yaoyaoplay M6610 Small Bouquet Bears 3D Micro Building Blocks Instruction Manual

Model: M6610 | Brand: yaoyaoplay

1. INTRODUCTION

Thank you for choosing the yaoyaoplay M6610 Small Bouquet Bears 3D Micro Building Blocks. This set provides an engaging and creative building experience, resulting in a detailed 3D micro animal model. This manual will guide you through the assembly process, ensuring a smooth and enjoyable build.

2. SAFETY INFORMATION

- Small Parts Warning:** This product contains small parts and is not suitable for children under 3 years old due to choking hazards. Recommended age is 10-20 years.
- Keep all packaging materials away from children.
- Avoid placing blocks in the mouth.
- Ensure a clean and organized workspace to prevent loss of small pieces.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Approximately 3400 ABS Micro Building Blocks
- Printed Instruction Manual (with QR code for digital instructions)
- Assembly Tool (e.g., small hammer, if included)

4. SETUP & ASSEMBLY

4.1 Preparation

1. **Clear Workspace:** Choose a dedicated, flat, and well-lit area for assembly. This project requires a significant amount of time and space.
2. **Sort Blocks:** Although some pieces may be pre-sorted by color, it is highly recommended to further sort all blocks by color and size. This will significantly speed up the building process.
3. **Access Instructions:** Refer to the included paper manual or scan the QR code on the back cover for digital instructions. Digital instructions can be very helpful for detailed views.

4.2 Building Techniques

- **Layer-by-Layer Construction:** The model is built layer by layer. Carefully follow the sequence provided in the instructions.
- **Interlocking Bricks:** The micro bricks feature ridges around the edge and dots on top, designed for secure interlocking. Ensure each brick is firmly pressed into place.
- **Doubling Bricks:** For efficiency, when the instructions call for two single bricks of the same type to be placed side-by-side, you can often pre-assemble them into a "doubled brick" unit before placing them on the model. This can save considerable time.

4.3 Assembly Steps (General Overview)

The assembly process involves constructing the bear's body, legs, arms, and head separately, then combining them. The video below provides a visual guide to the building process.

Your browser does not support the video tag.

Video 4.1: Assembly Overview - Demonstrates the process of sorting blocks, interlocking pieces, and assembling the bear's components.

1. Begin with the base of the legs, building upwards as per the instructions.
2. Construct the main body section, ensuring all pieces are securely connected.
3. Assemble the arms and attach them to the body.
4. Build the head and ears separately. It may be easier to attach the ears to the head before attaching the entire head to the body.

5. Carefully connect the head assembly to the main body.

5. FEATURES & OPERATION

5.1 Hidden Storage Drawer

The M6610 model includes a hidden drawer feature, typically located within the head or body of the bear. This drawer can be used to store small items or accessories.

- To access, gently pull the designated section of the bear's head or body.
- Ensure the drawer is fully inserted and secure when not in use.

5.2 Optional Lighting (Not Included)

While not included in the standard package, the design of the bear allows for the integration of small LED string lights (fairy lights) within its hollow interior. This can enhance the display of your completed model.

- Carefully place the LED string lights inside the hollow sections of the bear during or after assembly.
- Ensure the battery pack or power source for the lights is accessible and does not interfere with the stability of the model.

6. CARE & MAINTENANCE

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the model. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the completed model in a stable location away from direct sunlight and extreme temperatures to prevent discoloration or material degradation.
- **Handling:** Handle the model with care to avoid accidental disassembly of small pieces.

7. TROUBLESHOOTING

Problem	Solution
Pieces do not interlock securely.	Ensure the pieces are correctly oriented and apply firm, even pressure. The micro bricks require precise alignment.
Missing pieces.	Double-check your workspace and surrounding area. If pieces are genuinely missing, contact yaoyaoplay customer support.
Difficulty following instructions.	Refer to the digital instructions via the QR code for magnified views and potentially animated steps. Take breaks if needed.

8. SPECIFICATIONS

- **Model Number:** M6610
- **Product Dimensions (Assembled):** Approximately 8 x 7 x 15 inches (L x W x H)
- **Item Weight (Assembled):** Approximately 2 pounds
- **Number of Pieces:** Approximately 3400 micro blocks
- **Material:** ABS Plastic
- **Manufacturer Recommended Age:** 10 - 20 years
