents the comprehensive safety mechanisms built into the charger to prevent short-circuits, over-charging, and over-discharging, ensuring device safety.

Corrosion Resistant Pins: The charger is equipped with durable, corrosion-resistant pins, contributing to its high durability and resistance to heat and scratches.

4. Setup

Follow these steps to set up your boAt 67W GaN Charger:

1. **Unpack:** Carefully remove the charger from its packaging.
2. **Connect to Power:** Plug the charger into a standard wall power outlet. Ensure the outlet is easily accessible.
3. **Connect Device:** Use a compatible USB-C to USB-C cable or USB-A to device cable to connect your device to one of the charger's output ports.
4. **Verify Charging:** Confirm that your device indicates it is charging.

5. Operating Instructions

The boAt 67W GaN Charger automatically detects the connected device and delivers the optimal charging power. Here's how to use it effectively:

- **Single Device Charging:** For maximum speed, connect a single device to either a USB-C port for up to 67W PD/PPS charging or the USB-A port for up to 30W QC 3.0 charging.
- **Multiple Device Charging:** When charging multiple devices simultaneously, the charger intelligently distributes power across the ports. The maximum combined output is 45W + 7.5W + 7.5W across the three smart output ports.
- **Compatible Devices:** This charger is compatible with MacBook Air, iPhone, iPad, Samsung Galaxy, Android phones, laptops (HP, Dell, Lenovo, Asus), and various tablets.

Typical Charging Times (0-50%):

This table provides estimated charging times from 0% to 50% for common devices when using the 67W charger. Actual times may vary based on device, cable, and environmental factors.

Estimated 0-50% Charge Times with 67W Charger

Device	Time to 50% Charge
MacBook Air M3	30 mins
Samsung S25	29 mins
HP EliteBook	30 mins
iPad Pro	29 mins
iPhone 16 Pro	26 mins

6. Maintenance

Proper care ensures the longevity of your charger:

- **Cleaning:** Disconnect the charger from the power outlet and all devices before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the charger to strong impacts.

7. Troubleshooting

If you encounter issues with your charger, refer to the following common problems and solutions:

Charger is not working / Device is not charging:

- Ensure the charger is securely plugged into a live power outlet.
- Check if the charging cable is properly connected to both the charger and your device.
- Try using a different cable to rule out a faulty cable.
- Test the charger with a different device to confirm if the issue is with the charger or the device.
- Ensure the power outlet is functional by plugging in another appliance.

Device is charging slowly:

- Verify that your device and cable support fast charging protocols (PD, PPS, QC 3.0).
- If multiple devices are connected, the power output is distributed. Disconnect other devices to achieve maximum speed for a single device.
- Ensure the cable used is rated for high power delivery (e.g., 60W or 100W USB-C cable for laptops).

Charger feels warm during use:

- It is normal for the charger to become warm during operation, especially during high-power charging. The GaN technology helps manage heat.
- If the charger becomes excessively hot to touch, disconnect it immediately and contact support.
- Ensure adequate ventilation around the charger. Do not cover it.

8. Specifications

Feature	Detail
Brand	boAt
Model Name	Adaptor (67W GaN)
Connector Type	2-Pin
Compatible Devices	MacBook Air, iPhone, iPad, Samsung Galaxy, Android, Laptops (HP, Dell, Lenovo, Asus)
Colour	Monarch Red
Input Voltage	5 Volts
Output Current	3 Amps (Max)
Number of Items	1
Item Weight	200 Grams
Connectivity Technology	USB
Country of Origin	India

9. Warranty Information

This product comes with a **1-year warranty** from the date of purchase. Please retain your purchase receipt for warranty claims. The warranty covers manufacturing defects but does not cover damage caused by misuse, accidents, or unauthorized modifications.

10. Customer Support

For any queries, support, or warranty claims, please contact:

- **Manufacturer:** Imagine Marketing Ltd
- **Email:** info@imaginemarketingindia.com
