VELUX DSL CK04

VELUX Solar Blackout Blind (DSL) CK04, Grey - Instruction Manual

Model: DSL CK04 | Brand: VELUX

INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your VELUX Solar Blackout Blind (DSL). Designed for VELUX roof windows, this solar-powered blind offers complete darkness and convenient remote control operation. Please read these instructions carefully before use to ensure proper functionality and longevity of your product.

SETUP AND INSTALLATION

Your VELUX Solar Blackout Blind is designed for easy installation. Follow these steps to ensure a correct fit and setup.

1. Choosing the Correct Size

You do not need to measure your window. To determine the correct size, locate the reference code on the top part of your open VELUX roof window. This code will correspond to the correct blind size.

Choosing the correct size

Die richtige Größe wählen / Choisir la bonne taille / De juiste maat kiezen / Elegir el tamaño correcto / Scegliere la taglia giusta

3	UK	Your VELUX Size Code	Select this "size" (W x H)	Compatible Products
	DE	Deine VELUX Größen-Code	Wähle diese "Größe" (B x H)	Kompatible Produkte
	FR	Code Taille VELUX	Sélectionnez cette "Taille" (l x L)	Produits compatibles
	NL	VELUX Maatcode	Kies deze "Maat" (B x H)	Compatibele producten
	ES	Código de Tamaño VELUX	Selecciona este "Tamaño" (An x Al)	Productos compatibles
	IT	Codice Dimensione VELUX	Seleziona questa "Taglia" (l x A)	Prodotti compatibili
		C02	37 x 53 cm	GGL C02, GGU C02

Image: Diagram illustrating how to identify the correct VELUX window size code (e.g., GGL CK04) for blind compatibility.

2. Compatibility

This blind is compatible with the following VELUX roof window models:

- GGL CK04
- GGU CK04
- GPL CK04
- GPU CK04

3. Installation

The blind features a pre-installed mounting system for quick and easy installation, typically taking only a few minutes. No wiring is required. If mounting brackets are not pre-installed on your window, you may need to purchase the Z0Z 230 kit separately.

OPERATING INSTRUCTIONS

Your solar blackout blind offers both remote and manual operation for your convenience.

Remote Control Operation

The blind is solar-powered and controlled wirelessly via a pre-paired remote control. Use the remote to open, close, and adjust the blind to any desired position. The integrated rechargeable solar battery provides up to 600 operations even without direct sunlight for recharging.

Image: A hand operating the wireless remote control for the VELUX blind.

Manual Operation

The blind can also be operated manually. The side guides ensure smooth opening, closing, and precise positioning at any height on the window.

Image: Detailed view of the side guide mechanism, ensuring smooth blind movement.

Blackout Functionality

The high-quality fabric and special aluminum thermal block coating on the back of the blind ensure complete blackout, effectively blocking external light and retaining heat within the room. This makes it ideal for bedrooms or children's rooms.

Image: VELUX blackout blinds partially open, allowing natural light.

Image: VELUX blackout blinds fully closed, demonstrating complete room darkening.

MAINTENANCE

To keep your VELUX Solar Blackout Blind in optimal condition, follow these simple maintenance guidelines:

- **Dusting:** Regularly dust the blind fabric and aluminum frame with a soft, dry cloth.
- **Cleaning:** For more thorough cleaning, wipe the fabric and frame with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the material.

TROUBLESHOOTING

Remote Control Pairing Issues

If you experience difficulty pairing the remote control with your blind, or if the blind does not respond:

1. Press and hold the **RESET** button on the blind for 10 seconds. This should initiate the blind's pairing mode.
2. Then, press the button with two squares on your remote control.

3. If necessary, use the magnetic cursor to fully close the blind, then try operating it again.

The solar battery is designed to provide reliable operation. If the blind is unresponsive, ensure the battery has sufficient charge. It can perform up to 600 operations even without direct sun exposure for recharging.

SPECIFICATIONS

Feature	Detail
Brand	VELUX
Model Number	DSL CK04 0705K
Color	Grey
Dimensions (L x W)	78.3L x 37.1W cm (37l x 78A cm)
Material	100% Polyester fabric, Aluminum rails
Opacity	Blackout
Operation Mode	Automatic (Solar-powered)
Control Type	Remote Control
Special Features	Solar-powered, smooth adjustment, remote control
Compatible Devices	Original VELUX roof windows
Mounting Type	Internal mounting
Water Resistance Level	Not water resistant
Item Weight	1.71 Kilograms
Components Included	Remote control, top unit, mounting accessories, side guides, assembly instructions
Care Instructions	Dust, clean with damp cloth
Country of Origin	Denmark

WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your product or visit the official VELUX website. Keep your purchase receipt for warranty claims.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
