4. SETUP INSTRUCTIONS

4.1 Connecting to Your Device

The Wantek V10 headset uses a 3.5mm audio jack for sound and microphone, and a USB-A connector for LED lighting.

1. **Audio Connection:** Insert the 3.5mm audio jack into the corresponding port on your computer, console controller, or mobile device. Ensure it is fully inserted for proper audio and microphone function.
2. **LED Lighting:** Plug the USB-A connector into an available USB port on your computer or a USB power adapter. This connection is solely for powering the RGB LED lights on the earcups and is not required for audio or microphone functionality.

4.2 Adjusting the Headset

- **Headband Adjustment:** The headband is designed to be self-adjusting. Gently place the headset on your head, and the headband will conform to a comfortable fit.
- **Microphone Positioning:** The microphone features a flexible metal pole. Adjust its position so it is close to your mouth for optimal voice pickup, typically 2-3 inches away.

5. OPERATING INSTRUCTIONS

5.1 Audio Control

The headset cable includes an in-line control unit for volume adjustment and microphone mute function.

- **Volume Wheel:** Rotate the wheel up or down to increase or decrease the audio volume.
- **Microphone Mute Switch:** Slide the switch to mute or unmute the microphone.

5.2 Microphone Usage

The noise-cancelling microphone is designed to focus on your voice while minimizing background noise.

- Ensure the microphone is unmuted via the in-line control.
- Position the microphone approximately 2-3 inches from your mouth for best clarity.
- For optimal performance, configure your device's audio settings to select the headset's microphone as the default input device.

6. MAINTENANCE

Proper care will extend the life of your Wantek V10 headset.

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place when not in use. Avoid extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.
- **Detachable Cat Ears:** Handle the detachable cat ears gently when attaching or removing them to prevent damage to the clips.

7. TROUBLESHOOTING

If you encounter issues with your headset, please refer to the following common solutions:

Problem	Possible Solution
No sound from headset	<ul style="list-style-type: none">• Ensure the 3.5mm audio jack is fully inserted into the device.• Check the in-line volume wheel and increase volume.• Verify device audio settings to ensure the headset is selected as the output device.• Test the headset on another device to rule out device-specific issues.
Microphone not working	<ul style="list-style-type: none">• Ensure the microphone mute switch on the in-line control is in the 'unmute' position.• Verify device audio settings to ensure the headset's microphone is selected as the input device.• Check for any software-based microphone mute settings on your operating system or application.• Ensure the 3.5mm audio jack is fully inserted.
LED lights not working	<ul style="list-style-type: none">• Ensure the USB-A connector is securely plugged into a powered USB port.• Try a different USB port or power source.
Sound quality is poor	<ul style="list-style-type: none">• Ensure the 3.5mm audio jack is fully inserted.• Check audio settings on your device for equalization or sound enhancement options that might be affecting quality.• Test with different audio sources or devices.
