

LRFDRESS P2261

LRFDRESS A7014 HEPA Filter Instruction Manual

For Boneco P2261 A7014 Air Purifier

INTRODUCTION

This manual provides instructions for the LRFDRESS A7014 HEPA Filter, designed as a replacement for Boneco P2261 A7014 Air Purifiers. It covers installation, maintenance, and product specifications to ensure proper use and optimal performance.

SAFETY INFORMATION

- Always unplug the air purifier from the power outlet before attempting any maintenance or filter replacement.
- Ensure hands are clean and dry before handling the filter.
- Keep new filters in their sealed packaging until ready for installation to maintain cleanliness.
- Do not attempt to wash or clean the HEPA filter, as this can damage the filter media and reduce its effectiveness.

PACKAGE CONTENTS

- 1 x LRFDRESS A7014 HEPA Filter with Pre-filter

SETUP (INSTALLATION)

1. Step 1: Power Off and Unplug

Ensure your Boneco P2261 A7014 Air Purifier is turned off and unplugged from the electrical outlet.

2. Step 2: Access Filter Compartment

Refer to your Boneco P2261 A7014 Air Purifier's original manual for specific instructions on how to open the filter compartment. This typically involves removing a cover or panel.

3. Step 3: Remove Old Filter

Carefully remove the used HEPA filter and pre-filter assembly from the air purifier. Dispose of the old filter according to local regulations.

4. Step 4: Install New Filter

Unpack the new LRFDRESS A7014 HEPA Filter. Insert the new filter into the compartment, ensuring it is seated correctly. The pre-filter side usually faces outwards towards the air intake.

Image showing the LRFDRESS A7014 HEPA filter, featuring a light blue pre-filter layer on top of the main HEPA filter material, encased in a black frame. This filter is ready for installation into a compatible air purifier.

5. Step 5: Close Compartment and Power On

Securely close the filter compartment cover. Plug the air purifier back into the electrical outlet and turn it on. Some air purifiers may require a filter reset button to be pressed after replacement.

OPERATING PRINCIPLES

The LRFDRESS A7014 HEPA Filter works passively within your Boneco P2261 A7014 Air Purifier. The integrated pre-filter captures larger particles like dust, lint, and pet hair, which helps to extend the lifespan of the main HEPA filter. The H13 True HEPA layer is designed to capture 99.97% of airborne particles as small as 0.3 microns, including common allergens such as pollen, mold spores, and dust mites, contributing to cleaner indoor air quality.

MAINTENANCE

Filter Replacement Schedule

For optimal performance and to maintain effective air purification, it is recommended to replace the LRFDRESS A7014 HEPA Filter every 6-8 months. The actual replacement interval may vary depending on factors such as local air quality, frequency of air purifier use, and the presence of pets or smokers. Always refer to your air purifier's indicator light or manufacturer guidelines for specific replacement intervals.

Disposal

Used filters should be disposed of in regular household waste. Do not attempt to wash or clean the HEPA filter, as this can damage the delicate filter media and significantly reduce its filtration effectiveness.

TROUBLESHOOTING

- **Reduced Airflow After Replacement:** Ensure the filter is installed correctly and the compartment cover is fully closed and secured. Check for any obstructions around the air intake or outlet of the purifier.
- **Unusual Odors:** If new or unusual odors are present after installation, ensure the filter is new and was properly sealed before installation. If odors persist, it may indicate an issue with the air purifier itself or the need for a new filter sooner than expected due to environmental factors.
- **Filter Indicator Light Remains On:** Many air purifiers have a filter reset function that needs to be activated after a filter change. Consult your Boneco P2261 A7014 Air Purifier's manual for specific instructions on how to reset the filter indicator.

SPECIFICATIONS

Brand:	LRFDRESS
Model:	A7014 (Compatible with Boneco P2261 A7014)
Filter Type:	H13 True HEPA with Pre-filter
Dimensions:	Approximately 1 inch (L) x 1 inch (W) x 1 inch (Th) <i>(Note: Users should verify compatibility with their specific air purifier model as these dimensions appear generic.)</i>
Item Weight:	Approximately 15.2 ounces
Package Contents:	1 x HEPA filter and pre-filter
