ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. All accessories are numbered for easy identification.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the 'Package Contents' list and the diagrams in the manual.
2. **Assemble Side Frames:** Connect the metal side frames according to the numbered instructions. The side X-shaped design provides enhanced stability.
3. **Attach Wire Shelves:** Securely attach the 7 wire shelves to the side frames using the provided hardware. Ensure each shelf clicks into place or is fastened tightly. The metal shoe organizer includes 2 iron sheets designed to support high heels, preventing them from sinking through the wire mesh. These can be placed on any desired shelf.
4. **Install Wooden Top Panels:** Place the two wooden top panels onto the uppermost frame. These panels provide a flat surface for additional storage or decoration.
5. **Adjustable Feet:** Screw in the adjustable feet at the bottom of the rack to ensure stability on uneven surfaces.
6. **Secure with Anti-Tip Kit:** For added safety, attach the anti-tip strap to the top of the rack and secure it to a wall using the provided wall anchors.
